Pioneers of the Heavenly Way Theodore Austin-Sparks, 2011-09-13 Some time before these messages were given desiring to be quiet and away from many things I went down into the country with my heart very much to the Lord for His word In the early hours of the morning it seemed as though the heavens opened and everything became alive it all opened up wonderfully and centered in one phrase Pioneers of the Heavenly Way That really does sum up the verses Hebrews 11 13 16 and while we are going to think and perhaps say much about the heavenly way it is this matter of pioneering the heavenly way that will be our main concern It is necessary to begin with for us to consider to some extent the heavenly way itself but I repeat that it is this whole tremendous business of pioneering that way that I believe to be the main concern of the Lord and hence of ourselves at this time T A S

Eastern Learning and the Heavenly Way Carl Young, 2014-08-31 Tonghak or Eastern Learning was the first major new religion in modern Korean history Founded in 1860 it combined aspects of a variety of Korean religious traditions Because of its appeal to the poor and marginalized it became best known for its prominent role in the largest peasant rebellion in Korean history in 1894 which set the stage for a wider regional conflict the Sino Japanese War of 1894 1895 Although the rebellion failed it caused immense changes in Korean society and played a part in the war that ended in Japan's victory and its eventual rise as an imperial power It was in this context of social change and an increasingly perilous international situation that Tonghak rebuilt itself emerging as Ch'ndogyo Teaching of the Heavenly Way in 1906 During the years before Japan's annexation of Korea in 1910 Ch'ndogyo continued to evolve by engaging with new currents in social and political thought strengthening its institutions and using new communication technologies to spread its religious and political message In spite of Korea's loss of independence Ch'ndogyo would endure and play a major role in Korean nationalist movements in the Japanese colonial period most notably the March First independence demonstrations in 1919 It was only able to thrive thanks to the processes that had taken place in the twilight years of Korean independence This book focuses on the internal developments in the Tonghak and Ch'ndogyo movements between 1895 and 1910 Drawing on a variety of sources in several languages such as religious histories doctrinal works newspapers government reports and foreign diplomatic reports it explains how Tonghak survived the turmoil following the failed 1894 rebellion to set the foundations for Ch'ndogyo's important role in the Japanese colonial period The story of Tonghak and Ch'ndogyo not only is an example of how new religions interact with their surrounding societies and how they

consolidate and institutionalize themselves as they become more established it also reveals the processes by which Koreans coped and engaged with the challenges of social political and economic change and the looming darkness that would result in the extinguishing of national independence at the hands of Japan's expanding empire *Introduction To Chinese Aesthetics* Chunshi Yang, 2025-05-29 The purpose of this book is to systematize traditional Chinese aesthetic thought reveal its internal logic and carry out a dialogue with modern Western aesthetics so as to rebuild the Chinese aesthetic system Chinese aesthetics embodies the concept of inter subjectivity which has modern significance It is based on the idea of unity between heaven and humanity viewing aesthetic as the communication between the self subject and the world subject in contrast to the Western aesthetic epistemology that regards aesthetic as the sensory perception of the subject toward the object Additionally the methodology of intuitive perception is another characteristic of Chinese aesthetics that holds modern significance Chinese aesthetics emphasizes the emotionality of aesthetics from the perspective of value theory distinguishing itself from the epistemological tradition of Western aesthetics It differs from Western consciousness aesthetics as it embodies corporeality representing aesthetics of experience that integrates body and mind It posits that aesthetic is not purely a spiritual activity nor is it a form of contemplation but rather an experience that integrates body and mind and an idealized way of life Therefore aesthetic can nurture temperament and poeticize life Furthermore in Chinese aesthetics it is emphasized that aesthetics serves as a mode of experiencing the Way The Way is discovered through aesthetic intuition and emotional experiences and it is actualized through imagery thereby laying the groundwork for an aesthetic phenomenology The reinterpretation and reconstruction of Chinese aesthetics is a product of the dialogue between Chinese and Western aesthetics Since its publication this book has garnered widespread attention and acclaim from the academic community in China It embodies professor Yang's Transcendental Aesthetic view with Inter subjectivity bridging ancient and modern perspectives and fostering communication between Chinese and Western Aesthetics **China's Philosophical Studies:**
