Hector Servadac Jules Verne,1882      Hector Servadac Jules Verne,Norman Wolcott,Christian Sanchez,2008      **Hector Servadac** Jules Verne,2015-06-26 Excerpt from Hector Servadac Among so many effective and artistic tales it is difficult to give a preference to one over all the rest Yet certainly even amid Verne s remarkable works his Off on a Comet must be given high rank Perhaps this story will be remembered when even Round the World in Eighty Days and Michael Strogoff have been obliterated by centuries of time At least of the many books since written upon the same theme as Verne s no one has yet succeeded in equaling or even approaching it In one way Off on a Comet shows a marked contrast to Verne s earlier books Not only does it invade a region more remote than even the Trip to the Moon but the author here abandons his usual scrupulously scientific attitude In order that he may escort us through the depths of immeasurable space show us what astronomy really knows of conditions there and upon the other planets Verne asks us to accept a situation frankly impossible The earth and a comet arc brought twice into collision without mankind in general or even our astronomers becoming conscious of the fact Moreover several people from widely scattered places are carried off by the comet and returned uninjured Yet further the comet snatches for the convenience of its travelers both air and water Little useful tracts of earth are picked up and as it zvere turned over and clapped down right side up again upon the comet s surface Even ships pass uninjured through this remarkable somersault These events all belong frankly to the realm of fairyland If the situation were reproduced in actuality if ever a comet should come into collision with the earth we can conceive two scientifically possible results About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Hector Servadac: Travels and Adventures Through the Solar System Jules Verne,2016-07-27 The story starts with a comet called Gallia that touches the Earth in its flight and collects a few small chunks of it The disaster occurred on January 1 of the year 188x in the area around Gibraltar On the territory that was carried away by the comet there remained a total of thirty six people of French English Spanish and Russian nationality These people did not realize at first what had happened and considered the collision an earthquake They

first noticed weight loss Captain Servadac's adjutant Ben Zoof to his amazement jumped twelve meters high Zoof with Servadac also soon noticed that the alternation of day and night is shortened to six hours that east and west changed sides and that water begins to boil at 66 degrees Celsius from which they rightly deduced that atmosphere became thinner and pressure dropped At the beginning of their stay in Gallia they noticed the Earth with the Moon but thought it was an unknown planet Other important information was obtained through their research expedition with a ship which the comet also took During the voyage they discovered a mountain chain blocking the sea which they initially considered to be the Mediterranean Sea and then they found the island of Formentera before the catastrophe a part of the Balearic Islands where they found a French astronomer Palmyrin Rosette who helped them to solve all the mysterious phenomena They were all on the comet which was discovered by Rosette a year ago and predicted a collision course with Earth but no one believed the astronomer because a layer of thick fog at the time prevented astronomical observations in other places

**Off on a Comet** Jules Vern,2009-04-16 Jules Verne's *Off on a Comet* 1877 part his *The Extraordinary Voyages* series is about some people who are condemned to live on a comet They must form a civilized society braving out the adversities of life under harsh conditions

**Off on a Comet** Jules Verne,2002-09-01 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide
