Hegelian Ethics New Studies In Ethics:

Hegelian Ethics William Henry Walsh,1998 This examination of Hegelian ethics is based on a comparison with that of Kant The book contrasts their methods the scope of their ethical theories and their views as to the content of ethics It concludes that while Hegel worked with a moral psychology very different to Kant s his ethical theory should not be dismissed for that reason

Hegel's Ethics of Recognition Robert R. Williams,1998-02-10 In this significant contribution to Hegel scholarship Robert Williams develops the most comprehensive account to date of Hegel s concept of recognition *Anerkennung* Fichte introduced the concept of recognition as a presupposition of both Rousseau s social contract and Kant s ethics Williams shows that Hegel appropriated the concept of recognition as the general pattern of his concept of ethical life breaking with natural law theory yet incorporating the Aristotelian view that rights and virtues are possible only within a certain kind of community He explores Hegel s intersubjective concept of spirit *Geist* as the product of affirmative mutual recognition and his conception of recognition as the right to have rights Examining Hegel s Jena manuscripts his *Philosophy of Right* the *Phenomenology of Spirit* and other works Williams shows how the concept of recognition shapes and illumines Hegel s understandings of crime and punishment morality the family the state sovereignty international relations and war A concluding chapter on the reception and reworking of the concept of recognition by contemporary thinkers including Derrida Levinas and Deleuze demonstrates Hegel s continuing centrality to the philosophical concerns of our age

Salighed As Happiness? Abraham H. Khan,2006-01-01 This work is an exposition of Salighed a concept at the heart of Kierkegaard s thought and the dialectical starting point for his reflections on what it means to live a genuinely human life Kierkegaard studies to date appear to have underestimated the importance of the word and the concepts that lie behind it perhaps because the word appears easily translated into the English forms of eternal happiness or blessedness This suggests Khan does little justice to the concepts behind the word and does even less justice to the relationships of the concept of Salighed to other concepts crucial to Kierkegaard s thought Khan s approach to this word concept study has been greatly augmented by his use of the computer in analyzing word relatedness context and frequency of occurrence both within individual works and in comparing one work with a context of the Kierkegaard corpus The volume will of course be of interest to students of Kierkegaard It will also be of interest to those scholars intrigued by the possibilities of using computers in linguistic research and in literary studies **Hegel Bibliography / Hegel Bibliographie. [Part I]** Kurt

Steinhauer,2011-05-09 **The Moral Fool** Hans-Georg Moeller,2009-07-15 Justice equality and righteousness these are some of our greatest moral convictions Yet in times of social conflict morals can become rigid making religious war ethnic cleansing and political purges possible Morality therefore can be viewed as pathology a rhetorical psychological and social tool that is used and abused as a weapon An expert on Eastern philosophies and social systems theory Hans Georg Moeller questions the perceived goodness of morality and those who claim morality is inherently positive Critiquing the ethical fanaticism of Western moralists such as Immanuel Kant Lawrence Kohlberg John Rawls and the utilitarians Moeller points to the absurd fundamentalisms and impracticable prescriptions arising from definitions of good Instead he advances a theory of moral foolishness or moral asceticism extracted from the amoral philosophers of East Asia and such thinkers as Ludwig Wittgenstein and Niklas Luhmann The moral fool doesn t understand why ethics are necessarily good and he isn t convinced that the moral perspective is always positive In this way he is like most people and Moeller defends this foolishness against ethical pathologies that support the death penalty just wars and even Jerry Springer s crude moral theater Comparing and contrasting the religious philosophies of Christianity Daoism and Zen Buddhism Moeller presents a persuasive argument in favor of amorality *The Routledge Guidebook to Hegel's Phenomenology of Spirit* Robert Stern,2013-02-11 The

Contemporary Practical Philosophy James Gledhill, Sebastian Stein, 2020-04-08 While Kantian constructivism has become one of the most influential and systematic schools of thought in analytic moral and political philosophy Hegelian approaches to practical normativity hold out the promise of building upon Kantian insights into individual self determination while avoiding their dualistic tendencies James Gledhill and Sebastian Stein unite distinguished scholars of German idealism and contemporary Anglophone practical philosophy with rising stars in the field to explore whether Hegelian idealist philosophy can offer the categories that analytic practical philosophy requires to overcome the contradictions that have so far plagued Kantian constructivism The volume organizes the contributions into three parts The first of these engages debates in metaethics regarding the relationship between realism and constructivism The second part sees contributors draw on debates about the nature of political normativity focusing primarily on the problems of historical contextualism relativism and critical reflection The concluding part considers the application of the Hegelian framework to contemporary debates about specific ethical issues including multiculturalism democracy and human rights Hegel and Contemporary Practical Philosophy contributes to the on going debate about the importance of systematic philosophy in the context of practical philosophy engages with contemporary discussions about the shape of a rational social order and gauges the timeliness of Hegelian philosophy This book is a must read for scholars interested in Hegel and in the contemporary tradition of Kantian constructivism in moral and political philosophy **The Intertwining of Aesthetics and Ethics** Jadranka

Skorin-Kapov, 2016-04-21 The Intertwining of Aesthetics and Ethics Exceeding of Expectations Ecstasy Sublimity analyzes the common experiential ground for both aesthetics and ethics by considering experiential environment both nature and art the precedents to desire the notion of experience incorporating a break and the reverberations of surprise leading to the intertwining of aesthetics and ethics Jadranka Skorin Kapov discusses different philosophical positions on the relationship between nature and art in conversation with Kant Hegel Goethe Gadamer and Adorno She argues that Kantian sublimity can carry over from nature to art As part of the discussions of expectations and authenticity the author interprets Husserl's view

on expectations Heidegger's view on death and authenticity Blanchot's view on death and Arendt's view on natality As for understanding the aesthetic experience as the paradigmatic experience Skorin Kapov is informed by Dewey's work on art as experience Gadamer's work on experience of art and Jauss's work on the aesthetics of reception and the horizon of expectations After our sensibility and representational capability are broken recuperation then leads to sublimity and the subsequent feelings of admiration and or responsibility allowing for the intertwining of aesthetics and ethics Additionally elements of Kantian morality Foucault's ethics and Kierkegaard's work on interactions between aesthetics and ethics together help to characterize the relation between aesthetics and ethics Since we often encounter surprise due to unexpectedness in comedy Skorin Kapov also interprets philosophical views on the comedy and laughter including Aristotle Kierkegaard Meredith and Bergson using the theatrical work of Dario Fo as an example The novel analysis in The Intertwining of Aesthetics and Ethics will be of particular interest to students and scholars working or teaching in aesthetics phenomenology art history cultural studies and ethics

Perspectives on Contemporary Hegel Italo Testa, Luigi Ruggiu, 2016-08-01 In I that is We We that is I an international group of philosophers explore the many facets of Hegel's formula which expresses the cognitive and social structures of human life The book offers a guiding thread for the reconstruction of crucial motifs of contemporary thought such as the socio ontological paradigm the action theoretical model in moral and social philosophy the question of naturalism and the reassessment of the relevance of work and power for our understanding of human life This collection addresses the shortcomings of Kantian and constructivist normative approaches to social practices and practical rationality it involves It sheds new light on Hegel's take on metaphysics and puts into question some presuppositions of the post metaphysical interpretative paradigm

Day, Joseph Masciulli, 2007 This book measures the current institutional and political realities surrounding globalization against philosophical ideals Though the contributors share no particular orthodoxy they do share the conviction that human responsibility is possible in circumstances that often appear to deny human agency
