Hegelian Literary Perspectives Hagels Influence And Reputation The Aesthetics:

Hegelian Literary Perspectives Anne Paolucci,2002 **The Cambridge History of Literary Criticism: Volume 6, The Nineteenth Century, c.1830-1914** M. A. R. Habib,2013-02-07 In the nineteenth century literary criticism first developed into an autonomous professional discipline in the universities This volume provides a comprehensive and authoritative study of the vast field of literary criticism between 1830 and 1914 In over thirty essays written from a broad range of perspectives international scholars examine the growth of literary criticism as an institution and the major critical developments in diverse national traditions and in different genres as well as the major movements of Realism Naturalism Symbolism and Decadence The History offers a detailed focus on some of the era s great critical figures such as Sainte Beuve Hippolyte Taine and Matthew Arnold and includes essays devoted to the connections of literary criticism with other disciplines in science the arts and Biblical studies The publication of this volume marks the completion of the monumental Cambridge History of Literary Criticism from antiquity to the present day *Hegel and Aesthetics* William Maker,2000-05-11 Hegel s Lectures on Aesthetics present a systematic and historical overview of the nature and development of art in light of its meaning and philosophical significance This book considers Hegel s aesthetics from a variety of perspectives With a strong and clear introduction by William Maker the individual essays address Hegel s treatment of music painting comedy and architecture as well as his earlier writings on art his relations to Schiller and to Schlegel his treatment of romanticism the place of aesthetics in the system and his controversial claims about the overcoming of art Several perspectives focus specifically on the contemporary relevance of Hegel s aesthetics in light of developments in art since his time and especially in connection with modernism postmodernism and deconstruction The Origins of Modern Critical Thought: German Aesthetic and Literary Criticism from Lessing to Hegel David Simpson,1988-10-28 An exceptional resource this 1988 book provides a comprehensive anthology in English of the major texts of German literary and aesthetic theory between Lessing and Hegel The texts are crucial to an understanding not only of the Romantic period itself but also of the foundational arguments of literary theory Forthcoming Books Rose Arny,2002 *The Routledge Companion to Aesthetics* Berys Gaut,Dominic Lopes,2005-07-25 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Cold Fusion** Gennady Barabtarlo,2000-05-01 While historical and political aspects of the Russo German relationship over the past three to four centuries have received due attention from scholars the range of the far more diverse important and peculiar cultural relations still awaits full assessment This volume shows how enriching these cultural influences were for both countries affecting many spheres of intellectual and daily life such as philosophy and religion education and ideology sciences and their application arts and letters custom and language The German Russian relationship has always been particularly intense Oscillating as it has between infatuation and contempt it has always been marked by a singular paradox a German cultural presence in Russia resulting either in a more or less complete fusion as in the case of Russified German or in a pronounced

mutual repulsion accompanied by the denigration of each other's culture as inferior. It is this curious paradox that determines the perspectives of the articles that were specially written for this volume providing it with a unifying focus.

The Politics of Perception and the Aesthetics of Social Change Jason Miller, 2021-08-31 In both politics and art in recent decades there has been a dramatic shift in emphasis on representation of identity. Liberal ideals of universality and individuality have given way to a concern with the visibility and recognition of underrepresented groups. Modernist and postmodernist celebrations of disruption and subversion have been challenged by the view that representation is integral to social change. Despite this convergence neither political nor aesthetic theory has given much attention to the increasingly central role of art in debates and struggles over cultural identity in the public sphere. Connecting Hegelian aesthetics with contemporary cultural politics, Jason Miller argues that both the aesthetic and political value of art are found in the reflexive self-awareness that artistic representation enables. The significance of art in modern life is that it shows us both the particular element in humanity as well as the human element in particularity. Just as Hegel asks us to acknowledge how different historical and cultural contexts produce radically different experiences of art, identity-based art calls on its audiences to situate themselves in relation to perspectives and experiences potentially quite remote or even inaccessible from their own. Miller offers a timely response to questions such as: How does contemporary art's politics of perception contest liberal notions of deliberative politics? How does the cultural identity of the artist relate to the representations of cultural identity in their work? How do we understand and evaluate identity-based art aesthetically? Discussing a wide range of works of art and popular culture from *Antigone* to *Do the Right Thing* and *The Wire*, this book develops a new conceptual framework for understanding the representation of cultural identity that affirms art's capacity to effect social change.

Living Poetically Sylvia Walsh, 2012-04-30 *Living Poetically* is the first book to focus primarily on Kierkegaard's existential aesthetics as opposed to traditional aesthetic features of his writings such as the use of pseudonyms, literary techniques and figures, and literary criticism. *Living Poetically* traces the development of the concept of the poetic in Kierkegaard's writings as that concept is worked out in an ethical-religious perspective in contrast to the aesthetics of early German romanticism and Hegelian idealism. Sylvia Walsh seeks to elucidate what it means in Kierkegaard's view to be an authentic poet in the form of a poetic writer and to clarify his own role as a Christian poet and writer as he understood it. Walsh shows that in spite of strong criticisms made of the poetic in some of his writings, Kierkegaard maintained a fundamentally positive understanding of the poetic as an essential ingredient in ethical and religious forms of life. Walsh thus reclaims Kierkegaard as a poetic thinker and writer from those who would interpret him as an ironic practitioner of an aestheticism devoid of and detached from the ethical-religious as well as from those who view him as rejecting the poetic and aesthetic on ethical or religious grounds. Viewing contemporary postmodern feminism and deconstruction as advocating a romantic mode of living poetically, Walsh concludes with a feminist reading of Kierkegaard that affirms both individuality and relatedness, commonalities and

differences between the self and others men and women for the fashioning of an authentic mode of living poetically in the present age

The End of Literature, Hegel, and the Contemporary Novel Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel

A History of Hegelianism in Golden Age Denmark, Tome III Jon Stewart, 2025-03-28 This is the third volume of a three volume work dedicated to exploring the influence of G W F Hegel's philosophical thinking in Golden Age Denmark The work demonstrates that the largely overlooked tradition of Danish Hegelianism played a profound and indeed constitutive role in many spheres of the Golden Age culture This third tome covers the most exciting and dynamic time in the Danish Hegel reception from 1842 to 1855 This heterogeneous period saw the emergence of several new figures many of whom were associated with the left Hegelian school This period is best known for the publication of the pseudonymous works of S ren Kierkegaard The present tome places these famous works in the context of other contemporary Danish discussions about Hegel's philosophy It shows that many of Kierkegaard's criticisms had been raised by other Danish thinkers before him and that a large part of his polemical campaign was aimed at the leading figures of the previous periods of the Danish Hegel reception namely Johan Ludvig Heiberg and Hans Martensen
