Podmore, 2016-05-23 This book examines the relationship between transcendence and immanence within Christian mystical and apophatic writings Original essays from a range of leading established and emerging scholars in the field focus on the roles of language signs and images and consider how mystical theology might contribute to contemporary reflection on the Word incarnate This collection of essays re-examines works from such canonical figures as Eckhart Augustine Plotinus Pseudo Dionysius Nicolas of Cusa Teresa of Avila John of the Cross Julian of Norwich along with the philosophical thought of Iris Murdoch Jacques Lacan and Martin Heidegger and the contemporary phenomena of the Emerging Church Presenting new readings of key ideas in mystical theology and renewed engagement with the visionary and the everyday the therapeutic and the transformative these essays question how we might think about what may lie between transcendence and immanence *Heidegger's Philosophy of Being* Herman Philipse, 1999 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated question of being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the incidental in Heidegger's philosophy Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's idea of being and shows After Pentecost: Language and Biblical

Interpretation Zondervan,2022-03-01 There is always some view of language built into biblical interpretation If we are to read Scripture to hear God's address it is vital that we attend to current debates about language and become critically conscious in this respect Craig Bartholomew After Pentecost is the second volume from the Scripture and Hermeneutics Seminar This annual gathering of Christian scholars from various disciplines was established in 1998 and aims to reassess the discipline of biblical studies from the foundations up and forge creative new ways for reopening the Bible in our cultures The Seminar was aware from the outset that any renewal of biblical interpretation would have to attend to the issue of language In this rich and creative volume the importance of linguistic issues for biblical interpretation is analyzed the challenge of postmodernism is explored and some of the most creative recent developments in philosophy and theology of language are assessed and updated for biblical interpretation CONTRIBUTORS INCLUDE Mary Hesse Ray Van Leeuwen Anthony Thiselton Kevin Vanhoozer Nicholas Wolterstorff Heidegger's Philosophy of Being Herman Philipse,2021-05-11 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated Question of Being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the periphery the essential from the incidental in Heidegger's philosophy Among other achievements this allows him to shed new light on the controversial relationship between Heidegger's life and thought in particular the connections between his philosophy and his involvement with Nazism Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's thought He then identifies various strands or leitmotifs in Heidegger's idea of being and shows how these strands hang together in the philosopher's work In doing so Philipse offers new insights into Heidegger's views on such subjects as human existence authenticity logic and language and into his readings of such philosophers as Aristotle Kant Hegel and Nietzsche Philipse then integrates into his interpretation of Heidegger's overall theory the latest scholarship about the philosopher's engagement with Nazism Finally Philipse examines the fundamental structures of Heidegger's philosophy and assesses whether Heidegger's views are true probable or possess some other epistemic or existential value As the most thorough interpretation of Heidegger's theory of being now available this work represents a new phase in the vigorous debate about the philosopher's life and works **Kierkegaard's Influence on Literature, Criticism, and Art: The Anglophone world** Jon Bartley Stewart,2013 Vol 2 is dedicated to the use of Kierkegaard by later Danish writers Almost from the beginning Kierkegaard's works were standard reading for these authors Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings These included the theoretical leader of the movement the critic Georg Brandes who wrote an entire book on Kierkegaard and the novelists Jens Peter Jacobsen and Henrik Pontoppidan *On Heidegger's Nazism and Philosophy* Tom Rockmore,1997-01-01 American philosopher Tom

Rockmore boldly refutes suggestions that German philosopher Martin Heidegger's political stance was accidental or adopted under coercion. Rockmore argues that Heidegger's thought and his Nazism are inseparably intertwined. Combining extensive documentation with philosophical and historical analysis, this book raises profound questions about the social and political responsibility of philosophy.

**Posthuman Space in Samuel Beckett's Short Prose** Jonathan Boulter, 2018-12-19  
A reading of the philosophical idea of world as it relates to the posthuman subject in Beckett's short prose. Jonathan Boulter offers the reader a way of understanding Beckett's presentation of the human more precisely posthuman subject in his short prose. These texts are notoriously difficult yet utterly compelling. This compelling difficulty arises from Beckett's radical dismantling of the idea of the human. His short texts offer instead an image of a being who may be posthumous or ultimately beyond categories of life and death. And yet despite this dismantling, the narrators of these texts still find themselves placed within material recognisable spaces. This book explores what the idea of world can mean to a subject who appears to have moved into a material even ecological space that is beyond categories of life and death being and world.

**Key Features**  
Provides a philosophical reading of Samuel Beckett.  
Rethinks Beckett in relation to the posthuman.  
Contributes to a relatively ignored aspect of Samuel Beckett's writing: the short prose.

**The Cambridge Companion to Heidegger's Being and Time** Mark A. Wrathall, 2013-07-31  
The Cambridge Companion to Heidegger's Being and Time contains seventeen chapters by leading scholars of Heidegger. It is a useful reference work for beginning students but also explores the central themes of Being and Time with a depth that will be of interest to scholars. The Companion begins with a section by section overview of Being and Time and a chapter reviewing the genesis of this seminal work. The final chapter situates Being and Time in the context of Heidegger's later work. The remaining chapters examine the core issues of Being and Time including the question of being, the phenomenology of space, the nature of human being, our relation to others, the importance of moods, the nature of human understanding, language, Heidegger's views on idealism and realism, and his position on skepticism and truth. Heidegger's account of authenticity with a focus on his views on freedom, being toward death, and resoluteness, and the nature of temporality and human historicity.

*The Resilience of Hope* Janette McDonald, Andrea M. Stephenson, 2010  
Hope. What is it? How do we get it? Is it part of being human? Is it something that carries us through hard times? Is it something illusory? This book, which stems from the 4th Interdisciplinary net conference on Hope: Probing the Boundaries held in September 2008 at Mansfield College in Oxford, England, explores all of these questions and many more. As a truly interdisciplinary venture, this book approaches the theme of hope from the point of view of the philosophical, theological, political, literary, psychological, and sociological, and presents hope not just as an abstract theme to be pondered but as an aspect of human living and thinking that has a profound impact on our lives. The conclusions reached in each chapter demonstrate the variety of ways in which hope is conceived as well as the tensions inherent in any discussion of the benefits of hope and the intricacies in dealing with hope on a theoretical and a practical level. This book is perfect for anyone wondering where hope

fits into our lives during these troubling times      *Rethinking Intellectual History* Dominick LaCapra,1983 Dominick LaCapra calls for a new view of intellectual history one that will revitalize the importance of reading and interpreting significant texts In ten essays he reformulates the problem of the relation between the great texts of the Western tradition and their contexts Seeking to refine context into a concept useful to historical research LaCapra urges intellectual historians to learn from lessons and developments in contemporary literary criticism and philosophy fields that have undertaken a radical reassessment of the reading of texts      **Rootedness** Christy Wampole,2016-04-06 Roots are good to think with indeed most of us use them as a metaphor every day A root can signify the hiddenness of our beginnings or in its bifurcating structure the various possibilities in the life of an individual or a collective This book looks at rootedness as a metaphor for the genealogical origins of people and their attachment to place and how this metaphor transformed so rapidly in twentieth century Europe Christy Wampole s case study is France with its contradictory legacies of Enlightenment universalism anti-Semitism and colonialism At one time French nationalist rhetoric portrayed the Jews as unrooted and thus unrighteous people After the two world wars the root metaphor figured in the new French philosophy notably Deleuze and Guattari And recently Caribbean thinkers in Haiti Guadeloupe and Martinique have debated whether their roots were in Africa France the Caribbean or in some pan national network that could not be identified on a map Walpole argues that while the metaphor was perhaps once useful in the establishment of communities and identities that usefulness has expired The longer we remain attached to the figure of rootedness the more discord it sows Giving up on the metaphor of rootedness Wampole urges allows us to see at last that we are in fact unbound by the land we inhabit      Transformational Tourism Yvette Reisinger,2013 This book deals with the issue of how travel and tourism if developed in a proper form can contribute to human transformation growth and development and change human behaviour and our relationship with the world The volume investigates the experiences offered by travel and tourism that can change travellers as human beings and their relationships and interactions with natural socio cultural economic political and technological environments The book has been published in two volumes This first volume focuses on the tourist perspective and the tourist self It consists of 16 chapters covering different types of tourism including wellness retreat religious and spiritual tourism extreme sports backpacking and cultural tourism WWOOFing and ecotourism and volunteer and educational tourism This book is primarily intended for tourism students and tourism programmes in business and non business schools However it could also appeal to students academics and professionals from disciplines that deal with human development and behavioural changes

George Steiner George Steiner,1984 This volume offers a rich sampling of George Steiner s writing including essays from his seminal books *After Babel* *The Death of Tragedy* Tolstoy or Dostoevsky *Language and Science* and *Antigones* It also includes excerpts from his novel *The Portage of San Cristobel* of A H and a reprint of *The Cleric of Treason* on the British spy scandal surrounding Sir Anthony Blunt      *Ineffability and Religious Experience* Guy Bennett-Hunter,2015-10-06 Ineffability

that which cannot be explained in words lies at the heart of the Christian mystical tradition This is the first book to engage with the concept of ineffability within contemporary philosophy of religion and provides a starting point for further scholarly debate *Anthropology and the Human Subject* Brian Morris, 2014-04-07 The German philosopher Immanuel Kant famously defined anthropology as the study of what it means to be a human being Following in his footsteps *Anthropology and the Human Subject* provides a critical comprehensive and wide ranging investigation of conceptions of the human subject within the Western intellectual tradition focusing specifically on the secular trends of the twentieth century Encyclopaedic in scope lucidly and engagingly written the book covers the man and varied currents of thought within this tradition Each chapter deals with a specific intellectual paradigm ranging from Marx's historical materialism and Darwin's evolutionary naturalism and their various off shoots through to those currents of thought that were prominent in the late twentieth century such as for example existentialism hermeneutics phenomenology and poststructuralism With respect to each current of thought a focus is placed on their main exemplars outlining their biographical context their mode of social analysis and the ontology of the subject that emerges from their key texts The book will appeal not only to anthropologists but to students and scholars within the human sciences and philosophy as well as to any person interested in the question What does it mean to be human Ambitious in scope and encyclopaedic in execution his style is always lucid He makes difficult work accessible His prose conveys the unmistakable impression of a superb and meticulous lecturer at work Anthony P Cohen Journal Royal Anthropological Institute There is a very little I can add to the outstanding criticism Brian Morris levels at deep ecology Insightful as well as incisive I have found his writings an educational experience Murray Bookchin Institute of Social Ecology

Western Conceptions of the Individual Brian Morris, 2024-11-01 This is a comprehensive study of the varying conceptions of the human subject in the Western intellectual tradition Although informed by an anthropological perspective the author draws on material from all the major intellectual disciplines that have contributed to this tradition and offers biographical and theoretical vignettes of all the major Western scholars By scrutinizing the classical texts of the Western tradition he succeeds in delineating the differing conceptions of the human individual which emerge from these writings and gives a guide to the most important ideas in Western cultural traditions Beyond Theism and Atheism: Heidegger's Significance for Religious Thinking R.S. Gall, 2012-12-06 My first year in graduate school marked by initial exposure to Heidegger and some of his important early essays At the time disenchanted with the state in which religious thought lay I was quickly struck by the potential Heidegger presented for breaking new ground in a field that had seemingly exhausted itself by reworking the same old issues and answers That insight along with the conviction that Heidegger had been misused and misunderstood by theologians and religious thinkers ever since he burst upon the intellectual scene with the publication of *Sein und Zeit* grew throughout my graduate career and resulted in a dissertation on Heidegger and religious thinking of which the present text is a revised and updated version This text reflects my belief that Heidegger when properly understood on such matters

as truth God and gods and faith presents us with a unique voice and vision that cannot be co-opted into any sort of theology  
be it negative existential dialectical or Thomistic and indeed seriously challenges the viability of any theology
