Heideggers Estrangements Language Truth And Poetry In The Later Writings:

Heidegger's Estrangements Gerald L. Bruns, 1989 This book concerns the relationship between language and poetry in Heidegger's later writings Gerald L. Bruns illuminates these difficult and strange writings by analyzing his style and form and by reflecting on the philosopher's insights

Heidegger and Ethics Joanna Hodge, 2012-09-10 Heidegger and ethics is a contentious conjunction of terms Martin Heidegger himself rejected the notion of ethics while his endorsement of Nazism is widely seen as unethical This major new study examines the complex and controversial issues involved in bringing them together By working backwards through his work from his 1964 claim that philosophy has been completed to *Being and Time* his first major work Joanna Hodge questions Heidegger's denial that his enquiries were concerned with ethics She discovers a form of ethics in Heidegger's thinking which elucidates his important distinction between metaphysics and philosophy Against many contemporary views she proposes therefore that ethics can be retrieved and questions the relation between ethics and metaphysics that Heidegger had made so pervasive

Being Jewish/reading Heidegger Allen Michael Scult, 2004 This innovative book investigates being Jewish not as a sectarian religiosity but as a way of being in the world particularly suited to understanding Heidegger's early phenomenology At its core is an intimate engagement with sacred texts which grounds being Jewish in a way of life constituted as a way of reading a way of reading transmitted to succeeding generations as a passionate teaching Allen Scult argues that Heidegger was similarly involved in a passionate attempt to introduce his students to philosophical practice through a personal engagement with the words of Aristotle Scult traces the hermeneutical affinity even intimacy between Judaism as a way of life grounded in an intense interpretive relationship to the Torah and Heidegger's view of philosophical practice as a similarly intense interpretive relationship to the founding texts of Western philosophy In tracing the dynamics of this relationship in Heideggerian and Jewish hermeneutics Scult not only finds mutually enlightening points of contact between the two but also uncovers new ways of understanding how Heidegger's fundamental ontology is grounded in the lived experience of religion Allen Scult is National Endowment for the Humanities Professor of Philosophy and Rhetoric at Drake University He is co-author of *Rhetoric and Biblical Interpretation* *Being Jewish* Reading Heidegger ponders what it means to read Heidegger on his own terms that is to read him from the place where one is in Heidegger's language in and from the facticity of one's own Being To be Jewish according to Scult is to be entexted with Torah Scult argues that this notion of binding one's being with a textual tradition underlies Heidegger's theory of *Dasein* He uses Heidegger's lectures on Aristotle's *Rhetoric* to illustrate how Heidegger reads Aristotle and in doing so teaches the Jew how to be Jewish in the world through an engagement with a textual tradition Torah Shaul Magid The Jewish Theological Seminary of America a compelling account of how being Jewish enacts the sort of concrete revealing relationship to a text and a world that makes meditation on being as Heidegger early and late understands it possible Only someone with Allen Scult's trained ear for the subtle interplay of rhetoric and hermeneutics could make us see the remarkable parallels between

the Rabbis reading of the Torah and Heidegger's reading of Aristotle he makes a trenchant case for a reading of Heidegger not as prophet but as Rabbinic sage Daniel O Dahlstrom Boston University Being Jewish Reading Heidegger ponders what it means to read Heidegger on his own terms to read him from the place where one is As a Jew seriously engaged with Heidegger as both a philosopher and a thinker Scult posits that being Jewish is not simply a consequence of birth or biology but of binding one's being with a textual tradition Torah This book is really about a search for b Being Jewish using Heidegger as a guide a guide that shows the seeker how text and person read and constructively use one other Scult succeeds in presenting how one can be a serious disciple of Heidegger and a serious Jew and that the former in many ways only enriches the latter Shaul Magid The Jewish Theological Seminary of America A compelling account of how being Jewish enacts the sort of concrete revealing relationship to a text and a world that makes meditation on being as Heidegger early and late understands it possible Only someone with Allen Scult's trained ear for the subtle interplay of rhetoric and hermeneutics could make us see the remarkable parallels between the Rabbis reading of the Torah and Heidegger's reading of Aristotle He makes a trenchant case for a reading of Heidegger not as prophet but as Rabbinic sage Daniel O Dahlstrom

Scandal and Aftereffect Steven Ungar, 1995 Scandal and Aftereffect will make a crucial contribution to discussions about the function of memory in the relationship of history to cultural production and about the history of history itself

Literature 1830-1914 R. Ebbatson, 2013-05-23 This study examines the vital centrality of readings of nature in a variety of literary forms in the period 1830-1914 It is exploratory and original in approach stressing the philosophical and cultural implications in a range of texts from Tennyson Hardy Jefferies and Thomas **D.H. Lawrence: The Thinker as Poet** F.

Becket, 2015-12-17 D H Lawrence The Thinker as Poet addresses a particular body of language and thought within Lawrence

s oeuvre where the metaphorical the poetic and the philosophical are intricately enmeshed Lawrence emerges as a writer who pulls metaphor away from its merely rhetorical moorings his distinctive style is the hallmark of one who thinks not analytically but poetically about the birth of the self the body unconscious complex kinds of otherness and about metaphor itself as a mode of understanding **Rhetoric's Earthly Realm** Bernard Alan Miller,2011-05-07 Plato privileges the realm of absolute reality and truth above and beyond the world of language discourse and rhetoric For Plato earth harbors the facade of mere appearances and the evils of the bewitching powers of language In RHETORIC S EARTHLY REALM HEIDEGGER SOPHISTRY AND THE GORGIAN KAIROS Bernard Alan Miller counters this intellectual legacy with an innovative and thoroughly conceived theory of rhetoric one concerned with earth in its Heideggerian aspect complex and multifaceted at the root of a phenomenology placing the focus on earth as the power of Being itself whereby it is manifest purely as language

Twenty-First Century Fiction S. Adiseshiah,R. Hildyard,2015-12-04 This lively new volume of essays examines what happens now in 21st century fiction Fresh theoretical approaches to writers such as Salman Rushdie David Peace Margaret Atwood and Hilary Mantel and identifications of 21st century themes tropes and styles combine to produce a timely critical intervention into genuinely contemporary fiction **Maurice Blanchot** Gerald L. Bruns,2005-04-13 Ch 9 pp 207 234 Blanchot s holocaust discusses the French thinker s philosophy of the Holocaust **All Religion Is Inter-Religion** Kambiz GhaneaBassiri,Paul Robertson,2019-07-11 All Religion Is Inter Religion analyses the ways inter religious relations have contributed both historically and philosophically to the constructions of the category of religion as a distinct subject of study Regarded as contemporary classics Steven M Wasserstrom s Religion after Religion 1999 and Between Muslim and Jew 1995 provided a theoretical reorientation for the study of religion away from hierophanies and ultimacy and toward lived history and deep pluralism This book distills and systematizes this reorientation into nine theses on the study of religion Drawing on these theses and Wasserstrom s opus more generally a distinguished group of his colleagues and former students demonstrate that religions can and must be understood through encounters in real time and space through the complex relations they create and maintain between people and between people and their pasts The book also features an afterword by Wasserstrom himself which poses nine riddles to students of religion based on his personal experiences working on religion at the turn of the twenty first century **The Experience of Being as Goal of Human Existence** Versus A. George,2000 **Politics of Security** Michael Dillon,2002-01-31 In this critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger Politics of Security establishes the relationship between Heidegger s radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek asphaleia not to trip up or fall down and a

unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis Politics of Security will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger Powerless Fictions? Ricardo Miguel-Alfonso,2023-04-12 Postmodern Studies deals with any aspect of postmodernism or of postmodernity and the postmodern in relation to literature The Modern Philosophical Revolution David Walsh,2008-09-08 The Modern Philosophical Revolution breaks new ground by demonstrating the continuity of European philosophy from Kant to Derrida Much of the literature on European philosophy has emphasised the breaks that have occurred in the course of two centuries of thinking But as David Walsh argues such a reading overlooks the extent to which Kant Hegel and Schelling were already engaged in the turn toward existence as the only viable mode of philosophising Where many similar studies summarise individual thinkers this book provides a framework for understanding the relationships between them Walsh thus dispels much of the confusion that assails readers when they are only exposed to the bewildering range of positions taken by the philosophers he examines His book serves as an indispensable guide to a philosophical tradition that continues to have resonance in the post modern world **Intrigues** Gabriel Riera,2006 This book examines the possibility of writing the other and explores whether an ethical writing that preserves the other as such is possible It also discusses what the implications are for an ethically inflected criticism Emmanuel Levinas and Maurice Blanchot whose works constitute the most thorough contemporary exploration of the question of the other and of its relation to writing are Riera s main focus Critics in recent years have discussed an ethical moment or turn characterized by the other s irruption into the order of discourse The other becomes a true crossroads of disciplines since it affects several aspects of discourse the constitution of the subject the status of knowledge the nature of representation and what that representation represses gender power Through close readings of texts by Heidegger Levinas and Blanchot this book examines how the question of the other engages the very limits of philosophy rationality and power **Maps and Mirrors** Steve Martinot,2001 Maps and Mirrors explores the links and gaps between the aesthetic and the political at the intersection of philosophy and literature Testing the major voices of aesthetic and literary theory it raises important questions about the implicit political contexts and commitments of thinkers from Kant to de Man Taken together the essays provide a tour of the complexities and richness of contemporary modes of critique The End of Comparative Philosophy and the Task of Comparative Thinking Steven Burik,2010-07-02 How do differences in language influence comparative philosophy Although the Orientalism famously described by Edward Said is rare today Steven Burik maintains that comparative philosophy often subtly privileges one tradition over another since certain conceptual schemes are so embedded in Western languages that it is difficult not to revert to them Arguing for a new approach that acknowledges how theory and practice cannot be separated in comparative philosophical endeavors Burik

provides nonmetaphysical deconstructionist readings of Heidegger and Derrida and uses these to give a new reading of classical Daoism The ideas of language advanced therein can aid the project of comparative philosophy specifically and philosophies generally in trying to overcome ways of thinking that have dominated Western philosophy for twenty five hundred years and still frustrate intercultural encounters

Space, Time, and Presence in the Icon Clemena

Antonova,2016-03-09 This book contributes to the re emerging field of theology through the arts by proposing a way of approaching one of the most challenging theological concepts divine timelessness through the principle of construction of space in the icon One of the main objectives of this book is to discuss critically the implications of reverse perspective which is especially characteristic of Byzantine and Byzantine art Drawing on the work of Pavel Florensky one of the foremost Russian religious philosophers at the beginning of the 20th century Antonova shows that Florensky's concept of supplementary planes can be used productively within a new approach to the question Antonova works up new criteria for the understanding of how space and time can be handled in a way that does not reverse standard linear perspective as conventionally claimed but acts in its own way to create eternalised images which are not involved with perspective at all Arguing that the structure of the icon is determined by a conception of God who exists in past present and future simultaneously Antonova develops an iconography of images done in the Byzantine style both in the East and in the West which is truer to their own cultural context than is generally provided for by western interpretations This book draws upon philosophy theology and liturgy to see how relatively abstract notions of a deity beyond time and space enter images made by painters
