**Literary Translation** Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter relatedness between the concepts and phenomena of world literature and translation The term *worlding* presented by str ur Eysteinnsson in this collection is coined by Sarah Lawell in her book *Reading World Literature* 1994 where it denotes the reader's pleasurable reading of the meeting of worlds in a literary translation i.e. the meeting of the different cultural environments embodied in a translation from one language into another Through such reading the reader in fact participates in creating true world literature This is a somewhat unorthodox conception of world literature conventionally defined as great literature shelved in a majestic canonical library In the opening article sparking off the theme of this collection Eysteinnsson asks Which text does the concept of world literature refer to It can hardly allude exclusively to the original which the majority of the work's readers may never get to know On the other hand it hardly refers to the various translations as seen apart from the original It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages Picking up on this question at issue all the essays in this collection throw light on the problematic mechanics of cultural encounters when reading the world in literary translation i.e. in the texts themselves as well as in the ways in which they have become institutionalised as world literature      **Raza Rising** Richard J. Gonzales, 2016-03-15 Based on articles written for the Fort Worth Star Telegram author Richard J Gonzales draws on his educational inner city and professional life experiences to weave eyewitness testimony into issues facing Chicanos including economic health education criminal justice politics immigration and cultural issues *Raza Rising* presents a personal recounting of a Chicano's struggle with and understanding of the socio economic policies and historical actions that impact their ascendancy *Raza Rising* offers first hand observations supported by well documented scholarly research of Chicanos growth and subsequent struggles to participate fully in North Texas political and economic life *Raza Rising* takes the reader to the organization of a Fort Worth immigration reform march to the actual march with 20 000 people on Main Street on Palm Sunday to a protest demonstration of the City of Farmers Branch's attempt to prohibit renting to the undocumented immigrant to the author's awakening in Chicago on the importance of learning and to his poignant experience as a guest speaker in a Fort Worth public school classroom Other observations offer insight on how Chicanos struggle with their ethnic identity and understanding of their history In addition

the book highlights important historical and political events that illustrate Chicanos attempts to overcome barriers to their rise At a time when global economic competition threatens the United States first world status this country must nurture academic excellence for all its citizens Raza Rising provides specific explanations for the Chicano educational lag and workable solutions to accelerate their political economic and academic achievements Prophetic state and national demographers have forecasted the steady increase in Chicano populations and decrease in white populations Raza Rising offers students instructors policy makers politicians and neighbors a deeper understanding of Chicanos who in the near future will transition from minority to majority status in Texas
