Heinar Kipphardt, In der Sache J. Robert Oppenheimer Ferdinand Fasse, 1988 **Oppenheimer** Charles Thorpe, 2008-09-15 At a time when the Manhattan Project was synonymous with large scale science physicist J Robert Oppenheimer 1904-67 represented the new sociocultural power of the American intellectual Catapulted to fame as director of the Los Alamos atomic weapons laboratory Oppenheimer occupied a key position in the compact between science and the state that developed out of World War II By tracing the making and unmaking of Oppenheimer's wartime and postwar scientific identity Charles Thorpe illustrates the struggles over the role of the scientist in relation to nuclear weapons the state and culture A stylish intellectual biography Oppenheimer maps out changes in the roles of scientists and intellectuals in twentieth century America ultimately revealing transformations in Oppenheimer's persona that coincided with changing attitudes toward science in society This is an outstandingly well researched book a pleasure to read and distinguished by the high quality of its observations and judgments It will be of special interest to scholars of modern history but non specialist readers will enjoy the clarity that Thorpe brings to common misunderstandings about his subject Graham Farmelo Times Higher Education Supplement A fascinating new perspective Thorpe's book provides the best perspective yet for understanding Oppenheimer's Los Alamos years which were critical after all not only to his life but for better or worse the history of mankind Catherine Westfall Nature **In der Sache J. Robert Oppenheimer** Heinar Kipphardt, 2005

Narrative as Counter-Memory Reiko Tachibana, 1998-01-01 A pioneering study of German and Japanese postwar fiction providing a broad cultural basis for understanding a half century of responses to World War II from within the two societies **Arts: A Science Matter** Maria Burguete, Lui Lam, 2011-04-26 This book treats arts as part of science from the unified perspective of Science Matters It contains 17 chapters with 18 contributors who are prominent humanists professional artists or scientists It consists of three parts Part I Philosophy and History of Arts Part II Arts in Action Part III Understanding Arts The book is aimed at both research scholars and laypeople and is unique in two important aspects It is probably the first and only book that academic professionals and practicing artists contribute to the same book as equals on the common theme of creating and understanding arts Artists here include Cristina Leiria whose huge Kun Iam Goddess of Mercy sculpture is an important landmark in Macau and the famous movie director Hark Tsui who is publishing his first ever article on movie making Perhaps more importantly a new understanding of the origin and nature of arts is offered for the first time which is more convincing than all the other hypotheses put forth in the last two thousand years **Jews in German Literature Since 1945** Pól Ó Dochartaigh, 2000 This volume contains some 46 essays on various aspects of contemporary German Jewish literature The approaches are diverse reflecting the international origins of the contributors who are based in seventeen different countries Holocaust literature is just one theme in this context others are memory identity Christian Jewish relations anti Zionism la belle juive and more Prose poetry and drama are all represented and there is a major debate

on the controversial attempt to stage Fassbinder's *Der Müll, die Stadt und der Tod* in 1985. The overall approach of the volume is an inclusive one. In his introduction the editor calls for a reappraisal of the terms of German Jewish discourse away from the notion of Germans and Jews and towards the idea that both Jews and non-Jews—all of them Germans—have contributed to the corpus of German Jewish literature. *Literatur im Jahrhundert der Physik* Clemens Özelt, 2018-07-02. Interaktive Gattungen machen dominante Linien der komplexen Austauschbeziehungen zwischen Literatur und Physik im 20. Jahrhundert lesbar. *Jahrhundertwissenschaft: Schicksalswissenschaft oder Leitwissenschaft des Jahrhunderts* sind wiederkehrende Apostrophierungen, mit denen Wissenschaftshistoriker auf die singuläre Rolle der Physik im 20. Jahrhundert hinweisen. Wie die Literatur diese Bedeutung erfasst und mitgestaltet hat und dabei ihrerseits von der Physik umgestaltet wurde, zeigt die Studie in funktionsgeschichtlich orientierten Gattungsanalysen. Gattungen reagieren als Bedürfnissynthesen auf gesellschaftliche Herausforderungen, machen auf sie aufmerksam und gestalten sie so auch beim Aufstieg einer neuen Leitwissenschaft. Die fünf interaktiven Gattungen Roman, Dialog, Brief, Tagebuch und Tragödie werden als Formungen solcher gesellschaftlichen Bedürfnisse vorgestellt, die einerseits den engen Rahmen der Fachwissenschaft Physik, andererseits den Bereich der literarischen Imagination bersteigen. Sie machen erstmals dominante Linien der komplexen Austauschbeziehungen lesbar. *Relations of Literature and Science*, 1982. *Staged* Minou Arjomand, 2018-09-11. Theater requires artifice; justice demands truth. Are these demands as irreconcilable as the pejorative term *show trials* suggests? After the Second World War, canonical directors and playwrights sought to claim a new public role for theater by restaging the era's great trials, as shows *The Nuremberg Trials*, the Eichmann trial, and the Auschwitz trials, were all performed multiple times, first in courts and then in theaters. Does justice require both courtrooms and stages? In *Staged*, Minou Arjomand draws on a rich archive of postwar German and American rehearsals and performances to reveal how theater can become a place for forms of storytelling and judgment that are inadmissible in a court of law but indispensable for public life. She unveils the affinities between dramatists like Bertolt Brecht, Erwin Piscator, and Peter Weiss and philosophers such as Hannah Arendt and Walter Benjamin, showing how they responded to the rise of fascism with a new politics of performance. Linking performance with theories of aesthetics, history, and politics, Arjomand argues that it is not subject matter that makes theater political, but rather the act of judging a performance in the company of others. *Staged* weaves together theater history and political philosophy into a powerful and timely case for the importance of theaters as public institutions. **Encyclopedia of German Literature** Matthias Konzett, 2015-05-11. Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities, the *Encyclopedia of German Literature* includes more than 500 entries on writers, individual work, and topics essential to an understanding of this rich literary tradition. Drawing on the expertise of an international group of experts, the essays in the encyclopedia reflect developments of the latest scholarship in German literature, culture, and history.
