Hell Or Connaught! Peter Berresford Ellis,1975 **We Irish** Denis Donoghue,1988-01-01 Essays discuss William Butler Yeats James Joyce James Stephens Sean O Casey Frank O Connor Sean O Faolain and Irish society The Economic Thought of William Petty Hugh Goodacre,2018-05-11 William Petty 1623 1687 long recognised as a founding father of English political economy was actively involved in the military colonial administration of Ireland following its invasion by Oliver Cromwell and to the end of his days continued to devise schemes for securing England s continued domination of that country It was in that context that he elaborated his economic ideas which consequently reflect the world of military bureaucratic officialdom neo feudalism and colonialism he served This book shows that much of the theory and methodology in use within the economics discipline of today has its roots in the writings of Petty and his contemporaries rather than in the supposedly universalistic and enlightened ideals of Adam Smith a century later Many of the fundamental ideas of today s development economics for example are shown to have been deployed by Petty explicitly for the purpose of furthering England s colonialist objectives while his pioneering writings on fiscal issues and national accounting theory were equally explicitly directed towards the raising of funds for England s predatory colonial and commercial wars This book argues that exploring the historical roots of economic ideas and methods in this way is an essential aspect of assessing their appropriateness and analytical power today and that this is more relevant than ever It will be of interest to advanced students and researchers in the history of economic thought early modern economic history development economics and economic geography **The to Z of the British and Irish Civil Wars 1637-1660** Martyn Bennett,2010-04-06 Through a concise historical chronology and comprehensive overview users of The A to Z of the British and Irish Civil Wars 1637 1660 will find an insightful explanation of the people places and events that indelibly shape the United Kingdom s seventeenth century history Th **Conquest and Land in Ireland** John Cunningham,2011 Mid seventeenth century Ireland experienced a revolution in landholding Coming in the aftermath of the devastating Cromwellian conquest this seismic shift in the social and ethnic distribution of land and power from Irish Catholic to English Protestant hands was to play a major role in shaping the history of the country Back cover Reader's Guide to Military History Charles Messenger,2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations

Iraq Tareq Y. Ismael, William W. Haddad, 2003-11-20 The people of Iraq have suffered for more than a decade from the most severe sanctions ever imposed on any nation in history United Nations sanctions against Iraq began in August 1990 as an attempt to force Iraq out of Kuwait This book reveals why the sanctions regime has failed in its most basic aims and ask serious questions about the real motivations of the powers involved It explains how if sanctions had been carefully applied they could have worked The massive bombing campaign of 1991 destroyed Iraq's social infrastructure Sanctions should have been modified to meet the post Gulf War environment Also the US and the UK refused to agree that sanctions would be lifted if Iraq complied left with little incentive to disarm it is not surprising that Saddam Hussein did not co operate Why did the sanctions continue if they did not fulfil their avowed purpose The contributors argue that the real motives of the US and the UK were much more complex instead of revolving around violations of human rights terrorism and nuclear weapons proliferation sanctions may have had more to do with political powerbroking and the danger that Iraq and Iran presented to US hegemony in the oil rich Middle East Assessing these and other related questions the contributors put forward the idea that the current sanctions against Iraq are illegal under international law

A Historical Archaeology of the Modern World Charles E. Orser Jr., 2013-06-29 This unique book offers a theoretical framework for historical archaeology that explicitly relies on network theory Charles E Orser Jr demonstrates the need to examine the impact of colonialism Eurocentrism capitalism and modernity on all archaeological sites inhabited after 1492 and shows how these large scale

forces create a link among all the sites Orser investigates the connections between a seventeenth century runaway slave kingdom in Palmares Brazil and an early nineteenth century peasant village in central Ireland Studying artifacts landscapes and social inequalities in these two vastly different cultures the author explores how the archaeology of fugitive Brazilian slaves and poor Irish farmers illustrates his theoretical concepts His research underscores how network theory is largely unknown in historical archaeology and how few historical archaeologists apply a global perspective in their studies A Historical Archaeology of the Modern World features data and illustrations from two previously unknown sites and includes such intriguing findings as the provenance of ancient Brazilian smoking pipes that will be new to historical archaeologists

Graham, 2019-09-30 Highly Recommended an absorbing account of a military formation that became an elite force within the French Army Firetrench Irish troops had fought for Louis XIV in the 1670s under Irish officers who had little choice but to fight in foreign service with the blessing of Charles II With the accession of James II and the religious politics of who might earn the English crown they became embroiled in the Jacobite succession crisis fighting in Ireland then sent to France under Lord Mountcashel in 1689 With the fall of Limerick in 1691 Patrick Sarsfield led the second flight of Wild Geese to the continent to fight in a war for the French against the Grand Alliance of Europe in the vain hope that their loyalty might warrant French support in a return to Ireland under a Jacobite king From the Nine Years War through the War of the Spanish Succession and beyond their descendants would be present at Fontenoy Culloden and in the Americas forever destined to fight for a cause and land which had changed beyond recognition D P Graham explains the origins of the brigade and its regiments the personalities who led them and formed their reputation and the circumstances of their final dissolution in the aftermath of French Revolution An excellent study of the events that led up to the creation of the Wild Geese and in particular the brutal war in Ireland a conflict that still has an impact in the present day History of War

has been used to advance ethnic religious and ideological goals it has been used by dissidents and states to maintain control it has been used at times as a means for attaining or maintaining power for its own sake Terrorism has often appeared as a response to the intrusion of outside groups in established societies This book places terrorism in a historical and analytical context It is a comparison of terrorist groups over time noting both similarities and differences It will also contribute to discussions of the underlying causes of terrorism by providing a broader context than is usually attempted It is important to put recent terrorist events in an appropriate context and to learn what history has to offer for dealing with this type of political violence
