Hellenism In The East:

Hellenism in the East Amélie Kuhrt. 1987 Hellenism in the East Amélie Kuhrt, Susan M. Sherwin-White, 1987 Hellenism and the East Mika'el Avi-Yona, 1978 **Hellenism and the East** Michael Avi-Yonah, 1978 the Local Communities of the Eastern Mediterranean Boris Chrubasik, Daniel King, 2017 Hellenism and the Local Communities of the Eastern Mediterranean offers a timely re examination of the relationship between Greek and non Greek cultures in this region between 400 BCE and 250 CE The conquests of Alexander the Great and his Successors not only radically reshaped the political landscape but also significantly accelerated cultural change in recent decades there has been an important historiographical emphasis on the study of the non Greek cultures of the Eastern Mediterranean but less focus on how Greek cultural elements became increasingly visible Although the process of cross cultural interaction differed greatly across Asia Minor Egypt the Levant and Mesopotamia the same overarching guestions apply why did the non Greek communities of the Eastern Mediterranean engage so closely with Greek cultural forms as well as political practices and how did this engagement translate into their daily lives In exploring the versatility and adaptability of Greek political structures such as the polis and the ways in which Greek and non Greek cultures interacted in fields such as medicine literature and art the essays in this volume aim to provide new insight into these questions At the same time they prompt a re interrogation of the process of Hellenization exploring whether it is still a useful concept for explaining and understanding the dynamics of cultural exchange in the Eastern Mediterranean of this period Cultures of Resistance in the Hellenistic East Paul J. Kosmin, Ian S. Moyer, 2022-06-02 This collaborative volume examines revolts and resistance to the successor states formed after Alexander the Great's conquest of the Persian empire as a transregional phenomenon The editors have assembled an array of specialists in the study of the various regions and cultures of the Hellenistic world Judea Egypt Babylonia Central Asia and Asia Minor in an effort to trace comparisons and connections between episodes and modes of resistance The volume seeks to unite the currently dominant social scientific orientation to ancient resistance and revolt with perspectives often coming from religious studies that are more attentive to local cultural religious and moral frameworks In re assessing these frameworks contributors move beyond Greek non Greek binaries to examine resistance as complex and entangled acts and articulations of resistance are not purely nativistic or nationalist but conditioned by local traditions of government historical memories of prior periods as well as emergent transregional Hellenistic political and cultural idioms Cultures of Resistance in the Hellenistic East is organized into three parts The first part investigates the Great Theban Revolt and the Maccabean Revolt the central cases for large organized and prolonged military uprisings against the Hellenistic kingdoms The second part examines the full gamut of indigenous self assertion and resistant action including theologies of monarchic inadequacy patterns of historical periodization and textual interpretation and claims to sites of authority The volume s final part turns to the more ambiguous assertions of local autonomy and identity that emerge in the frontier regions that slipped in and out of

Hellenism in the East Joseph Geiger, 2014 While Jewish Palestine has been at the focus of scholarly interest Greek Palestine has not yet received similar attention This book attempts to investigate the intellectual life in that country in the Hellenistic world and in the Roman Empire The two perspectives taken are a full prosopographical survey of Greek intellectuals in ancient Palestine and an in depth study of the Greek intellectuals in one particular city Ascalon A survey of the penetration of Latin among the educated Greek speaking inhabitants of the country concludes the book Joseph Geiger DPhil Oxon Shalom Horowitz Professor of Classics Emeritus The Hebrew University of Jerusalem is the author of over one hundred learned articles ranging from historiography and biography to intellectual history with forays into Talmudic studies and classical topics in art and literature His books include Cornelius Nepos and Ancient Political Biography Masada II The Latin and Greek Documents with H M Cotton and The First Hall of Fame A Study of the Statues of the Forum Augustum He was Visiting Fellow of Corpus Christi College Oxford and Visiting Professor at Heidelberg and Yale Modern Interactions Karl Galinsky, 2010-07-22 Postmodernism multiculturalism the alleged decline of the United States deconstruction leadership and values these topics have been at the forefront of contemporary intellectual and cultural debate and are likely to remain so for the near future Participants in the debate can usefully enlarge the perspective to a comparison between the Greco Roman world and contemporary society In this thought provoking work a noted classics scholar tests the ancient modern comparison showing what it can add to the contemporary debates and what its limitations are Writing for intellectually adventurous readers Galinsky explores Greece and Rome as multicultural societies debates the merits of classicism in postmodern architecture discusses the reign of Augustus in terms of modern leadership theories and investigates the modern obsession with finding parallels between the supposed decline and fall of Rome and the decay of U S society Within these discussions Galinsky shows the continuing vitality of the classical tradition in the contemporary world The Greek and Roman civilizations have provided us not only with models for conscious adaptation but also points for radical departures This ability to change and innovate from classical models is crucial Galinsky maintains It creates a reciprocal process whereby contemporary issues are projected into the past while aspects of the ancient world are redefined in terms of current approaches These essays result in a balanced assessment and stimulating restatement of some major issues in both contemporary U S society and the Greco Roman world The book which speaks to a wide interdisciplinary audience is based

on a series of lectures that Galinsky gave as a national visiting scholar for Phi Beta Kappa It concludes with a discussion of the role of classical studies in the United States today **The House of Seleucus** Edwyn Robert Bevan, 1902 Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament s New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century. Thompson, Philippe Wajdenbaum, 2014-09-03 Did the Bible only take its definitive form after Alexander conquered the Near East after the Hellenisation of the Samaritans and Jews and after the founding of the great library of Alexandria The Bible and Hellenism takes up one of the most pressing and controversial questions of Bible Studies today the influence of classical literature on the writing and formation of the Bible Bringing together a wide range of international scholars The Bible and Hellenism explores the striking parallels between biblical and earlier Greek literature and examines the methodological issues raised by such comparative study. The book argues that the oral traditions of historical memory are not the key factor in the creation of biblical narrative It demonstrates that Greek texts from such authors as Homer Hesiod Herodotus and Plato must be considered amongst the most important sources for the Bible A Handbook of Greek Sculpture Ernest Arthur Gardner,1897 A survey of Greek sculpture from the earliest mention to Graeco Roman times Courts and Elites in the Hellenistic Empires Rolf Strootman, 2014-04-08 Rolf Strootman brings together various aspects of court culture in the Macedonian empires of the post Achaemenid Near East The Library Magazine ,1887
