Heaven's Mirror Graham Hancock,1998 From Mexico and India to Egypt and Peru are ancient structures that are united in mystery Who built them When How And most of all why They frequently incorporate highly sophisticated geometry into their megalithic architecture and are situated according to specific astronomical alignments In his previous works and more compellingly than ever in this book Graham Hancock uncovers evidence of a common human legacy connected to the heavens handed down by cultures separated by thousands of miles and thousands of years This common wisdom from a lost proto civilization may be the key to countless questions about the very identity of our species then and now With the excitement and pace of an active investigation that is finally forming disparate pieces of a vast puzzle into a clear and coherent picture and with 250 color photographs that convey the wonder and magic of the ancient sites Heaven s Mirror is Hancock s most involving and fascinating book yet Heaven's Mirror Graham Hancock,2005 The author examines a collection of ancient monuments myths and scriptures from around the world to prove an ancient civilization disseminated a sophisticated religion of ground sky dualism and a science of immortality The sites vary from the pyramids of ancient Egypt the enigmatic statues of Easter Island mysteries from Peru and Bolivia to the ruins of Angkor Wat in Cambodia **The Disinformation Guide to Ancient Aliens, Lost Civilizations, Astonishing Archaeology & Hidden History** The Disinformation Guide,2013-04-01 This compendium of ancient mysteries and controversial knowledge is an excellent briefing on the genre and its complexities Fortean Times Where did modern civilization begin What lies beneath the waves Do myths describe interstellar impact How d they lift that stone Was the Ark of the Covenant a mechanical device Were there survivors of an Atlantean catastrophe Who really discovered the New World Hidden history continues to fascinate an ever wider audience In this massive compendium editor Preston Peet brings together an all star cast of contributors to question established wisdom about the history of the world and its civilizations Peet and anthology contributors guide us through exciting archeological adventures and treasure hunts ancient mysteries lost or rediscovered technologies and assorted Fortean using serious scientific studies and reports scholarly research and some plain old fringe material as what is considered fringe today is often hard science tomorrow Contributors include Graham Hancock Fingerprints of the Gods and Underworld David Hatcher Childress Lost Cities and Civilizations series Colin Wilson From Atlantis to the Sphinx Michael Cremo Forbidden Archeology William Corliss Ancient Infrastructures Robert Schoch Voyages of the Pyramid Builders John Anthony West Serpent in the Sky Michael Arbuthnot Team Atlantis Erich Von Daniken Chariots of the Gods and many more The Quest for Origins K. R. Howe,2003-05-31 Did they come from space from Egypt from the Americas From other ancient civilizations These are some of today s most fanciful claims about the first settlers of the islands of the Pacific But none of them correctly answer the question Where did the Polynesians come from This book is a thoughtful and devastating critique of such new learning and a careful and accessible survey of modern archaeological anthropological genetic and

linguistics findings about the origins of Pacific Islanders Professor Howe also examines the two hundred year old history of Western ideas about Polynesian origins in the context of ever changing fads and intellectual fashions *The Cult of Alien Gods* Jason Colavito, 2010-03-05 Fans of fantasy horror writer H P Lovecraft must add *The Cult of Alien Gods* H P Lovecraft and Extraterrestrial Pop Culture to their reading lists California Bookwatch Combining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven't been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890-1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken *Chariots of the Gods* Graham Hancock *Fingerprints of the Gods* Zecharia Sitchin *Twelfth Planet* and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications *Invented Knowledge* Ronald H. Fritze, 2009-05-15 This incredible exploration of the murky world of pseudo history reveals the mix of proven facts informed speculation and pure fiction behind lost continents ancient super civilizations and conspiratorial cover ups as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter day Saints Drawing on the best scholarship available Ronald H Fritze shows that in spite of strong mainstream historical evidence to the contrary many of these ideas have proved durable and gained widespread acceptance As the examples in *Invented Knowledge* reveal pseudo historians capitalize on and exploit anomalies in evidence to support their claims rather than examining the preponderance of research as a whole *Race and Practice in Archaeological Interpretation* Charles E. Orser, 2004 Charles E Orser Jr argues that since race has been used implicitly in archaeology for more than 100 years the issue must be addressed directly despite the long history of debate denial and
