Routledge Philosophy GuideBook to Aristotle and the Metaphysics Vasilis Politis,2004-08-02 This GuideBook looks at the Metaphysics thematically and takes the student through the main arguments found in the text The book introduces and assesses Aristotle's life and the background to the Metaphysics its ideas and text *Eternal Life and Human Happiness in Heaven* Christopher M. Brown,2021-08-22 *Eternal Life and Human Happiness in Heaven* treats four apparent problems concerning eternal life in order to clarify our thinking about perfect human happiness in heaven The teachings of St Thomas Aquinas provide the basis for solutions to these four problems about eternal life insofar as his teachings call into question common contemporary theological or philosophical presuppositions about God human persons and the nature of heaven itself Indeed these Thomistic solutions often require us to think very differently from our contemporaries But thinking differently with St Thomas is worth it for the Thomistic solutions to these apparent problems are more satisfying on both theological and philosophical grounds than a number of contemporary theological and philosophical approaches Christopher Brown deploys his argument in four sections The first section lays out in three chapters four apparent problems concerning eternal life Is heaven a mystical or social reality Is heaven other worldly or this worldly Is heaven static or dynamic Won't human persons eventually get bored in heaven Brown then explains how and why some important contemporary Christian theologians and philosophers resolve these problems and notes serious problems with each of these contemporary solutions The second section explains in five chapters St Thomas significant distinction between the essential reward of the saints in heaven and the accidental reward and treats in detail his account of that in which the essential reward consists namely the beatific vision and the proper accidents of the vision delight joy and charity The third section treats in five chapters St Thomas views on the multifaceted accidental reward in heaven where the accidental reward includes among other things glorified human embodiment participation in the communion of the saints and the joy experienced by the saints in sensing God's new heavens and new earth Finally section four argues in four chapters that St Thomas views allow for powerful solutions to the four apparent problems about eternal life examined in the first section These solutions are powerful because not only are they consistent with authoritative Catholic Christian Tradition but they do not raise any of the significant theological or philosophical problems that attend the contemporary theological and philosophical solutions examined in the first section
