Hedges and Ground Cover for Your Garden

The Japanese garden takes as its primary subject the beauty of nature seeking to harmonize with the natural surroundings while at the same time representing an idealized human world. This book introduces garden projects by four members of the Association each with his own distinct style by which not only the beauty of the modern Japanese garden can be appreciated but likewise understood and utilized by those with an interest in creating their own garden. The works introduced in this book have a sound basis in the traditions of the Japanese garden but are equally unique as examples of the aesthetics of space. They range in size from expansive areas to one measuring only 6.6 sq meters and were created for temples, shrines, inns, restaurants and individuals resulting in a selection which is both eclectic and rich in the creative ideas of the individual designers. The comments of the aims of the planners and the crafts and features of the gardens are included. Although the book does not attempt to be a manual of garden building, the fifty gardens which it contains will provide creators of gardens with invaluable suggestions and ideas for their projects.

The Prairie Gardener's Go-To Guide for Trees and Shrubs Janet Melrose, Sheryl Normandeau, 2022-03-22. Book six in the Guides for the Prairie Gardeners series demystifies planting and caring for trees and shrubs on the prairies with tips on stock size, fruit production, pests and winter protection. Trees and shrubs together make up the bulk of Earth's biomass. They are responsible for carbon dioxide storage, oxygen production, movement of water and a host of other functions. In our gardens, trees and shrubs provide numerous benefits including reducing air light and noise pollution, protecting our homes from wind, cold and heat and providing habitat for birds, insects and other animals. In the sixth book in the Guides for the Prairie Gardener series, lifelong gardeners Janet and Sheryl offer advice and recommendations to help you successfully grow trees and shrubs from the ground up. They answer your questions on: Whether to choose small or large trees and shrubs to match your needs; The fine art of digging holes; Care and feeding and mulching and watering and fertilizing; When and how to train and prune for your plant's health and appearance; How to protect young trees and shrubs through a bitter winter; When to call your local arborist. Janet and Sheryl help you trouble shoot on common issues like a tree's failure to produce fruit, girdling and weather related challenges as well as an introduction to pests and diseases like leaf miners, leaf rollers, leafhoppers and their friends. They also provide prairie specific lists of recommended trees and shrubs for flower displays, autumn colour, beautiful bark, smaller yards, hedges and shade.
