Moland,2011-04-30 In Hegel on Political Identity Lydia Moland provocatively draws on Hegel s political philosophy to engage sometimes contentious contemporary issues such as patriotism national identity and cosmopolitanism Moland argues that patriotism for Hegel indicates an attitude

toward the state whereas national identity is a response to culture The two combine Hegel claims to enable citizens to develop concrete freedom Moland argues that Hegel s account of political identity extends to his notorious theory of world history she also proposes that his resistance to cosmopolitanism be reassessed in response to our globalized world By focusing on Hegel s depiction of political identity as a central part of modern life Moland shows the potential of Hegel s philosophy to address issues that lie at the heart of ethical and political philosophy

God, Race, and History Matt R. Jantzen,2021-02-05 In crafting racial visions of the modern world European thinkers appropriated the Christian doctrine of providence constructing the idea of European humanity s rule over the globe on the model of God s rule over the universe As a powerful ordering theory of the relationship between God and creation time and space self and other the doctrine served as an intellectual framework for the theorization of whiteness as the male European subject replaced Jesus Christ as the human being at the center of world history Through an analysis of the work of G W F Hegel Karl Barth and James H Cone God Race and History examines this subversion of the Christian doctrine of providence as well as subsequent attempts within modern Protestant theology to liberate the doctrine from its captivity to whiteness It then develops a constructive political theology of providence in conversation with Delores S Williams and M Shawn Copeland discerning Jesus Christ at work through the Holy Spirit in the struggles of ordinary overlooked and oppressed human creatures to survive and to carve out a flourishing life for themselves their communities and their world

Tragedy and Theory Michelle Zerba,2014-07-14 Michelle Zerba engages current debates about the relationship between literature and theory by analyzing responses of theorists in the Western tradition to tragic conflict Isolating the centrality of conflict in twentieth century definitions of tragedy Professor Zerba discusses the efforts of modern critics to locate in Aristotle s Poetics the origins of this focus on agon Through a study of ethical and political ideas formative of the Poetics she demonstrates why Aristotle and his Renaissance and Neoclassical beneficiaries exclude conflict from their accounts of tragedy The agonistic element the book argues first emerges in dramatic criticism in nineteenth century Romantic theories of the sublime and more influentially in Hegel s lectures on drama and history This turning point in the history of speculation about tragedy is examined with attention to a dynamic between the systematic aims of theory and the

subversive conflicts of tragic plays In readings of various Classical and Renaissance dramatists Professor Zerba reveals that strife in tragedy undermines expectations of coherence closure and moral stability on which theory bases its principles of dramatic order From Aristotle to Hegel the philosophical interest in securing these principles determines attitudes toward conflict Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *El espejo del rey* Anthony Hope, 2012-03-02 Una
