**Reason in History: A General Introduction to the Philosophy of History** Georg Wilhelm Friedrich Hegel, 1953

*Lectures on the Philosophy of World History* Georg Wilhelm Friedrich Hegel, 1975-07-03 An English translation of Hegel's introduction to his lectures on the philosophy of history based directly on the standard German edition by Johannes Hoffmeister first published in 1955 The previous English translation by J Sibree first appeared in 1857 and was based on the defective German edition of Karl Hegel to which Hoffmeister's edition added a large amount of new material previously unknown to English readers derived from earlier editors In the introduction to his lectures Hegel lays down the principles and aims which underlie his philosophy of history and provides an outline of the philosophy of history itself The comprehensive and voluminous survey of world history which followed the introduction in the original lectures is of less interest to students of Hegel's thought than the introduction and is therefore not included in this volume **The**

Wood, 2005 This book argues for an integrative dialectic of faith and history It is a fresh examination of the problem of faith and history Instead of being a mere liability it is argued here that the strength of the Christian faith is its historicity Although modern thought was not always friendly to Christian faith because of its deeply embedded dualism it raised the critical intellectual issues that Christian theology needed to address Advancing a more critical understanding of the nature of history than modern thought was generally able to achieve because of its dualistic thinking this work argues for an integrative dialectic of historical probability and the certainty of faith This book gives a comprehensive and fascinating account of the development of the idea of history in correspondence to changing conceptions of the divine reality from its origin in Ancient Israel and in Greece all the way to the contemporary discussion It focuses on the rise of critical historical investigation in modern times and on the struggle of modern theology to come to terms with it It is an important contribution to this discussion The split between fact and meaning is persuasively identified as a main obstacle and it is shown to be overcome in the reconstruction of history in the light of the eschatological future Also very helpful is the final chapter on time space time and eternity with its emphasis on Boethius and with its critical remarks on nontrinitarian theistic notions of a personal God Wolfhart Pannenberg University of Munich **Hegel's Reason in History** Essat Bilali, 1976 **Hegel on the Arts** Georg Wilhelm Friedrich Hegel, 1979

**Hegel and History** Will Dudley, 2010-07-02 Nearly two centuries after declaring the end of history Hegel remains a rich source of insights into our historical nature The essays collected here interpret and develop those insights while also

challenging Hegel's philosophical approach to comprehend present and future phenomena that he could neither experience nor imagine. They represent the very best in contemporary scholarship on Hegel and history and collectively they address all of the important and disputed topics in the field. Hegel's claim that history has an end, whether his philosophy of history is Eurocentric or racist, how elements of what he terms subjective spirit and objective spirit contribute to historical development and the relationship between religion and his philosophy of history.

**Hegel, History, and Interpretation**  
 Shaun Gallagher, 1997-01-01. *Hegel History and Interpretation* is a collection of essays that extends critical discussions of Hegel into contemporary debates about the nature of interpretation and theories of philosophical hermeneutics. Essays by Susan Armstrong, John D. Caputo, William Desmond, Robert Dostal, Shaun Gallagher, Philip T. Grier, H. S. Harris, Walter Lammi, George R. Lucas Jr., Michael Prosch, Thomas Rockmore, and E. Christopher Smith explore difficult issues concerning historical interpretation: the nature of hermeneutics at the end of metaphysics; the social and critical function of reason and the inadequacy of Hegel's interpretation of the experience of otherness. In the course of these essays, Hegel is made to converse with Kierkegaard, Nietzsche, and Heidegger as well as with contemporary theorists such as Gadamer, Habermas, Foucault, and Derrida. Thus the contributors explore both the themes that form the common ground between Hegelian philosophy and contemporary interpretation theory and the mixed reception of Hegel's philosophy into contemporary discussions about history, deconstruction, critical theory, and alterity.

[The Cambridge History of Philosophy in the Nineteenth Century \(1790–1870\)](#)  
 Allen W. Wood, Songsuk Susan Hahn, 2012-09-10. The latest volume in the Cambridge Histories of Philosophy series, *The Cambridge History of Philosophy in the Nineteenth Century 1790–1870* brings together twenty-nine leading experts in the field and covers the years 1790–1870. Their twenty-eight chapters provide a comprehensive survey of the period, organizing the material topically. After a brief editor's introduction, the book begins with three chapters surveying the background of nineteenth-century philosophy, followed by two on logic and mathematics, two on nature and natural science, five on mind and language (including psychology, the human sciences, and aesthetics), four on ethics, three on religion, seven on society (including chapters on the French Revolution, the decline of natural right, political economy, and social discontent), and three on history, which deal with historical method, speculative theories of history, and the history of philosophy.

*The Transformation of Reason: Studies on System, Myth, and History in German Idealism*  
 Diogo Ferrer, 2024-07-01. Critique, skepticism, conflict, incompleteness, nothingness, irrational abyss, evil, and even genocide: That is what German idealism is also about. Trying to chart human reason as an architectural system, Kant, Fichte, Hegel, and Schelling uncovered that the most significant problems lie beneath the ground, in the foundations. Can reason survive the discovery of what lies at its depths? And should it? This book ventures into these foundations, addressing the keen philosophical innovations of German idealists. Through comparative and development studies, it presents fresh interpretations of how these leading thinkers reconstructed reason on unexplored territories. The greatest hazard was triggering an enduring inversion of values.

**Notes on Dialectics** John H. McClendon, 2005-01-01 John H McClendon III's CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is the first ever book devoted exclusively to James's magnum opus Notes on Dialectics Hegel Marx Lenin The seed for this study was planted over thirty years ago when James handed the author his personal copy of Notes James's contribution to dialectical philosophy and his vast intellectual and scholarly output is rivalled only by the seemingly bottomless depths of McClendon's own analysis and erudition McClendon provides a thorough going critique of James's exploration into the dialectic of Hegel Marx and Lenin while challenging all the seminal texts on James's Notes A book of this magnitude is rare This is ever more the truth when it is focused on a giant like James who stands at the nexus of so many disciplines philosophy history sociology Caribbean studies cultural studies African and African American studies CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is a must read for anyone concerned with how revolutionary theory is a guide to contemporary struggles Lectures on the Philosophy of History Georg Wilhelm Friedrich Hegel, 1861 *Hegel, the End of History, and the Future* Eric Michael Dale, 2014-08-14 In Phenomenology of Spirit 1806 Hegel is often held to have announced the end of history where history is to be understood as the long pursuit of ends towards which humanity had always been striving In this the first book in English to thoroughly critique this entrenched view Eric Michael Dale argues that it is a misinterpretation Dale offers a reading of his own showing how it sits within the larger schema of Hegel's thought and makes room for an understanding of the end of history as Hegel intended Through an elegant analysis of Hegel's philosophy of history Dale guides the reader away from the common misinterpretation of the end of history to other valuable elements of Hegel's arguments which are often overlooked and deserve to endure His book will be of great interest to scholars and advanced students of Hegel the philosophy of history and the history of political thought

*Hegel's History of Philosophy* David A. Duquette, 2012-02-01 This volume approaches the study of Hegel's History of Philosophy from a variety of angles while centering on Hegel's Berlin Lectures on the History of Philosophy 1819-1831 which were given to students and later published The lectures address most fundamentally what philosophy is the philosophy of philosophy so to speak The contributors treat many significant and topical issues including discussions of Hegel's overall idea of a history of philosophy his treatment of various philosophers and philosophical views from the historical tradition and the role of Hegel's own philosophical system as a culmination in the development of philosophy historically This unique collection provides incisive and provocative analyses on an area of study that until now has not garnered as much attention as it deserves

**Hegel on Philosophy in History** Rachel Zuckert, James Kreines, 2017-01-26 In this volume honouring Robert Pippin prominent philosophers such as John McDowell Slavoj Žižek Jonathan Lear and Axel Honneth explore Hegel's proposals concerning the historical character of philosophy Hegelian doctrines discussed include the purported end of art Hegel's view of human history including the history of philosophy as the history of freedom or autonomy and the nature of self consciousness as realized in narrative or in action Hegel scholars Rolf Peter Horstmann Sally Sedgwick Terry Pinkard and

Paul Redding attempt to vindicate some of Hegel's claims concerning historical philosophical progress while others such as Robert Stern Christoph Menke and Jay Bernstein suggest that Hegel either did not conceive of philosophy as progressing unidirectionally or did not make good on his claims to progress perhaps we should still be Aristotelians in ethics or perhaps we are still torn between sensibility and reason or between individuality and social norms Perhaps capitalism has exacerbated such problems
