Inwood, 1985 This collection of ten essays on Hegel not only elucidates his ideas but also places them in their proper context and shows their relevance to modern philosophical concerns Contributors include Robert C Solomon W H Walsh Ivan Soll Richard E Aquila Terry Pinkard Gerd Buchdahl H B Acton G H R Parkinson George Dennis O Brien and Dieter Henrich Kierkegaard Alastair Hannay, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **Hegel's Political Philosophy** Dr Thom Brooks, 2007 Hegel s Elements of the Philosophy of Right is widely acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel s larger philosophical system to understanding his Philosophy of Right This is the first book on the subject to take Hegel s system of speculative philosophy seriously as an important component of any robust understanding of his Philosophy of Right It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel s system in particular the unique structure of his philosophical arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of Hegel s political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel s larger philosophical system we can achieve an improved understanding of Hegel s Philosophy of Right Hegel's Political Philosophy Thom Brooks, 2012-11-30 A new and significantly expanded edition of the first systematic reading of Hegel s political philosophy *Hegel's Elements of the Philosophy of Right* David James, 2017-02-23 Hegel s Elements of the Philosophy of Right one of the classic texts of German Idealism is a seminal work of legal social and political philosophy that has generated very different interpretations since its publication in 1821 Written with the advantage of historical distance the essays in this volume adopt a fresh perspective that makes readers aware of the breadth and depth of this classic work The themes of the essays reflect the continuing relevance of the text and include Hegel s method the concept of property Hegel s view of morality the concept of Sittlichkeit the modern family the nature and tensions of civil society and the question of the modernity of the Hegelian state The volume will be of interest to all scholars and students of German Idealism and the history of political thought Hegel's Philosophical Psychology Susanne Herrmann-Sinai, Lucia Ziglioli, 2016-03-31 Hegel s Philosophical Psychology draws attention to a largely overlooked piece of Hegel s philosophy his substantial and philosophically rich treatment of psychology at the end of the Philosophy of Subjective Spirit which itself belongs to his main

work the Encyclopaedia of the Philosophical Sciences This volume makes the case that Hegel's approach to philosophy of mind as developed within this text can make an important contribution to current discussions about mind and subjectivity and can help clarify the notion of spirit Geist within Hegel's larger philosophical project Scholars from different schools of Hegelian thought provide a multifaceted overview of Hegel's Psychology Part I begins with an overview of Hegel's Philosophy of Subjective Spirit which outlines both its historical context and its systematic context within Hegel's philosophy of subjective spirit Parts II and III then investigate the individual chapters of the sections on psychology the theoretical mind and the practical and free mind The volume concludes by examining the challenges which Hegel's Psychology poses for contemporary epistemological debates and the philosophy of psychology Throughout the volume brings Hegel's views into dialogue with 20th and 21st century thinkers such as Bergson Bourdieu Brandom Chomsky Davidson Freud McDowell Sellars Wittgenstein and Wollheim

**Hegel Reconsidered** H. Tristram Engelhardt Jr., T. Pinkard, 2013-03-09 Much of contemporary philosophy political theory and social thought has been shaped directly or indirectly by Georg Wilhelm Friedrich Hegel though there is considerable disagreement about how his work should be understood He has been described both as a metaphysician and characterized as an ironic narrator who anticipated the character of philosophy after metaphysics His position is equally ambiguous with regard to his political thought He has been construed both as an enemy of the liberal state and as a friend of freedom This volume's revisionist reassessment building on the scholarship of Klaus Hartmann explores these ambiguities in favor of a non metaphysical reading of Hegel's arguments It also shows how the foundations of his political thought support a liberal democratic state This reappraisal of Hegel's arguments resituates him as a philosopher who anticipates the difficulties of post modernity and offers a basis for reassessing ontology aesthetics and revolution Philosophers and those doing work in political theory will find this volume of great interest

*Reading Hegel's Phenomenology* John Russon, 2004-10-19 In *Reading Hegel's Phenomenology* John Russon uses the theme of reading to clarify the methods premises evidence reasoning and conclusions developed in Hegel's seminal text Russon's approach facilitates comparing major sections and movements of the text and demonstrates that each section of *Phenomenology of Spirit* stands independently in its focus on the themes of human experience Along the way Russon considers the rich relevance of Hegel's philosophy to understanding other key Western philosophers such as Aristotle Descartes Kant Husserl Heidegger and Derrida Major themes include language embodiment desire conscience forgiveness skepticism law ritual multiculturalism existentialism deconstruction and absolute knowing An important companion to contemporary Hegel studies this book will be of interest to all students of Hegel's philosophy

**Contemporary Yugoslav Philosophy: The Analytic Approach** A. Pavkovic, 2012-12-06 The aim of this collection is to present the work of Yugoslav philosophers who approach philosophy in an analytic manner I have sought contributions from all philosophers of whom I knew to be working in this tradition Not all sent their contributions but I should say that the majority did As a consequence of so wide an appeal the papers published here

exhibit not only a variety of topics but also differences in quality This I think is to be expected given that the aim is to present the work of a group of philosophers who share only a poorly defined and general approach to philosophy Of many people who have helped me bring out this collection I can mention only a few Jovan Babic gave me as usual sound advice and helped me to establish and maintain contact with the contributors in Yugoslavia Milos Arsenijevic rounded up the recalcitrant contributors and constantly recruited new ones And Svetlana Knjazez encouraged me perhaps unwittingly to persevere by her yarns of the old times in which there was no analytic philosophy in Yugoslavia And Down Under Steve Glaister checked the English Nancy Simmons patiently typed the manuscripts into a rather temperamental word processor Mitjana Djukic proof read them and Dean Davidson of the Macquarie University Computing Centre helped us to get them printed To all of them many thanks

**Hegel's Discovery of the Philosophy of Spirit** P. Ifergan, 2014-07-31 This exploration of Hegel's critique of the individualistic ethos of modernity and the genesis of his alternative vision traces the conceptual schemes Hegel experimented with to show how he settled on the concepts of ethical life *Sittlichkeit* and Spirit as the means for overcoming subjectivity and domination *"Contradiction Resolves Itself" – An Analysis of the Arguments in the Chapter "The Essentialities or the Determinations of Reflection" in Hegel's Doctrine of Essence* Folko Zander, 2024-03-11 It is well known that Hegel departs from tradition in his treatment of contradiction in a way that is scandalous to some This book explores the question of what Hegel means by contradiction and how it can be made useful for philosophy For this purpose the context of Hegel's analysis of contradiction is subjected to a close analysis the essentialities namely identity difference diversity and opposition The contradiction that arises in the analysis of contradiction is resolved thus opening up a groundbreaking method for a philosophy that proceeds systematically Bekannt ist dass Hegel in seiner Behandlung des Widerspruchs in einer für manche skandalösen Art von der Tradition abweicht Vorliegendes Buch geht der Frage nach was Hegel unter einem Widerspruch überhaupt versteht und auf welche Weise er für die Philosophie dienstbar gemacht werden kann Dafür wird der Kontext von Hegels Analyse des Widerspruchs einer genauen Analyse unterzogen die Wesenheiten namentlich Identität Unterschied Verschiedenheit und Gegensatz Der bei der Analyse des Gegensatzes auftretende Widerspruch lässt sich auf und eröffnet so eine bahnbrechende Methode für eine systematisch verfahrenende Philosophie

**Hegel's Encyclopedia of the Philosophical Sciences** Sebastian Stein, Joshua Wretzel, 2021-09-16 This book gives unprecedented insight into the fullest articulation of Hegel's philosophical system his Encyclopedia **The Persistent Problems of Philosophy** Mary Whiton Calkins, 1925 **Hegel's History of Philosophy** David A. Duquette, 2012-02-01 This volume approaches the study of Hegel's History of Philosophy from a variety of angles while centering on Hegel's Berlin Lectures on the History of Philosophy 1819-1831 which were given to students and later published The lectures address most fundamentally what philosophy is the philosophy of philosophy so to speak The contributors treat many significant and topical issues including discussions of Hegel's overall idea of a history of philosophy his treatment of various philosophers

and philosophical views from the historical tradition and the role of Hegel's own philosophical system as a culmination in the development of philosophy historically. This unique collection provides incisive and provocative analyses on an area of study that until now has not garnered as much attention as it deserves.

**Hegel and the History of Political Philosophy** Gary Browning, 1999-02-26 This book relates Hegel to preceding and succeeding political philosophers. The Hegelian notion of the interdependence of political philosophy and its history is demonstrated by the links established between Hegel and his predecessors and successors. Hegel's political theory is illuminated by essays showing its critical assimilation of Plato and Hobbes and by studies reviewing subsequent critiques of its standpoint by Stirner, Marx, and Collingwood. The relevance of Hegel to contemporary political philosophy is highlighted in essays which compare Hegel to Lyotard and Rawls.

**Hegel's Philosophy of Language** Jim Vernon, 2007-07-15 Explores the development of Hegel's linguistics across the full range of his key writings.
