The Difference Between the Fichtean and Schellingian Systems of Philosophy Georg Wilhelm Friedrich

Hegel, 1978 **The Difference Between Fichte's and Schelling's System of Philosophy** G.W.F. Hegel, 1988-03-04 In this essay Hegel attempted to show how Fichte's Science of Knowledge was an advance from the position of Kant in the Critique of Pure Reason and how Schelling and incidentally Hegel himself had made a further advance from the position of Fichte Hegel finds the idealism of Fichte too abstractly subjective and formalistic and he tries to show how Schelling's philosophy of nature is the remedy for these weaknesses But the most important philosophical content of the essay is probably to be found in his general introduction to these critical efforts where he deals with a number of problems about philosophical method in a way which is of general interest to philosophers and not merely interesting to those who accept the Hegelian dialectic method which grew out of these first beginnings Finally the Difference essay is important in the development of Nature Philosophy as a movement in the history of science *The Difference between Fichte's and Schelling's Systems* Georg Wilhelm Friedrich Hegel, 2024-05-09 Hegel's 1801 work *The Difference between Fichte's and Schelling's System of Philosophy* marked his emergence as a significant philosophical voice in Jena Written shortly after Hegel arrived at the University of Jena as a Privatdozent this essay established him as a follower of Schelling's philosophy The work was completed in the same year Hegel submitted his inaugural dissertation and began lecturing on Logic and Metaphysics It coincided with Hegel and Schelling's founding of the *Kritische Journal der Philosophie* which became an important platform for their philosophical ideas In this work Hegel critically examined the philosophical systems of Fichte and Schelling arguing that Schelling's approach was superior He critiqued Fichte's subjective idealism which emphasized the primacy of the ego and praised Schelling's objective idealism which sought to unify subject and object in a higher principle Hegel argued that Schelling's philosophy of nature which posited an objective Subject Object alongside the subjective Subject Object represented a more comprehensive philosophical system This essay not only highlighted the differences between Fichte and Schelling but also laid the groundwork for Hegel's own philosophical development which would culminate in his later works such as the *Phenomenology of Spirit* and *Science of Logic* Hegel knew both of these Kantian Philosophers personally The text systematically analyzes how Fichte's emphasis on the absolute I as the foundation of philosophy differs from Schelling's notion of absolute identity or indifference point between subject and object Hegel argues that while Fichte's system remains trapped in the subjective perspective of consciousness opposing an objective world Schelling's approach better captures the unity of subject and object finite and infinite that Hegel saw as essential to true philosophical understanding He develops key concepts that would remain central to his thought including his critique of reflection as a mode of understanding that remains caught in rigid oppositions and his emerging notion of speculation as a

higher form of philosophical cognition that can grasp unity in difference The work also contains early versions of important Hegelian themes like the relationship between the finite and infinite and the role of contradiction in philosophical thinking This modern translation contains an afterword explaining this work s place in his larger body of works the historical background and a timeline of his life and works The modern language and scholarly apparatus are designed to orient the modern reader to Hegel s world with a clean and simple lexicon Hegel generally inaccessible due to the sheer size and intricacy of his thought is explained through the interpretation of Tolstoy Nietzsche Schopenhauer and Heidegger in this Afterword to make his historically important body of work accessible to the armchair philosopher

Hegel's History of Philosophy David A. Duquette, 2003-01-01 Top scholars address Hegel s History of Philosophy *Hegel's Epistemological Realism* K.R. Westphal, 2012-12-06 The scope of this study is both ambitious and modest One of its ambitions is to reintegrate Hegel s theory of knowledge into main stream epistemology Hegel s views were formed in consideration of Classical Skepticism and Modern epistemology and he frequently presupposes great familiarity with other views and the difficulties they face Setting Hegel s discussion in the context of both traditional and contemporary epistemology is therefore necessary for correctly interpreting his issues arguments and views Accordingly this is an issues oriented study I analyze Hegel s problematic and method by placing them in the context of Sextus Empiricus Descartes Kant Carnap and William Alston I discuss Carnap rather than a Modern empiricist such as Locke or Hume for several reasons One is that Hegel himself refutes a fundamental presupposition of Modern empiricism the doctrine of knowledge by acquaintance in the first chapter of the Phenomenology a chapter that cannot be reconstructed within the bounds of this study *Hegel's Hermeneutics* Paul Redding, 1996 An advance on recent revisionist thinking about Hegelian philosophy this book interprets Hegel s achievement as part of a revolutionary modernization of ancient philosophical thought initiated by Kant **The Dimensions of Hegel's Dialectic** Nectarios G. Limnatis, 2011-10-20 The Dimensions of Hegel s Dialectic examines the epistemological import of Hegelian dialectic in the widest sense In modern philosophy German idealism Hegel in particular is said to have made significant innovative steps in redefining the meaning scope and use of dialectic Indeed it is dialectic that makes up the very core of Hegel s position yet it is an area of his thought that is widely neglected by the available literature despite the increased interest in Hegel s philosophy in recent years This book brings together an international team of expert contributors in a long overdue discussion of Hegelian dialectic Twelve specially commissioned essays address the task of making sense and use of Hegel s dialectic which is fundamental not only for historical and hermeneutic reasons but also for pragmatic ones a satisfactory response to this challenge has the power to clarify Hegel s legacy in the current debate The essays situate the dialectic in the context of German idealism with a clear sighted elucidation of the problems that Hegel s dialectic is called upon to solve [The Difference Between the Fichtean and Schellingian Systems of Philosophy](#) Georg Wilhelm Friedrich Hegel, Jere Paul Surber, 1978 *The Cambridge Companion to Hegel* Frederick C. Smith, 2014-07-08. The Age of Enlightenment has often been portrayed as a dogmatic period on account of the veritable worship of reason and progress that characterized Eighteenth Century thinkers. Even today the philosophes are considered to have been completely dominated in their thinking by an optimism that leads to dogmatism and ultimately rationalism. However, on closer inspection, such a conception seems untenable, not only after careful study of the impact of scepticism on numerous intellectual domains in the period, but also as a result of a better understanding of the character of the Enlightenment. As Giorgio Tonelli has rightly observed, the Enlightenment was indeed the Age of Reason, but one of the main tasks assigned to reason in that age was to set its own boundaries. Thus, given the growing number of works devoted to the scepticism of Enlightenment thinkers, historians of philosophy have become increasingly aware of the role played by scepticism in the Eighteenth Century, even in those places once thought to be most given to dogmatism, especially Germany. Nevertheless, the deficiencies of current studies of Enlightenment scepticism are undeniable. In taking up this question, in particular, the present volume, which is entirely devoted to the scepticism of the Enlightenment in both its historical and geographical dimensions, seeks to provide readers with a revaluation of the alleged decline of scepticism. At the same time, it attempts to resituate the Pyrrhonian heritage within its larger context and to recapture the fundamental issues at stake. The aim is to construct an alternative conception of Enlightenment philosophy by means of philosophical modernity itself, whose initial stages can be found herein.

Conceptual Tension Leon J. Goldstein, 2014-11-12. *Conceptual Tension: Essays on Kinship, Politics, and Individualism* is a critical philosophical examination of the role of concepts and concept formation in social sciences. Written by Leon J. Goldstein, a preeminent Jewish philosopher who examined the epistemological foundations of social science inquiry during the second half of the twentieth century, the book undertakes a study of concept formation and change by looking at the four critical terms in anthropology: kinship, politics, parliament, and Rousseau's concept of the general will, and sociology: individualism. The author challenges prevailing notions of concept formation and definition, specifically assertions by Gottlieb Frege that concepts have fixed, clear boundaries that are not subject to change. Instead, drawing upon arguments by R. G. Collingwood, Goldstein asserts that concepts have a historical dimension with boundaries and meanings that change with their use and context. Goldstein's work provides insight for philosophers, historians, political scientists, anthropologists, and Judaica scholars interested in the study and meaning of critical concepts within their fields.
