**Heidegger and the Issue of Space** Alejandro A. Vallega, 2008-01 As the only full length treatment in English of spatiality in Martin Heidegger's work this book makes an important contribution to Heidegger studies as well as to research on the history of philosophy More generally it advances our understanding of philosophy in terms of its exilic character a sense of alterity that becomes apparent when one fully engages the temporality or finitude essential to conceptual determinations By focusing on Heidegger's treatment of the classical difficulty of giving conceptual articulation to spatiality the author discusses how Heidegger's thought is caught up in and enacts the temporality it uncovers in *Being and Time* and in his later writings Ultimately when understood in this manner thought is an exilic experience a determination of being that in each case comes to pass in a loss of first principles and origins and simultaneously as an opening to conceptual figurations yet to come The discussion engages such main historical figures as Plato Aristotle Descartes Kant and indirectly Husserl as well as contemporary European and American Continental thought

**Heidegger and the Thinking of Place** Jeff Malpas, 2017-03-03 The philosophical significance of place in Heidegger's work and as the focus of a distinctive mode of philosophical thinking The idea of place *topos* runs through Martin Heidegger's thinking almost from the very start It can be seen not only in his attachment to the famous hut in Todtnauberg but in his constant deployment of topological terms and images and in the situated placed character of his thought and of its major themes and motifs Heidegger's work argues Jeff Malpas exemplifies the practice of philosophical topology In *Heidegger and the Thinking of Place* Malpas examines the topological aspects of Heidegger's thought and offers a broader elaboration of the philosophical significance of place Doing so he provides a distinct and productive approach to Heidegger as well as a new reading of other key figures notably Kant Aristotle Gadamer and Davidson but also Benjamin Arendt and Camus Malpas expanding arguments he made in his earlier book *Heidegger's Topology* MIT Press 2007 discusses such topics as the role of place in philosophical thinking the topological character of the transcendental the convergence of

Heideggerian topology with Davidsonian triangulation the necessity of mortality in the possibility of human life the role of materiality in the working of art the significance of nostalgia and the nature of philosophy as beginning in wonder Philosophy Malpas argues begins in wonder and begins in place and the experience of place The place of wonder of philosophy of questioning he writes is the very topos of thinking      **The Bloomsbury Companion to Heidegger** Francois Raffoul, Eric S. Nelson, 2013-08-15 The definitive reference guide to Heidegger's life and work including 57 original essays covering all the key aspects of his thought      Heidegger and a Metaphysics of Feeling Sharin N. Elkholy, 2011-10-27 The early Heidegger of Being and Time is generally believed to locate finitude strictly within the individual based on an understanding that this individual will have to face its death alone and in its singularity Facing death is characterized by the mood of Angst anxiety as death is not an experience one can otherwise access outside of one's own demise In the later Heidegger the finitude of the individual is rooted in the finitude of the world it lives in and within which it actualizes its possibilities or Being Against the standard reading that the early Heidegger places the emphasis on individual finitude this important new book shows how the later model of the finitude of Being is developed in Being and Time Elkholy questions the role of Angst in Heidegger's discussion of death and it is at the point of transition from the nothing back to the world of projects that the author locates finitude and shows that Heidegger's later thinking of the finitude of Being is rooted in Being and Time      **Daoist**

**Resonances in Heidegger** David Chai, 2022-05-05 East Asian imagery resonates throughout Martin Heidegger's writings In this exploration of the connections between Daoism and his thought an international team of scholars consider why the Daodejing and Zhuangzi were texts he returned to repeatedly and the extent Heidegger adhered to Daoism's core doctrines They discuss how Daoist thought provided him with a new perspective equipping him with images concepts and meanings that enabled him to continue his questioning of the nature of being Exploring the environment language death temporality aesthetics and race from the groundlessness of non being oneness and the Way they illustrate how these themes reverberate with ontological spiritual and epistemological potential A lesson in the art of Daoist and cross cultural ways of thinking this collection marks the first sustained analysis of the influence of classical Daoism on a major 20th century German philosopher

**Heidegger and Kabbalah** Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances

understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions

**Martin Heidegger** Bret W. Davis,2014-12-05 Heidegger's writings are among the most formidable in recent philosophy The pivotal concepts of his thought are for many the source of both fascination and frustration Yet any student of philosophy needs to become acquainted with Heidegger's thought Martin Heidegger Key Concepts is designed to facilitate this Each chapter introduces and explains a key Heideggerian concept or a cluster of closely related concepts Together the chapters cover the full range of Heidegger's thought in its early middle and later phases

**All Religion Is Inter-Religion** Kambiz GhaneaBassiri,Paul Robertson,2019-07-11 All Religion Is Inter Religion analyses the ways inter religious relations have contributed both historically and philosophically to the constructions of the category of religion as a distinct subject of study Regarded as contemporary classics Steven M Wasserstrom's Religion after Religion 1999 and Between Muslim and Jew 1995 provided a theoretical reorientation for the study of religion away from hierophanies and ultimacy and toward lived history and deep pluralism This book distills and systematizes this reorientation into nine theses on the study of religion Drawing on these theses and Wasserstrom's opus more generally a distinguished group of his colleagues and former students demonstrate that religions can and must be understood through encounters in real time and space through the complex relations they create and maintain between people and between people and their pasts The book also features an afterword by Wasserstrom himself which poses nine riddles to students of religion based on his personal experiences working on religion at the turn of the twenty first century

**Heidegger's Confessions** Ryan Coyne,2015-05-04 Although Martin Heidegger is nearly as notorious as Friedrich Nietzsche for embracing the death of God the philosopher himself acknowledged that Christianity accompanied him at every stage of his career In Heidegger's Confessions Ryan Coyne isolates a crucially important player in this story Saint Augustine Uncovering the significance of Saint Augustine in Heidegger's philosophy he details the complex and conflicted ways in which Heidegger paradoxically sought to define himself against the Christian tradition while at the same time making use of its resources Coyne first examines the role of Augustine in Heidegger's early period and the development of his magnum opus Being and Time He then goes on to show that Heidegger owed an abiding debt to Augustine even following his own rise as a secular philosopher tracing his early encounters with theological texts through to his late thoughts and writings Bringing a fresh and unexpected perspective to bear on Heidegger's profoundly influential critique of modern metaphysics Coyne traces a larger lineage between religious and theological discourse and continental philosophy

*The Closure of Space in Roman Poetics* Victoria Rimell,2015-06-05 This ambitious book investigates a major yet underexplored nexus of themes in Roman cultural history the evolving tropes of enclosure retreat and compressed space within an expanding potentially borderless empire In Roman writers exploration of real and symbolic enclosures caves corners villas bathhouses the prison of the human body itself we

see the aesthetic philosophical and political intersecting in fascinating ways as the machine of empire is recast in tighter and tighter shapes Victoria Rimell brings ideas and methods from literary theory cultural studies and philosophy to bear on an extraordinary range of ancient texts rarely studied in juxtaposition from Horace's Odes Virgil's Aeneid and Ovid's Ibis to Seneca's Letters Statius Achilleid and Tacitus Annals A series of epilogues puts these texts in conceptual dialogue with our own contemporary art world and emphasizes the role Rome's imagination has played in the history of Western thinking about space security and dwelling

**Heidegger's Ontology of Events** James Bahoh, 2019-12-05 James Bahoh proposes a new methodology for explaining Heidegger's philosophy that solves a set of interpretive problems in his difficult later work and led to substantial inconsistencies in the scholarship Bahoh reconstructs Heidegger's concept of event in relation to his theories of history truth difference ground and time space

**Heidegger and Aristotle** Walter A. Brogan, 2012-02-01 Walter A. Brogan's long awaited book exploring Heidegger's phenomenological reading of Aristotle's philosophy places particular emphasis on the Physics Metaphysics Ethics and Rhetoric Controversial and challenging Heidegger and Aristotle claims that it is Heidegger's sustained thematic focus and insight that governs his overall reading of Aristotle namely that Aristotle while attempting to remain faithful to the Parmenidean dictum regarding the oneness and unity of being nevertheless thinks of being as twofold Brogan offers a careful and detailed analysis of several of the most important of Heidegger's treatises on Aristotle including his assertion that Aristotle's twofoldness of being has been ignored or misread in the traditional substance oriented readings of Aristotle This groundbreaking study contributes immensely to the scholarship of a growing community of ancient Greek scholars engaged in phenomenological approaches to the reading and understanding of Aristotle

**Time in Exile** Marcia Sá Cavalcante Schuback, 2020-02-10 This book is a philosophical reflection on the experience of time from within exile Its focus on temporality is unique as most literature on exile focuses on the experience of space as exile involves dislocation and moods of nostalgia and utopia Marcia S. Cavalcante Schuback proposes that in exile time is experienced neither as longing back to the lost past nor as wanting a future to come but rather as a present without anchors or supports She articulates this present as a gerundive mode in which the one who is in exile discovers herself simply being exposed to the uncanny experience of having lost the past and not having a future To explore this she establishes a conversation among three authors whose work has exemplified this sense of gerundive time the German philosopher Martin Heidegger the French writer and essayist Maurice Blanchot and the Brazilian writer Clarice Lispector The book does not aim to discuss how these authors understand the relation between time and exile but presents a conversation with them in relation to this question that reflects new aspects in their work Attempting to think and express this difficult sense of time from within exile Time in Exile engages with the relation between thought and language and between philosophy and literature Departing from concrete existential questions S. Cavalcante Schuback reveals new philosophical and theoretical modes to understand what it means to be present in times of exile

The Duplicity of

Philosophy's Shadow Elliot R. Wolfson, 2018-04-24 Martin Heidegger 1889 1976 is considered one of the most influential philosophers of the twentieth century in spite of his well known transgressions his complicity with National Socialism and his inability to show remorse or compassion for its victims In *The Duplicity of Philosophy's Shadow* Elliot R Wolfson intervenes in a debate that has seen much attention in scholarly and popular media from a unique perspective as a scholar of Jewish mysticism and philosophy who has been profoundly influenced by Heidegger's work Wolfson sets out to probe Heidegger's writings to expose what remains unthought In spite of Heidegger's explicit anti-Semitic statements Wolfson reveals some crucial aspects of his thinking including criticism of the biological racism and militant apocalypticism of Nazism that betray an affinity with dimensions of Jewish thought the triangulation of the concepts of homeland language and peoplehood Jewish messianism and the notion of historical time as the return of the same that is always different inclusion exclusion and the status of the other the problem of evil in kabbalistic symbolism Using Heidegger's own methods Wolfson reflects on the inextricable link of truth and untruth and investigates the matter of silence and the limits of speech He challenges the tendency to bifurcate the relationship of the political and the philosophical in Heidegger's thought but parts company with those who write off Heidegger as a Nazi ideologue Ultimately *The Duplicity of Philosophy's Shadow* argues the greatness and relevance of Heidegger's work is that he presents us with the opportunity to think the unthinkable as part of our communal destiny as historical beings

Heidegger Among the Sculptors Andrew Mitchell, 2010-07-16 Heidegger Among the Sculptors is a provocative illustrated examination of Heidegger's sculptural writings that shows how they rethink the relationship between bodies and space and the place of art in our lives

**The Spectricity of Humanness** Zachary Isrow, 2022-08-22 The question of humanness requires a philosophical anthropology and we need a revision of what philosophical anthropology means in light of contemporary efforts in speculative realism and object oriented ontology This is the main claim of the book which expands into the smaller supporting claims that 1 contemporary work in speculative realism indicates that Heidegger's analytic of Dasein needs to be rethought in consideration of certain Kantian values 2 recent philosophical anthropology offers an incomplete look at the central concern of philosophical anthropology namely the question of humanness 3 current ontological models do not account adequately for humanness because they do not begin with humanness From these considerations a new ontological model better suited to account for humanness is proposed spectral ontology Under spectral ontology Being is treated as a spectrum consisting of beings nonbeings and hyperbeings Nonbeings or nonrelational entities and hyper beings are spectral insofar as they are like a specter which haunts the being that manifests in the world Thus spectral in this sense refers to both the nonrelational status of nonbeings and to an ontology which reflects such a spectrum of Being

**Philosophies of Appropriated Religions** Soraj Hongladarom, Jeremiah Joven Joaquin, Frank J. **The Question of Political Community** Jonna Pettersson,2018-11-15 From discussions on democracy to attempts to widen the scope of citizenship beyond the confines of the nation state Western thinking of the political community has continued to assume a unifying principle of sameness reflected in history space language or reason as the condition of possibility of the community The author assesses how despite attempts to broaden the scope for inclusion and the meaning of political existence contemporary political theory gives rise to new externalities through relying on a notion of the community as predicated on sameness Proceeding normatively and hermeneutically The Question of Political Community seeks to divert the thinking of political community from assumptions of calculability unity and boundedness by elaborating a notion of sameness that does not presuppose difference and a notion of difference that does not presuppose identity Through close engagements with texts in contemporary political theory and continental philosophy it is argued that in order to confront the problem of closure and exclusion the question of political co-existence needs to be reformulated and relocated so as to grasp the meaning of an

incalculable community
