**Metaphysics and Nihilism** Martin Heidegger,2022-11-29 The two treatises The Overcoming of Metaphysics 1938 39 and The Essence of Nihilism 1946 1948 do not belong together temporally or formally but they are brought together in this volume because they both treat a common thesis from the standpoint of different questions namely that nihilism is the essence of metaphysics in relation to the history of being The overcoming of metaphysics is for Heidegger the decisive historical moment in which metaphysics is experienced as the history of the abandonment by being and overcome at the same time The abandonment of beings by being reveals itself in the final and most extreme intensification of metaphysics as the unconditioned predominance of manipulation Manipulation means here the all dominating producibility of beings The Essence of Nihilism is linked to the idea of overcoming This text deals with the attempt to elucidate the essence of nihilism through Nietzsche s words God is dead The killing of God springs from the will to power as the most extreme form of manipulation The being of beings is grasped here as the positing of values emanating from the will to power In this positing of being as value it becomes clear that being itself remained unthought in metaphysics Therefore metaphysics as such is

nihilism proper These key works by Heidegger now available in English for the first time will be of great interest to students and scholars of philosophy and to anyone interested in Heidegger's thought     L'esprit du nihilisme Mehdi Belhaj

Kacem,2009-03-04 L'esprit du nihilisme titre doublement paradoxal puisque ce livre entreprend parallèlement et souvent en même temps de déconstruire le pseudo concept nietzschéen heideggerien de nihilisme et de décrire ce que par provocation provisionnelle nous appellerons nihilisme démocratique C'est graduellement par la description du nomologique de la spiritualité exprimée dans la voix moyenne de toute une poésie que se rouvre alors la voie qui a travers toute la modernité pensante depuis deux siècles la red couverte de la Tragedie par l'homme sans dieu x Sy ablit le secret découvert dans par cette modernité sans avoir jamais toutefois renversant la tradition métaphysico-politique de l'Occident on peut montrer que ce n'est pas la Loi qui est la condition de la Transgression mais le contraire C'est la Transgression qui est la condition de possibilité de toute la législation non seulement morale politique et civique mais technique et culturelle L'enjeu est considérable si la philosophie pour la toute première fois de sa tradition parvenait renverser le rapport qu'elle a toujours posé entre la législation et transgression démontrant que celle-ci est la condition de possibilité de celle-là et pas l'inverse bouleversant au passage le sens même qu'on a toujours accordé au concept de Transgression alors la philosophie destituerait enfin la religion de pensée qui avec l'irrationalisme qui lui est propre et qu'on a plus que jamais raison de qualifier d'obscurantisme à toujours penser la prédilection de la transgression sur la législation nommément la religion le point originel Cette destitution non seulement court-circuite le pouvoir du religieux mais restituerait ce pouvoir et la nécessité de penser les conséquences cela dont le retrait depuis trente ans est le vrai nom du nihilisme et du retour du religieux la politique     **Penser sans absolu. Douze essais sur le nihilisme** Yves Couture,2020-04-21T00:00:00-04:00

La question du nihilisme a une longue histoire Elle merge au sein de l'idéalisme allemand se déroule ensuite dans l'intelligentsia et la littérature russes puis trouve chez Nietzsche et Heidegger ses explorations les plus influentes Si le mot semble moins courant depuis un demi siècle comme d'autres termes aussi chargés de sens celui de nation les enjeux qu'il soulève demeurent toutefois au cœur de la pensée contemporaine Les risques environnementaux nourrissent d'ailleurs plus que jamais l'inquiétude intime que de puissantes dynamiques de valorisation du réel sont à l'œuvre dans les sociétés modernes Ces douze essais qui font largement entendre la voix d'une nouvelle génération n'ont pourtant pas pour but de défendre une théorie commune Ils explorent plutôt les multiples aspects du nihilisme et se confrontent ses grandes interprétations Sont ainsi proposées autant de pistes pour rejoindre les débats sur le capitalisme la technique l'éducation le patriarcat le roman ou la démocratie Pluralité revendiquée qui illustre non moins un même ancrage dans les défis du monde actuel     Nietzsche et Heidegger sur le nihilisme Christine Daigle,1995     Beckett and Phenomenology Ulrika Maude,Matthew Feldman,2011-10-20 Existentialism and poststructuralism have provided the two main theoretical approaches to Samuel Beckett's work These influential philosophical movements however owe a great debt to the phenomenological tradition This volume with contributions by major international scholars examines the phenomenal

in Beckett's literary worlds comparing and contrasting his writing with key figures including Edmund Husserl Martin Heidegger Jean Paul Sartre and Maurice Merleau Ponty It advances an analysis of hitherto unexplored phenomenological themes such as nausea immaturity and sleep in Beckett's work Through an exploration of specific thinkers and Beckett's own artistic method it offers the first sustained and comprehensive account of Beckettian phenomenology

Christine Daigle,1995 Ernst Jünger Justin Clemens,Nicolas Hausdorf,Birgit Lang,Marilyn Stendera,Giles Fielke,2021-12-01 More than twenty years after Ernst Jünger's death in 1998 the controversial German writer's work continues to compel the attention of readers critics and scholars In early 2019 Jünger's diaries the Strahlungen written while he was an officer in occupied Paris during World War II were published in English to wide acclaim These intimate accounts of high literary and philosophical quality reveal Jünger negotiating compliance with acts of subversion and resistance against the Nazi regime His life is evidence that history can be both real and unrealistic at once crystallising something essential about a twentieth century that witnessed the rise of total mobilisation global war and unprecedented technologies of mass extermination This volume presents four new essays by established and emerging scholars on Jünger's work and legacy Together they provide biographical philosophical psychological and aesthetic access points to a major twentieth century German intellectual who like few others invites us to investigate the ambiguities constraints and imperatives of our own times

**Freedom and Existence**

Matthew Aaron Tennant,2023-08-07 Is theology a dead corpse or living organism For Uruguayan Jesuit Juan Luis Segundo 1925 1996 theology is dynamic Freedom and existence for central themes Segundo believed that theology should be transformative in human lives For a theology to be transformative there must be a connection to existence That is it must be existential Yet most scholars have overlooked this assumption in critical analyses of liberation theology This prima facie connection to existence is distinguishable from existentialism as a school of philosophy By showing the significant existential dimension to Segundo's theology assessing his work and contribution to twentieth century theology relates to freedom ecumenism the role of faith in society and the relationship between faith and ideologies

**The Movement of Nihilism**

Laurence Paul Hemming,Kostas Amiridis,Bogdan Costea,2011-03-03 When Nietzsche announced the advent of nihilism in 1887 88 he argued that he was sketching the history of the next two centuries For some time now he wrote our whole European culture has been moving as toward catastrophe restlessly violently headlong like a river that wants to reach the end that no longer reflects that is afraid to reflect Can we gain a ground for reflection upon our own condition Can we heed Nietzsche's warning Can we respond to the challenge In this book eleven newly commissioned essays from leading scholars offer an attempt to grasp Nietzsche's prescience through Heidegger's critique of it attempting to think through the philosophical consequences of the last century in reading the signs of our own condition The book also provides a fascinating and unique discussion of some of the lesser known texts of the later Heidegger
