Heightened Consciousness The Mystical Difference:

Heightened Consciousness David Granfield, 1991 **Heightened consciousness : the mystical difference** Grant Granfield, 1991 **Reconstructing Practical Theology** John Reader, 2017-03-02 This book argues that the discipline of practical theology needs to be re shaped in the light of the impact of various influences created through the encounter with globalization Essential to this is an engagement with the insights of other disciplines e g sociology politics economics and philosophy The content and authority of the Christian tradition is being challenged by the blurred encounters with more fluid lifestyles alternative spiritualities and indeed other faiths as mediated through information technology and the breakdown of attachments to all forms of institutional life Traditional ways of belonging and relating to places and structures are being eroded leaving the established patterns of ministry worship church organisation the province of an ageing population while those who are now more inclined to search for communities of interest avoid being drawn into the practices and structures of formal religion What is the future for practical theology in this rapidly changing context By examining the familiar concerns of the subject John Reader shows how it is in danger of operating with zombie categories still alive but only just and presents the possibilities for a reflexive spirituality grounded in the Christian tradition as a way into the future **Evelyn Underhill** Annice Callahan, 1997 This book explores Evelyn Underhill s spirituality for daily living by describing aspects of her life and writings that are relevant for contemporary Christians in their daily living It combines scholarly research and pastoral applications The first part focuses on three influences on her life experiences and images her study of the mystics and her work with spiritual guides The second part discusses Underhill s spirituality for daily living based on a study of her letters retreats and other spiritual writings The third part presents her legacy for the third millennium her study of mysticism her spiritual guidance and her spirituality for daily living This work highlights aspects of her life with which readers may identify for example her own return to the Anglican communion after fourteen years her ecumenical dialogue with the Orthodox church and her lifelong attraction to the mystical and sacramental aspect of Roman Catholicism her study of Sufi mystics bringing her into interfaith dialogue her pacifist stance in World War II and her prophetic contribution to the Anglican church as a woman spiritual director retreat preacher theologian spiritual writer and spiritual resource for today **The Poetization of Metaphors in the Work of Novalis** Veronica Freeman, 2006 The poet Friedrich von Hardenberg Novalis 1772 1801 exemplifies romantic ideals in his nostalgic yearning for spiritual fulfillment and in doing so invokes the language of authentic mystics While romantics and mystics believe in the common goal of original union the path toward wholeness has led them down separate roads which it may be argued have converged only linguistically This book therefore emphasizes the importance of examining metaphors in their respective traditions **Brain, Consciousness, and God** Daniel A. Helminiak, 2015-07-16 Brain Consciousness and God is a constructive critique of neuroscientific research on human consciousness and religious experience An adequate epistemology a theory of knowledge is needed to address this topic but

today there exists no consensus on what human knowing means especially regarding nonmaterial realities Daniel A Helminiak turns to twentieth century theologian and philosopher Bernard Lonergan's breakthrough analysis of human consciousness and its implications for epistemology and philosophy of science Lucidly summarizing Lonergan's key ideas Helminiak applies them to questions about science psychology and religion Along with Lonergan eminent theorists in consciousness studies and neuroscience get deserved detailed attention Helminiak demonstrates the reality of the immaterial mind and addressing the Cartesian mind body problem explains how body and mind could make up one being a person Human consciousness is presented not only as awareness of objects but also as self presence the self conscious experience of human subjectivity a spiritual reality Lonergan's analyses allow us to say exactly what spiritual means and it need have nothing to do with God

On the Side of the Angels Marie L. Baird, 2002 Contends that after the Holocaust spirituality requires that self transcendence be defined primarily as ethical responsibility Ch 4 pp 89 118 Ethical Responsibility and Holocaust Rescuers concludes that even though theories of rescue do not clearly establish an overt religious motivation many rescuers were influenced to act by a religious motivation based on ethical responsibility *Handbook for Spiritual Directors* Julie M. Douglas, 1998

Seeing the Unseen John Collins, Abandoning at age 30 what promised to be a lucrative law practice John Collins escaped to Spain for a three year sabbatical to search for the meaning of life In *SEEING THE UNSEEN* Opening the Closed Circuit of Everyday Consciousness he relates his findings in maxims and identifies seven impediments that commonly hinder our capacity to render our everyday experience of people places and things intelligible meaningful and joyful Collins believes the greatest obstacle to realizing personal fulfillment or salvation or the Kingdom of God is psychological Living our lives almost entirely on the conscious surface of Self we neglect the unconscious core of our being resulting in the inability of the whole Self to truly see and know reality Collins suggests that religion's finest hour may come when it assumes responsibility for healing this rupture in our innermost being allowing us to achieve greater understanding of ourselves of the world and ultimately of God

The Politics of the Soul Glenn Hughes, 1999 The Politics of the Soul Eric Voegelin on Religious Experience includes eight essays examining one of the most profound studies of religious experience to appear in the last century that of the political philosopher Eric Voegelin Voegelin is increasingly recognized as a political theorist of exceptional scope and erudition and the most important philosopher of his time since Toynbee and his treatment of religious experience is a crucial part of his overall analysis of existence and history This collection of essays by prominent Voegelin scholars is the first book to explore the relevance of that analysis to the contemporary understanding of political theory theology history and philosophy of consciousness and as such it constitutes a significant contribution not only to Voegelin scholarship but to the current quest for theoretical foundations

The Lonergan Reader Bernard J. F. Lonergan, 1997-01-01 In order to make Lonergan's unique contribution to philosophy and theology accessible to students and teachers the editors of The Lonergan Reader have brought together in a single volume selections that represent the depth

and breadth of his thought **Beard Fetish in Early Modern England** Mark Albert Johnston, 2016-04-15 Focusing on representations of beards in English Renaissance culture this study elucidates how fetish objects validate ideological systems of power by materializing complex value in multiple registers Providing detailed discussions of not only bearded men but also beardless boys bearded women and half bearded hermaphrodites author Mark Albert Johnston argues that attending closely to early modern English culture's treatment of the beard as a fetish object ultimately exposes the contingency of categories like sex gender age race and sexuality Johnston mines a diverse cross section of contemporary discourses adult and children's drama narrative verse and prose popular ballads epigrams and proverbs historical accounts pamphlet literature diaries letters wills court records and legal documents medical and surgical manuals lectures sermons almanacs and calendars in order to provide proof for his cultural claims Johnston's evidence invokes some of the period's most famous voices William Shakespeare Ben Jonson John Lyly Phillip Stubbes John Marston George Chapman Thomas Dekker Thomas Middleton and Samuel Pepys for example but Johnston also introduces us to an array of lesser known Renaissance authors and playwrights whose works support the notion that the beard was a palimpsestic site of contested meaning at which complex and contradictory values clash and converge Johnston's reading of Marxist Freudian and anthropological theories of the fetish phenomenon acknowledges their divergent emphases erotic economic racial and religious while suggesting that the imbrication of diverse registers that fetish accomplishes facilitates its cultural and psychic naturalizing function
