Frank O'Hara and MoMA Matthew Holman, 2025-08-07 This is the first book to closely examine the curatorial work that the celebrated poet Frank O Hara 1926 1966 undertook for the Museum of Modern Art in New York and abroad Upon his premature death the New York Times obituary ran with the headline Frank O Hara 40 Museum Curator Exhibitions Aide at Modern Art Dies Also a Poet However in the half a century since O Hara s fascinating career as a curator where he oversaw exhibitions of the likes of Jackson Pollock Helen Frankenthaler David Smith and Larry Rivers among others has been eclipsed by the critical attention given over to his poetry Drawing on a broad range of unpublished archival material the book reveals the impact O Hara s curatorial work had both on the reception of American modern art abroad and on the curatorial profession itself It focuses on his travelling exhibitions for MoMA s International Program a vehicle for soft power during the fraught years of the cultural Cold War exposing him to new art artists and cities while developing important transnational networks far from New York from Madrid to Venice Zagreb to Otterlo Bringing together close readings of O Hara s poems and unpublished letters with a selection of archival illustrations Holman argues for O Hara s sense of exuberant continuity between life as a writer and a curator an American and a cosmopolitan revealing that he was so much more besides the quintessential New York poet It is perfect reading for anyone interested in American art in the mid 20th century curatorial and museum studies or simply this lesser known but fascinating aspect of the legendary poet s career Frankenthaler Mary Beth Hynes, 1997 This volume presents a retrospective of the work of American abstract expressionist painter Helen Frankenthaler b 1928 Frankenthaler began exhibiting her large scale abstract expressionist paintings in contemporary museums and galleries in the early 1950s Her career was launched in 1952 with the exhibition of her work *Mountains and Sea* This painting is large measuring seven feet by ten feet and has the effect of a watercolor though it is painted in oils In it she introduced the technique of painting directly onto an unprepared canvas so that the material absorbs the colors She heavily diluted the oil paint with turpentine so that the color would soak into the canvas This technique known as soak stain and launched the second generation of the Color Field school of painting This method would sometimes leave the canvas with a halo effect around each area to which the paint was applied but has a disadvantage in that the oil in the paints will eventually cause the canvas to discolor and rot away Women in American History Peg A. Lamphier, Rosanne Welch, 2017-01-23 This four volume set documents the complexity and richness of women s contributions to American history and culture empowering all students by demonstrating a more populist approach to the past Based on the content of most textbooks it would be easy to reach the erroneous conclusion that women have not contributed much to America s history and development Nothing could be further from the truth Offering comprehensive coverage of women of a diverse range of

cultures classes ethnicities religions and sexual identifications this four volume set identifies the many ways in which women have helped to shape and strengthen the United States This encyclopedia is organized into four chronological volumes with each volume further divided into three sections Each section features an overview essay and thematic essay as well as detailed entries on topics ranging from Lady Gaga to Ladybird Johnson Lucy Stone and Lucille Ball and from the International Ladies of Rhythm to the International Ladies Garment Workers Union The set also includes a vast variety of primary documents such as personal letters public papers newspaper articles recipes and more These primary documents enhance users learning opportunities and enable readers to better connect with the subject matter **Painting outside the Lines** David W. Galenson,2009-06-30 In a work that brings new insights and new dimensions to the history of modern art David Galenson examines the careers of more than 100 modern painters to disclose a fascinating relationship between age and artistic creativity **New York Modern** William B. Scott,Peter M. Rutkoff,1999 Handsomely illustrated and engagingly written New York Modern documents the impressive collective legacy of New York s artists in capturing the energy and emotions of the urban experience The 20th Century A-GI Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography
