Stories of Childhood Dean W. Duncan,2015-10-29 This study questions the widely held perception that books as an artistic medium are superior to and more respectable than film or television sometimes considered frivolous and pernicious Criticism of both the big and small screens often obscures their signal accomplishments and the entertainment and insight they provide The author analyzes our distaste for these media and the romanticizing of the printed word that accompanies it and argues that books and films are in fact quite complementary A broad survey of film and TV offerings explores what enacted narratives have taught us about the nature of childhood **Light** Jennifer Lawson,2001 The eight lessons in this module introduce students to light sources and the characteristics of light such as its ability to travel and reflect Students investigate translucent transparent and opaque materials and explore the science of shadows They also examine the evolution of light technology and the design and construction of optical devices Also included materials lists activity descriptions questioning techniques activity centre and extension ideas assessment suggestions activity sheets and visuals The module offers a detailed introduction to the Hands On Science program guiding principles implementation guidelines an overview of the skills that young students use and develop during scientific inquiry a list of children s books and websites related to the science topics introduced and a classroom assessment plan with record keeping templates **Into Deepest Space** Fred Hoyle,Geoffrey Hoyle,2015-06-24 Sequel to Rockets in Ursa Major From a great distance the Yela s recorded message crackled through on the micro earpiece For the time being you have won But I am not defeated so easily That had been three years ago after Dick Warboys had repulsed the invading Yela by firing a lithium bomb into the Sun But now that threat seems near fulfilment as appalled scientists detect the rapid approach of a vast engulfing cloud of hydrogen Can humanity survive on Earth or must selected pioneers abandon it in search of a safer region of the Galaxy To find the answer Dick and his allies from Space suffer a perilous voyage into the realms that reach the ultimate in understanding the physical universe **Pinocchio** Madge Miller,1954 **A to Zoo** Rebecca L.
