Ballard,2013-05-20 This fable lifts a great freight of ideas effortlessly The story of an expedition driven on by wishes of possession and power but guided internally by myths of America whose sources lie in the late 20th century Guardian Following the energy crisis of the late twentieth century America has been abandoned Now a century later a small group of European explorers returns to the now climatically mutated continent But America is unrecognizable the Bering Strait has been dammed and much of the country has become a desert populated by isolated natives and the bizarre remnants of a disintegrated culture The expedition sets off from Manhattan on a cross country journey through Holiday Inns and abandoned theme parks to uncover a shocking new power in the heart of Las Vegas
