

Empowered Parenting

When children have the right amount of agency within the parent-child dynamic, it enables their mental well-being. They will simultaneously see their parents as leaders they can trust, and will learn to trust their own decisions. However, when there are power struggles between a child and a parent, it can cause stress and tension for everyone. Do you give your child too much power over you?

Check all that apply. If you check off more than a couple of the points, your child-parent dynamic may be imbalanced.

☐ I often ignore my child's poor behavior because they will just do what they want regardless of what I say.

☐ My child is given an equal vote in my decision-making process about matters related to the family.

☐ I prefer to be more of a friend to my child than an authority figure.

☐ My child is able to make me change my parenting decisions and choices.

☐ I use bribery to make my child listen to me.

☐ I often find myself on the back foot or justifying my parenting choices to my child.

☐ My child does not ask for my permission before doing something.

☐ I am uncomfortable being in charge.

☐ I struggle to enforce natural consequences for my child.

☐ I find it difficult to know where parent-child boundaries should lie.

Melissa S. Kearney,2023-09-18 The new economics of love and marriage and who benefits The realities of single parenting in the US have long carried a connotation of hardship not just in finances but in the wrenching day to day challenges of parenting without a net As marriage rates in the US continue to drop and as single parent households become increasingly concentrated at the lower end of the income spectrum it begs the question what does all this mean for a country and a society already dogged by inequality and the weight of racial discrimination The Two Parent Privilege examines the emerging role of marriage in the United States Weaving data and observations drawn from across the social sciences economist Melissa Kearney explores how the concentration of marriage among the affluent has made the institution of marriage itself a propagator of American inequality one that may signal the end of American economic mobility Kearney s work is a trenchant sometimes uncomfortable but deeply necessary critical look at how the makeup of our households are charting our path ahead **Transforming Relationships Through Belief Work**

Awaken You Shelly Bond, 2022-01-14 In *Awaken You* yogi and storyteller Shelly Bond offers tangible ways of waking up to life Part guide and part memoir Shelly shares her journey of self doubt to self reflection and finally accepting love With an authentic voice she combats the inner critique as a way toward awakening to life flaws and all Inside this soulful guide are enlightened echoes of pain loss mending a broken marriage parenting acceptance healing compassion forgiveness and more Excerpts from the book Being a conscious parent is more than a thought it is a way of showing up for each and every child as the moment presents itself The false perception of parenting tells us our children need to be a certain way they need to look act think behave and test like everyone else and if they don t we have failed in the parenting realm These lies we have been fooled into believing are only putting more separation between parents and children We can stop the destruction now With the help of unconditional love compassion and forgiveness we can carve a new path for how we will

Norms of Violence Aimée X. Delaney, 2021-03-29 Norms of Violence Violent Socialization Processes and the Spillover Effect for Youth Crime explores the degree to which violent socialization processes both at the macro and micro levels are associated with youth criminal behavior Based on a quantitative test of an integrated theory of social control and culture of violence the author argues that violent socialization is a process involving physical violence exposure to violence and pro violent communications All three dimensions in combination with national level indicators of violence contribute to a norm of violence which at a national level spills over into other dimensions of society including the family environment This book seeks to answer if violent socialization processes truly control youth behavior Various quantitative methods are used to demonstrate how violent socialization tends to be more prevalent in nations with indicators of violence compared to nations without such indicators The spilling over of violence into socialization processes creates a context of violence normalized as a form of social control which exacerbates youth criminal behavior within pro violent nations This book is unique in propelling a more thorough explanation of international youth crime by focusing on both victimization violent socialization and offending rather than arguing solely that victimization is a correlate of youth crime It provides a reference point for future comparative research offering theoretical explanations for youth crime across different nations and is essential reading for those engaged in youth and juvenile justice efforts and scholars interested in issues surrounding violence youth and justice

From Misery Alley to Missouri Valley Reza Varjavand, 2009-05-14 Introduction The act of writing is an act of optimism. You would not take the trouble to do it if you felt it didn't matter. Edward Albee When I was visiting my native country of Iran a couple of years ago, I was fortunate to have been given an invitation to do a presentation at a local high school in my hometown. It was indeed a cherished and somewhat adventurous opportunity for me because I had not done any presentations to high school students before, let alone in Farsi, my native language. When I entered the big room where the presentation was to be given, I met a large group of enthusiastic students between the ages of 16 and 18. Because high schools in Iran are gender-segregated, the students were all boys. I had prepared nothing for them in advance because the invitation was spontaneous; consequently, I decided I would be spontaneous, engage them in conversation and see what would develop. I began with some introductory remarks and then I thought I would capture their attention by asking them a question. I told them that good teachers are good story tellers; they tell all sorts of stories in order to stimulate their students' engagement in the subject matter and to get important points

across Then I asked the question Do you know what the most important story is that you can tell A few of the students raised their hands One of them happened to be in the front row his hand was higher than others and I could tell from his facial expression that he had an interesting answer for me so I let him speak He said the most important story a person could tell is the story of your life His answer was not only remarkable but also unexpected because it was given by a 16 year old boy I tried to imagine how many noteworthy life stories this very young man could tell in any case his answer set the tone for the rest of my presentation I began to speak to the students about my own high school experience here in Iran when I was their age From that time on I have often thought about this young man and his answer This experience eventually led to my decision to gather together some of the things I had written in my spare time over the course of a few years and publish them in the form of a book The content of this book is comprised of memories and some reflections on my life experiences from when I was growing up in Iran as well as musings on some contemporary issues of the day from my perspective as an economist or a Muslim or as an immigrant parent raising children in the United States I believe the words of Edward Albee quoted above The act of writing is an act of optimism and I do it because I believe it does matter For me the optimism Albee refers to is similar to President Barack Obama writing about his audacity to hope and this book is the result of my daring to dream When I look back on my poor younger years in Iran as one of seven children of illiterate parents my journey at times seems almost unimaginable It was my great good fortune to have been the youngest of four sons born to my farmer father therefore I was not needed to help with the farm so I was freed from that filial responsibility This freedom allowed me to dare to dream My curiosity and love of learning drove me to work hard and to strive for something more coming to the United States becoming an economics professor at a Chicago university and raising bicultural children The second part of Albees quote is just as meaningful I took the trouble to write because writing does matter I believe that communicating ones experiences thoughts and opinions with others is one side of an essential conversation that has been going on since the dawn of civilization Cavemen began this communication and conversation when they first felt compelled to share the pictures of their lives and their world at that time on the stone walls of their homes and gathering places This conversation has continued
