

Solvency II

- Aim: Economic risk-based solvency requirements for all insurers and reinsurers
- Economic impact:
Greater competition between insurers, due to the opening up of the single market, leading to downward pressure on prices
- Social impact:
 1. Reduced likelihood of failure of an insurer
 2. Better understanding of risk amongst consumers, though potential for greater risk transfer to consumers
- Sectoral social impact: There will be rules on remuneration

Theory Menggang Li,2013-12-09 This book offers a systematic discussion and explanation on what industrial security is what
 the influencing factors of industrial security are how industrial security should be evaluated and how early warnings should
 work from the viewpoint of developing countries Studying theories of industrial security is necessary for the development of
 industrial economics theory innovations in industrial economy studies and an important supplement to and improvement on
 the theories of industrial economics Also studying industrial security theories can offer valuable guidance for the practice of
 industrial economics and national industrial policy making **Republic of Serbia** International Monetary Fund,2010-05-27
 This Technical Note analyzes the insurance sector in Serbia The Serbian insurance sector remains small and underdeveloped
 Over the last three years the market experienced little growth in real terms mainly owing to weak economic growth fierce
 price competition among the growing number of players and premium payment difficulties in the industrial sector which
 forced many corporate policyholders to cancel their insurance The paper highlights that the Serbian insurance sector is well
 capitalized relative to its overall net risk exposure
