United States and those in other countries It also proposed some answers Even before the bishops released their statement the Lay Commission on Catholic Social teaching and the U S Economy joined the debate with its own lay letter which both overlaps and differs in significant respects from the bishops statement This volume which is initiated by the Lay Commission takes the debate even further Various experts discuss the relationship between public policies and private virtue and examine specific aspects of economic life Among these are the meaning of economic rights what to do about Third World debt economic justice and the family and certain macroeconomic issues Their view is independent authoritative clearly articulated and inevitably they will be controversial They also enrich and further the ongoing dialogue on how best to make the economy serve the people and in particular the most deprived Contributors include William E Simon and Michael Novak chairman and vice chairman of the Lay Commission J Brian Benestad Allan Carlson J Peter Grace Howard J Wiarda John P Cullity James Q Wilson and the editor of this volume James Finn
