China's Economic Reform and Development during the 13th Five-Year Plan Period Gang Lin, Yiming Wang, Xiaohe Ma, Debu Gao, 2020-09-23 Five Year Plans have been a cornerstone of Chinese social and economic development initiatives since 1953 During the thirteenth of these periods between 2016 and 2020 the global economy has experienced instability after the financial crisis as well as political and economic reconfiguration Drawing on modern economic theory this book comprehensively discusses China's economic development in this crucial phase The book

analyzes the international economic environment and asks how China's continued reform and opening up can fit with the new era of economic globalization. It also presents the difficulties China faces in such fields as urbanization, the coordination of regional development and urban-rural integration, economic reform, and the reform of factor markets and state-owned enterprises. The book outlines many medium-term development rules along with key characteristics of China's economy, helping international readers fully understand likely future trajectories for the Chinese economy.

The Politics of Economic Reform in Germany Kenneth Dyson, Stephen Padgett, 2014-07-16 This new volume situates current debates about economic reform in Germany in illuminating historical and structural contexts. Showing how economic reform has become the central issue on the German political agenda, raising contentious issues of policy management and posing deeper questions about political beliefs and identities. It also examines the politics of the reform process, outlining competing views about the root causes of Germany's economic problems, the appropriate policy responses, and the distribution of costs. It situates the reform process in the wider context of the decline of the German economic model, *Modell Deutschland*, and Germany's transition from European pace-setter to economic laggard. Particular attention is paid to the following key questions: What continuities and discontinuities can be seen in Germany's political economy? Are globalization and Europeanization associated with a progressive neo-liberal ascendancy in economic reform? How does economic reform in Germany compare with that in other states, notably Britain and France? Are there distinctive patterns in the way domestic policymakers negotiate economic reform? How do the characteristics of the German labour market and welfare state condition economic reform? How much variation exists at the *Laender* levels? This book was previously published as a special issue of *German Politics*.

Institutions for Economic Reform in Asia Philippa Dee, 2009-12-16 Consisting of theoretical chapters and six country case study chapters, this book sets out some of the principles that are critical to success in regional cooperation and the ways APEC can promote structural reform efforts in APEC economies.

Russian Economic Reform James Leitzel, 2005-06-22 Transitions from socialism to capitalism are complex both in theory and practice. *Russian Economic Reform* enables the reader to come to a much better understanding of these momentous changes by providing a clear and accessible account of the major features of transition. It argues that attempts to portray the reform process as a disaster are misconceived because they fail to take account of just how badly the pre-reform economy was doing. Many of the problems that are emerging now have their antecedents in the earlier economic system.

Chinese Economists on Economic Reform - Collected Works of Ma Hong Ma Hong, 2013-12-04 This book is part of a series which makes available to English-speaking audiences the work of the individual Chinese economists who were the architects of China's economic reform. The series provides an inside view of China's economic reform, revealing the thinking of the reformers themselves, unlike many other books on China's economic reform which are written by outside observers. Ma Hong (1920-2007) was one of the leading advocates for China's market-oriented reforms, one of the earliest scholars to adopt the concept of a socialist market economy. Politically active from the

1930s when he campaigned against the Japanese occupation he held many important posts notably President of the Chinese Academy of Social Sciences in the 1980s He was particularly influential in the field of industrial economics putting to use his own experiences of managing industrial enterprises and a strong advocate of the need for China's economic development to be stable The book is published in association with China Development Research Foundation one of the leading economic and social think tanks in China where many of the theoretical foundations and policy details of economic reform were formulated

The Rule Of Law And Economic Reform In Russia Jeffery Sachs, 2019-05-20 What impact has Russia's chosen path of reform had on the development of law after the collapse of the communist regime This collection of essays examines how Russia's distinctive traditions of law and lawlessness are shaping the current struggle for economic reform in the country Nine renowned scholars chosen from specialties in history politics

Hungarian Economic Reform Joseph C. Brada, Istvan Dobozi, 2019-07-04 The essays in this volume document the serious shortcomings of the Hungarian economic reform which in two decades has brought deteriorating economic performance declining real wages a fiscal deficit and severe inflationary pressures It has proved unexpectedly difficult to substitute a regulated market economy for a centrally planned one The authors of these essays argue that the problems stem from the incompleteness of the reforms and their compromise character Today as the Hungarians prepare to implement more radical measures constraining the Communist party and rolling back state ownership they do so under economically difficult conditions

Political Competition, Economic Reform and Growth Ivan Pavletic, 2010 Which political and institutional factors trigger reforms that enable the poor to benefit from the process of economic growth How can the incentives of policy makers be influenced in order to achieve such a dynamic These are the questions this study seeks to address by examining the transition process in post communist countries The author argues that political competition within an accepted and respected institutional environment has been a driving force in shaping the direction and success of transition reforms Evidence shows that in countries with a sufficient degree of political competition citizens responded to economic crises by calling for economic liberalization Economic liberalization removed existing distortions increased economic efficiency and raised public welfare This activated a dynamic self enforcing reform process that also strengthened the political and economic power of the poor In the absence of political competition such a process failed to emerge thereby contributing to the persistence of poverty Based on these findings there is good reason to postulate that some level of political competition is essential for transition reforms to improve economic efficiency and public welfare in a sustainable manner

Economic Thought and Economic Reform in the Soviet Union Pekka Sutela, 1991-07-26 Although the history of centrally planned economies has been widely studied the development of socialist thinking on the subject has remained largely uncharted In this 1991 work Pekka Sutela presents a detailed analysis of Soviet economic thought and theory Dr Sutela traces the

competing currents in the Marxist tradition of socialist economies from the Revolution to the present day In particular he shows how the Gorbachev economic reform programme of 1987 rose from the work of Nobel Prize economist L V Kantorovich and his followers However this programme failed and the author explains in some detail why this happened Since then Soviet economists have tried to abandon their traditional theory of central planning and move along the path and long established contacts with leading Soviet economists Pekka Sutela is able to show how Soviet economic thinking has moved from dogmatism through reformism to pragmatism

Changing Attitudes Toward Economic Reform During the Yeltsin Era Terry D. Clark, Ernest Goss, Larisa Kosova, 2003-07-30 On December 31 1999 Boris Yeltsin stepped down as president of the Russian Federation marking the end of an era While scholars and observers alike continue to debate the degree to which Russia succeeded in establishing democracy or a free market economy the enormity of the social transformation that occurred during the Yeltsin era is far less disputable For the social stratification that emerged changed the very face of Russian society Much criticism has been leveled at the political corruption that marred the Yeltsin era However the economic and political reforms enacted under Yeltsin also permitted the opening of new channels of social mobility particularly in the larger cities Those who benefited most from the reforms became its strongest supporters allowing the creation of a nascent middle class The book's focus on this socioeconomic group is unique as most analyses of the Yeltsin era largely ignore it

Ideology and Economic Reform Under Deng Xiaoping 1978-1993 Wei-Wei Zhang, 2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping's wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms

The Politics of Economic Reform in South Korea Tat Yan Kong, 2013-10-11 One of the most comprehensive texts on the political economy of Korea available Up to date goes up to 1999

Economic Reform Processes in South Asia Philippa S. Dee, 2012 While South Asia's economic reform initiatives of the last two decades were often born in crisis this alone does not account for their occurrence This book looks at the processes and institutional arrangements behind these reforms and analyses what lessons can be learnt about how South Asia can improve its policy efficiency The book develops ideas about how to overcome the political restraints to reform by drawing on recent theories of political economy and policy learning It tests these ideas against authoritative case studies of actual reform initiatives in South Asia which illustrate processes and institutional arrangements that have helped South Asian governments to sustain reform efforts even in the absence of a strong political base This offers valuable lessons for the global economy as it moves into a phase of rebalancing with the structural adjustments that this will require The book goes on to identify weaknesses that could be addressed by South Asian national governments and regional forums It is an important contribution to studies on South Asian Politics and International Political

Economy *Socialism, Perestroika, And The Dilemmas Of Soviet Economic Reform* John E Tedstrom, 2019-07-09 This book highlights that Soviet economic planners and politicians must come to recognize the need to make fundamental changes not simply incremental refinements in the failing Soviet system It examines the dynamics of the process of perestroika and the complexity of individual economic issues *Federalism and Economic Reform* Jessica Wallack, T. N. Srinivasan, 2006-01-09 This collection focuses on the ways in which federalism has affected and been affected by economic reform especially global integration The editors and contributors focus in particular on the political economy of institutional and economic change how the division of authority between national and subnational governments shapes debates over policy changes as well as how the changing economic environment creates incentives to modify the basic agreements between levels of governments Each chapter contains a historical overview and an in depth account of division of authority lines of accountability and legislative bureaucratic and other arenas in which the levels of government interact for a particular country The analyses are based on reform or non reform episodes for each country most from recent history but some spanning the century As a collection the country studies span a range of developing and industrial countries with varying political systems

Politicians and Economic Reform in New Democracies Kent Eaton, 2010-11 As economic reform in developing countries has shifted from macroeconomic stabilization to liberalization opportunities for legislators to influence the process and outcome of reform have increased and their role has become more important This book focuses attention on differences in institutional structure in political parties and electoral rules to show how they create incentives that can explain the varying ways in which legislators respond to policy initiatives from the executive branch In Argentina and the Philippines presidents proposed similar fiscal reforms in the 1990s expanding tax bases strengthening tax administration and redesigning tax revenue sharing with subnational governments Drawing on archival research and interviews with policy makers Kent Eaton follows the path of legislation in these three areas from initial proposal to final law to reveal how it was shaped by the legislators participating in the process Obstacles to the adoption of reform he demonstrates are greater in candidate centered systems like the Philippines where the cultivation of personal reputations is paramount than in party centered systems like Argentina s where loyalty to party leaders is emphasized To test his argument further Eaton looks finally at other kinds of reform ventured in these two countries and at tax reforms attempted in some other countries
