Library, 1920 **Edexcel A2 Economics Unit 5a - Labour Markets Digital Textbook**, *Making Work Pay* Bruce D. Meyer, Douglas Holtz-Eakin, 2002-01-10 Since its inception under President Ford in 1975 the Earned Income Tax Credit EITC has become the largest antipoverty program for the non elderly in the United States In 1998 more than nineteen million families received EITC payments and the program lifted over four million Americans above the poverty line Despite the rapid growth of the EITC throughout the 1990s little has been written about how the program works or how it affects low income families *Making Work Pay* provides the first full scale examination of the EITC exploring its effects on income distribution poverty work and marriage *Making Work Pay* opens with a history of the EITC its emergence in the 1970s as a pro work low cost antipoverty program and its expansion through the 1980s and 1990s The central chapters in the volume look at the substantial impact of the EITC on work incentives in recent years and show that the program in combination with welfare reform and a strong economy has led to an unprecedented increase in the employment of single mothers In one study researchers conclude that the EITC with its stipulation that one family member be a wage earner was the most important change in work incentives for single mothers between 1984 and 1996 a period when the employment rate of single mothers rose sharply Several chapters outline proposals for reforming the program addressing the concerns by policymakers about the work disincentives that rise as benefits fall with increasing income Finally *Making Work Pay* examines how EITC recipients view the credit and what they do with it once they get it The contributors find that not only does EITC s lump sum payment increase consumption but it also allows recipients to make changes in economic status Many families use the end of the year payment as a form of forced savings enabling them to save for home improvement a new car or other purchases to improve their lives and providing the extra economic cushion needed to move beyond mere day to day survival
