Edward Westons California Landscapes:

Edward Weston's California Landscapes James Enyeart, Edward Weston, 1984 **Edward Westons California landscapes** James L. Enyeart, Edward Weston, 1984 *Weston's Westons* Karen E. Quinn, Theodore E. Stebbins, Edward Weston, 1994 In this collection of photographs California and the West Coast of America are shown in all their seasons and scenery from arid deserts and dramatic mountain ranges to vineyards and fruit farms in full bloom Many of the photographs in this book are being published for the first time *Edward Weston* Edward Weston, 1995-10-30 This new book surveys Edward Weston's work more comprehensively and exhaustively than any previous work A combination of biography and critical analysis it offers more than 320 meticulously reproduced duotone images nearly a quarter of which have never been reproduced in books before The selected photographs trace Weston's career from his early days through formative years in Mexico and on through the balance of his career which ended because of the onset of Parkinson's disease ten years prior to his death in 1958 Treated chronologically and emphasizing Weston's creative preoccupations in each period the book includes work that he created in 1938 and 1939 with funds from the first two Guggenheim Foundation grants ever awarded to a photographer To illustrate the book vintage prints have been selected from the copious Weston Archives at the Center for Creative Photography in Tucson Arizona and the highly important Lane Collection at the Boston Museum of Fine Arts Nearly 10 000 photographs have been examined in order to select those reproduced in the book **The ^ADream Endures** Kevin Starr, 2002-11-28 What we now call the good life first appeared in California during the 1930s Motels home trailers drive ins barbecues beach life and surfing sports from polo and tennis and golf to mountain climbing and skiing sportswear a word coined at the time and sun suits were all a part of the good life perhaps California's most distinctive influence of the 1930s In *The Dream Endures* Kevin Starr shows how the good life prospered in California in pursuits such as film fiction leisure and architecture and helped to define American culture and society then and for years to come Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression unemployment strikes Communist agitation reactionary conspiracies in *Endangered Dreams* the fourth volume of his classic history of California In *The Dream Endures* Starr reveals the other side of the picture examining the newly important places where the good life flourished like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego where the Navy went the California Institute of Technology in Pasadena where Einstein went and changed his view of the universe and college towns like Berkeley We read about the rich urban life of San Francisco and Los Angeles and in newly important communities like Carmel and San Simeon the home of William Randolph Hearst where each Thursday afternoon automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle The 1930s were the heyday of the Hollywood studios and Starr brilliantly captures Hollywood films and the society that surrounded the studios Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period prominent European

film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years Igor Stravinsky Arnold Schoenberg Man Ray Bertolt Brecht Christopher Isherwood Aldous Huxley Thomas Mann and Franz Werfel Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others like Samuel Goldwyn provided stories and dreams for their adopted nation Starr reserves his greatest attention and most memorable writing for San Francisco For Starr despite the city's beauty and commercial importance San Francisco's most important achievement was the sense of well being it conferred on its citizens It was a city that magically belonged to everyone Whether discussing photographers like Edward Weston and Ansel Adams hard boiled fiction writers or the new breed of female star Marlene Dietrich Jean Harlow Bette Davis Carole Lombard and the improbable Mae West *The Dream Endures* is a brilliant social and cultural history in many ways the most far reaching and important of Starr's California books

Reading California Stephanie Barron, Sheri Bernstein, Ilene Susan Fort, 2000 This collection of essays written by a stellar cast of art historians and scholars looks closely at the forces that shaped fine art and material culture in California Illustrations *Edward Weston--photographs* Amy Conger, University of Arizona. Center for Creative Photography, 1992

The Grove Encyclopedia of American Art Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **A Journey into Steinbeck's California** Susan Shillinglaw, 2011-09-15 This part art book part biography and part travel guide offers insight into how landscapes and townscapes influenced John Steinbeck's creative process and how in turn his legacy has influenced modern California Various types of readers will appreciate the information in this guide literary pilgrims will learn more about the state featured so prominently in Steinbeck's work tourists can visit the same buildings that he lived in and wrote about and historians will appreciate the engrossing perspective on daily life in early and mid 20th century California Offering an entirely new perspective on Steinbeck and the people and places that he brought to life in his writing this edition includes a wonderful variety of photographs sketches and paintings including some from private rarely seen collections With a new preface from the author updated details on featured websites a new discussion on Steinbeck's ecological interests and activities and an extended exploration of his many travels to Mexico readers will find delight in this depiction of the symbiotic relationship between an author and his favorite places *Land of Sunshine* William Deverell, Greg Hise, 2011-12-12 Most people equate Los Angeles with smog sprawl forty suburbs in search of a city the great what not to do of twentieth century city building But there's much more to LA's story than this shallow stereotype History shows that Los Angeles was intensely ubiquitously planned The consequences of that planning the environmental history of urbanism is one place to turn for the more complex lessons LA has to offer Working forward from ancient times and ancient ecologies to the very recent past *Land of Sunshine* is a fascinating exploration of the environmental history of greater Los Angeles Rather than rehearsing a litany of errors or insults against nature rather than decrying the lost opportunities of roads not taken these essays by nineteen

leading geologists ecologists and historians instead consider the changing dynamics both of the city and of nature In the nineteenth century for example density was considered an evil and reformers struggled mightily to move the working poor out to areas where better sanitation and flowers and parks made life seem worth the living We now call that vision sprawl and we struggle just as much to bring middle class people back into the core of American cities There s nothing natural or inevitable about such turns of events It s only by paying very close attention to the ways metropolitan nature has been constructed and construed that meaningful lessons can be drawn History matters So here are the plants and animals of the Los Angeles basin its rivers and watersheds Here are the landscapes of fact and fantasy the historical actors events and circumstances that have proved transformative over and over again The result is a nuanced and rich portrait of Los Angeles that will serve planners communities and environmentalists as they look to the past for clues if not blueprints for enhancing the quality and viability of cities

Politics Unseen Ellen Macfarlane,2025-01-07 In *Politics Unseen* Ellen Macfarlane radically reframes the pure photographs of California art photography society Group f 64 known for depicting Western landscapes fruits and vegetables flowers and faces By foregrounding f 64 members and their prints alliances across commercial political and artistic domains the book shatters entrenched understandings of the group as disinterested in contemporary events and unseats conceptions of its prints as icons of modernist purity Instead *Politics Unseen* argues the politics of f 64 s photographs become visible when interwar ideas about purity in the areas of eugenics racial essence nutrition colonialism and horticulture are interrogated Ultimately *Politics Unseen* alters perceptions not only of f 64 but also of what constituted a political image in 1930s America

Landscape in Photographs Karen Hellman,Brett Abbott,2012 Like painters and draftsmen before them photographers turned to the landscape as a source of inspiration after the invention of the medium in 1839 This title provides a look at the evolution of the landscape as photographic subject Let's Go California 10th Edition Let's Go Inc.,2004-12-13 Completely revised and updated Let s Go California is your insider s guide to the Golden State Let s Go s forty five years of travel savvy deliver the practical facts you ll need from navigating L A s freeways to finding the hottest nightlife Expanded coverage of national parks beaches hiking and skiing get you out of the city while listings in the alternatives to tourism chapter show you how to make a difference or become a movie star Whether you d rather trek Yosemite s backcountry trails or sample California cuisine in Berkeley s gourmet ghetto Let s Go can lead the way **Art in California** Jenni Sorkin,2021-09-16 An introduction to the rich and diverse art of California this book highlights its distinctive role in the history of American art from early 20th century photography to Chicana mural painting the Fiber Art Movement and beyond Shaped by a compelling network of geopolitical influences including waves of migration and exchange from the Pacific Rim and Mexico the influx of African Americans immediately after World War II and global immigration after quotas were lifted in the 1960s California is a centre of artistic activity whose influence extends far beyond its physical boundaries Furthermore California was at the forefront of radical developments in artistic culture most notably conceptual art and feminism and its education system continues to nurture and encourage avant garde creativity Organized chronologically and thematically with illustrations throughout this attractive study stands as an important reassessment of Californias contribution to modern and contemporary art in the United States and globally A Staggering Revolution John Raeburn,2010-10-01 During the 1930s the world of photography was unsettled exciting and boisterous John Raeburn s A Staggering Revolution recreates the energy of the era by surveying photography s rich variety of innovation exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed public s imagination

While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration FSA no previous book has considered it alongside so many of the decade's other important photographic projects. A Staggering Revolution includes individual chapters on Edward Steichen's celebrity portraiture, Berenice Abbott's Changing New York project, the Photo League's ethnography of Harlem, and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer. It also examines Margaret Bourke White's industrial and documentary pictures, the collective undertakings by California's Group f 64, and the fashion magazine specialists, as well as the activities of the FSA and the Photo League. *Photo-era Magazine*, 1921 *Photo-era Magazine* Juan C. Abel, Thomas Harrison Cummings, Wilfred A. French, A. H. Beardsley, 1915
