Competing for Capital Kenneth P. Thomas, 2000-10-19 As corporations search for new production sites governments compete furiously using location subsidies and tax incentives to lure them Yet underwriting big business can have its costs reduction in economic efficiency shifting of tax burdens worsening of economic inequalities or environmental degradation *Competing for Capital* is one of the first books to analyze competition for investment in order to suggest ways of controlling the effects of capital mobility Comparing the European Union's strict regulation of state aid to business with the virtually unregulated investment competition in the United States and Canada Kenneth P Thomas documents Europe's relative success in controlling and decreasing subsidies to business even while they rise in the United States Thomas provides an extensive history of the powers granted to the EU's governing European Commission for controlling subsidies and draws on data to show that those efforts are paying off In reviewing trends in North America he offers the first comprehensive estimate of U S subsidies to business at all levels to show that the United States is a much higher subsidizer than it portrays itself as being Thomas then suggests what we might learn from the European experience to control the effects of capital mobility not only within or between states but also globally within NAFTA and the World Trade Organization as well He concludes with policy recommendations to help promote international cooperation and cross fertilization of ways to control competition for investment

Weaponizing EU State Aid Law to Impact the Future of EU Investment Policy in the Global Context Pamela Finckenberg-Broman, 2022-09-28 This book provides a comprehensive analysis of how EU state aid law is shaping the future of EU investment policy in a global context It examines in detail how EU state aid policy and practice interact with the EU investment regime on the internal market and affect the external trade relations of the Member States and the EU alike The debate this book engages in concerns competence i e which body delineates the scope of state aid law and policy now and in the future when and where it intersects and collides with another distinct legal field investment protection Pursuing a doctrinal approach to the topic in the light of EU law and international law the book analyses the interaction of the EU's trade state aid and investment policy This is done by posing the following research question How is EU state aid law shaping the future of EU investment policy in a global context Further the book puts forward three corresponding arguments First this influence can be seen in the EU's incorporation of clauses promoting fair competition and state aid policy in international trade agreements Second EU state aid law and policy contributed to recent internal developments which led the Member States to terminate their bilateral agreements with each other intra EU

BITs by the end of 2019 Third the EU has been working to replace the BITs between its Member States and third countries extra EU BITs with its own trade agreements which are aligned with EU legislation This combined analysis of EU law and international law yields a number of interesting conclusions The book addresses a highly topical and rapidly evolving area of EU law and international investment law It is also the first book to provide a comprehensive approach to the interplay of state aid rules and EU investment policy internally and externally i e within the EU and on a global scale As such it closes an important gap in the extant literature on international and EU law

The European Automobile Industry William A. Maloney, Andrew McLaughlin, 2005-07-08 This book presents an analysis of some of the changes that have transformed the automobile industry in the last thirty years illustrating some of the most significant consequences of globalization Focusing on the response of Europe s policy makers it analyzes government industry relations at both national and transnational levels demonstrating how national policy instruments have been eroded by regional political and economic integration There has been a significant and irreversible shift in the locus of decision making power from nation states to the regional level in the automobile sect

Vehicle of Influence Roland Francis Stephen, 2009-12-21 This study examines a crucial period in European integration ending in the early 1990s when significant progress was made towards the dream of a unified European market It shows how European automakers were part of these changes and how their influence within the institutions of the European Union EU yielded a wide range of policy compromises governing a single European car market The book begins by reviewing the history of the EU and the logic of regional free trade and goes on to develop a political explanation for the kinds of changes that actually occurred The author argues that European automakers enjoyed a privileged place in the political arena albeit one much transformed by the new institutions of the EU Therefore these firms often significantly influenced regional policy outcomes The argument is applied to policymaking in the important areas of environmental regulation trade subsidies and anti trust regulation This work lies at the intersection of business economics and political science and is of interest to both experts and non specialists with an interest in the tremendous economic and political changes brought about by the creation of a united Europe and more generally by the worldwide process of regional economic integration Academics professionals businessmen and leaders in government all have something to learn from the way in which firms and governments combined to build the largest car market in the world Roland Stephen is Assistant Professor in the Department of Political Science North Carolina State University

The Concept of State Aid Under EU Law Juan Jorge Piernas López, 2015-08-06 How has the evolution and transformation of the Common Market affected the legal concept of State aid How has State aid adapted to the development of the European Union These questions and more are answered in Juan Jorge Piernas López s examination of the historical political constitutional and economical events that have affected the development of State aid in the EU Examining three key interwoven arguments this book provides a richer understanding of current formulas which depict the concept of aid through the prism of policy and enforcement

considerations First the book demonstrates that the concept of aid is a living instrument that has been applied in accordance with the main policy priorities of the European Commission Second contrary to what has been affirmed in other literature the evolution of this concept has been influenced by the broader advancement of the case law of the Court of Justice in different periods of the integration process Third the author contends that the study of the evolution of the concept of aid in light of policy and case law provides a holistic outlook valuable to the decision making process of difficult cases In this regard the book provides criteria to interpret and discuss cases including *Slooman Neptun Philip Morris and Azores* beyond the analysis traditionally adopted in this field

The EC State Aid Regime Michael Sánchez Rydelski, 2006 The EC State Aid Regime will enable readers without any knowledge in the area an easy access to the notion of state aid the key concepts of the state aid procedure and the legal remedies At the same time it provides state aid experts with specific and in depth analysis of subjects such as infrastructure funding the market investor test rescue and restructuring aid state aid and risk capital regional aid aid for environmental protection state aid and emission trading state aid to the aviation and shipbuilding sectors state aid in the fields of agriculture and fisheries state aid to culture and sports and the international dimension of state aid The important area of state aid to services of general economic interest receives special attention in a separate chapter The growing importance of economic analysis in the area of state aid and the ongoing discussion of the state aid reform have also been addressed in two separate chapters in the book The team of contributors is composed of practitioners scientists economists and civil servants of different administrative bodies and the European Commission The EC State Aid Regime will be a great resource for legal practitioners national judges civil servants academic and students who want to acquire or enhance their knowledge in this expanding field of law

Droit Des Aides D'etat Dans la CE Francisco Santaolalla Gadea, 2008-01-01 A uniquely important contribution to the debate on EC State aid this book captures the direct knowledge and experience of twenty six current and former Commission State aid litigators offering detailed insider analysis of EC State aid court cases as well as related internal legal issues between 1994 and 2008 The book brings together both legal and economic analysis with detailed reflections on aspects of both substantive legal rules and procedural law It also offers over and above the specific interest of the contributions it contains invaluable insights into the working methods of the Commission Legal Service This collaborative work was conceived and realized by its authors as a mark of recognition and a gesture of respect and friendship for Francisco Santaolalla on the occasion of his retirement from the Commission after fourteen years service as Director of the State aid team Among the many legal and economic forces affecting State aid litigation the authors focus on such factors as the following A exports A private investment A role of economic analysis A ecotaxes A privatization A remedies A existing aid A third parties A actions against State aid decisions A national court decisions A fiscal discipline and A WTO subsidies law In illuminating the underlying issues and describing how they are handled by the Commission Legal Service the authors shed light on the likely future development of State aid law The book

will be of particular interest to antitrust practitioners as well as academics

Bargaining with Multinationals H. Loewendahl, 2001-07-19 In *Bargaining with Multinationals* Loewendahl scrutinises the relationship between multinational companies regional development and governments using an international political economy framework of bargaining between government and multinationals He critically analyses the role of foreign investment in economic development and examines how governments can link inward investment to regional economic development Based on extensive use of data interviews and case studies of Siemens and Nissan s UK investment the book shows why MNCs have invested in the UK in the past how they bargained with the government and what the impact was on the national and regional economies In particular through linking the strategy of multinationals to the location advantages of the UK it is argued that labour flexibility and incentives were crucial to investment decisions Loewendahl recommends a framework to integrate endogenous and exogenous approaches to developments and proposes a greater role for the region and the EU to control incentives and monitor multinationals

State Aid and the European Economic Constitution Francesco de Cecco, 2012-12-14 Recent years have seen the rise of EU State aid law as a crucial component of the European economic constitution To date however the literature has neglected the contribution of this area of EU law to the internal market This book seeks to fill this gap in our understanding of the economic constitution by exploring the significance of State aid law in addressing questions that go to the core of the internal market project It does so by examining the case law relating to three different activities that Member States engage in market participation market regulation and funding for Services of General Economic Interest Each of these areas offers insights into fundamental questions surrounding the economic constitution such as the separation between the State and the market the scope for Member States to engage in regulatory competition and the tension between market and nonmarket concerns

Industrial Subsidies and Friction in World Trade Rambod Behboodi, 1994-10-06 National industrial subsidies are a major irritant in international trading relations There have been many attempts to curb the damaging effects of subsidies on the international trading order most have met with stiff opposition and mixed success Today the combination of industrial subsidies and the countervailing duties intended to combat them p

The Modernisation of State Aid for Economic and Social Development Bruno Nascimbene, Alessia Di Pascale, 2018-11-28 This book analyses the recent modernisation of EU State aid law from various perspectives and considers both substantive and procedural aspects It also discusses the reasons for and the goals and future implications of the modernisation programme including the evolution of the concept of State aid The ambitious reform programme was launched in 2012 and has now been almost fully implemented by virtue of the adoption of new rules of procedure in July 2013 and exemption in June 2014 The book highlights the main aspects of this sector reform which include the Commission s change of attitude towards so called positive aid i e those able to promote economic growth and the intention to focus on matters of greater systematic extent These objectives also imply a third aspect increasing the intensity of the control powers conferred on the Commission with

regard to that aid that prove to be harmful to competition and the internal market The book also examines the greater responsibility given to States for self assessment of their economic policy measures and explores the resulting impact on and challenges posed to the administrations of the Member States The book s second part is devoted to the application State aid rules in the area of services of general economic interest with a special focus on aid in the field of social health and infrastructure

Sixty Years of EU State Aid Law and Policy Eugene Stuart,Iana Roginska-Green,2016-04-24 If an EU industrial policy can be said to exist its contours may be found in the complex and evolving concept of State aid Because approaching any State aid issue can be fraught with multiple and sometimes conflicting interpretations an in depth analysis of the rationales initiatives and regulations that constitute the State aid system is much needed In response to this need this book provides a fine grained clarifying context through which recent reforms policy shifts and judicial decisions concerning State aid can be understood and applied to specific situations Focusing on the impacts of landmark cases and policy developments leading up to a deeply informed critique of the current State Aid Modernisation Programme the authors cover such issues and topics as the following linkages to other established and evolving EU common policies and common strategies effect of EU State aid rules in the expanding geopolitical regions of EU influence interaction with the WTO Subsidies and Countervailing Measures Agreement the problem of a subsidies culture how the European Commission s notion of bad State aid has evolved effect of EU policy imperatives e g environmental goals which implicitly argue for increased subsidisation nexus with EU tax harmonisation competition among undertakings versus competition among Member State policies and nature of the quasi devolution of regulatory responsibilities to EU Member States This book is a crucially important source of both theoretical enlightenment and practical wisdom that will greatly enhance confident progress through any legal matter involving EU State aid rules It will prove of immeasurable value to practitioners in house counsel policymakers and academics for many years to come
