**LIGHTNING PROMOTION** We can all recall situations where we have utterly failed to listen to what someone else is saying For various reasons we are simply not taking in anything useful How many times have you been introduced to a person by name only to not know what their name is thirty seconds later The reason this happens is because you have failed to actively listen By italicizing the word actively it might suggest that actively listening is different to plain old listening In truth there are only two states when we are communicating with another person actively listening and not really listening Active listening is the art of listening for meaning For us to gain meaning from the words of another person we need to be listening carefully Meaning is not necessarily assured even when we are actively listening but we will at least know that we don t understand and can therefore ask the correct questions to gain enlightenment Active listening must become a habit because it is the foundation of effective communication Imagine a troop commander not really listening to his orders and attacking the wrong target A failure to actively listen can certainly have dire consequences Many people give the appearance of listening but fail to really hear what is being said to them They assume that listening is such a basic sense that it will happen automatically This is not the case Or it might be that they are so used to making all the outward gestures of listening that they are convinced it is really happening It is not difficult to pick up on tone of voice body language and facial expressions all of which indicate the gist of what is being said All it then takes is to hear a few key words and it becomes very easy to think you have understood everything you ve been told and to give the convincing impression that this is so by returning appropriate tone of voice body language and facial expressions      **TransforMissional Coaching** Steve Ogne,Tim Roehl,2008 A modern coaching guide for spiritual leaders that combines the Great Commandment and the Great Commission for an outreach approach that is known as transformissional      The Handbook of Listening Debra L.
