**James McGuire**

## **Effectiveness Of Treatment For Drug Abusers Under Criminal Justice Supervision:**

**The Effectiveness of Treatment for Drug Abusers Under Criminal Justice Supervision** Douglas S. Lipton,1995

This paper is an adaptation of the presentation Dr Lipton made on July 11 1995 at What to do about crime the annual conference on research and evaluation held in Washington D C T p verso **Substance Abuse Treatment for Adults in the Criminal Justice System** ,2005 This TIP provides counselors with clinical guidelines to assist with problems that routinely occur with clients in the criminal justice system who are dealing with substance abuse and dependency disorders It describes the unique needs of offenders It addresses the challenges counselors and criminal justice personnel are likely to face at every stage of the criminal justice continuum **Costs and Benefits of Preventing Crime** Brandon

Welsh,2018-03-08 What are the cost savings from preventing a typical burglary robbery assault or even a criminal career Who benefits from these savings How often do the benefits from preventing crime or criminal behavior exceed the resources spent on preventing or controlling crime Is it more cost effective to invest in early childhood programs or juvenile boot camps to reduce criminal offending These are some of the important questions that face policymakers in crime and justice today Answering them is no easy task Nevertheless it is important to provide answers in order to ensure that the dollars devoted to crime reduction are spent as efficiently as possible The principle aim of Costs and Benefits of Preventing Crime is to report on and assess the present state of knowledge on the monetary costs and benefits of crime prevention programs Remarkably this crucial topic has rarely been studied up to the present time This book examines key methodological issues reports on the most up to date research findings discusses international policy perspectives and presents an agenda for future research and policy development on the economic analysis of crime prevention Throughout it addresses the important question of how governments should be allocating scarce resources to make crime prevention policy and practice more effective and to produce the greatest economic benefits to society The book brings together research and perspectives from across North America Europe and Australia What Works (and Doesn't) in Reducing Recidivism Edward J. Latessa,Shelley L.

Johnson,Deborah Koetzle,2020-06-08 What Works and Doesn't in Reducing Recidivism offers criminologists and students an evidence based discussion of the latest trends in corrections Experts Latessa Johnson and Koetzle translate the research and findings about what works and doesn't work in reducing recidivism into understandable concepts and terms presenting them in a way that illustrates the value of research to practice Over the last several decades research has clearly shown that rehabilitation efforts can be effective in reducing recidivism among criminal offenders but it is clear that treatment is not a one size fits all approach Offenders vary by gender age crime type and or addictions to name but a few ways and these individual needs must be addressed by providers Finally issues such as leadership quality of staff and evaluation efforts affect the quality and delivery of treatment services While other texts have addressed issues regarding treatment in corrections this text is unique in that it not only discusses the research on what works but also addresses the implementation issues faced as

practitioners move from theory to practice as well as the importance of staff leadership and evaluation efforts This book synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders
