Egg Story:

Egg Story J. Marc Schmidt, 2004 Growing up Leaving home Falling in love Witnessing madness and murder Becoming a ninja This could be a story about any of us But it isn't It's a story about eggs P 4 of cover Apollodoriana Jordi Pàmias, 2017-09-25 A growing interest in myth over the last decades has brought to the fore the main mythographical manual that has come down to us from Antiquity Apollodorus Bibliotheca A number of recent editions shows this trend like the commented translations of Carri re Massonie 1991 and Scarpi Ciani 1996 the translations of Guidorizzi 1995 Brodersen 2004 Dr ger 2005 and Smith Trzaskoma 2007 or the critical text by Papathomopoulos 2010 The publication of the first two volumes 2010 and 2012 of Cuartero's massive critical and commented bilingual edition for the Fundaci Bernat Metge series seemed the occasion to address this text from innovative scholarly perspectives The origins of the present volume lay in a colloquium held at the Universitat Autònoma de Barcelona in 2013 Despite its crucial interest for the scientific study of ancient myth no conference devoted to this engaging text was held prior to that one And to this date no monographic volume on Apollodorus mythology exists either To cover a broader scope of analysis three further papers have been commissioned to other specialists This collection of essays is meant to be a homage to Francesc J Cuartero The Night House Danielle Dulsky, 2025-03-25 Fairy tales are more than mere bedtime stories they are living breathing repositories of ancient wisdom and magick In The Night House bestselling author and word witch Danielle Dulsky peels back the layers of these timeless narratives to reveal their potent role as guides for navigating today's world Historically kept and passed on by women fairy tales are distinguishable from other types of folk tales by their supernatural elements and because of this they were often dismissed as trivial fantasies for women and children Danielle illuminates how this marginalization kept these stories safe from the witch hunter's noose and allowed women to safely store and transmit their sacred age old wisdom for new generations to uncover and explore Her fresh and relevant commentary will support your kinship with the Earth ancestors and your own living myth The Night House shows how a single fairy tale is actually a treasure box of coded knowledge and magickal practice that has remained largely intact preserved under the floorboards of the Yaga's hut for us to find

MacKinnon,Oris Friesen,2023-11-10 China Reporting is an oral history showing how the China correspondent of the 1930s and 1940s constructed his or her news reality or the network of facts from which their stories were written How these men and women pooled information and decided upon the legitimacy of particular sources is explored The influences of competition language facility or lack thereof common personal backgrounds camaraderie and changes in American official China policy are also discussed with special attention paid to the prescriptive gatekeeping role of editors back home This is an approach which has often been applied to the domestic journalist China Reporting is a pioneering effort at using historical perspective to view the foreign correspondent in terms fo the total epistemological context in which he or she operates to produce the news that in turn provides the data base upon which the public and policy makers inevitably draw This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 Jews of Brooklyn Ilana Abramovitch,Seán Galvin,2002 Over 40 historians folklorists and ordinary Brooklyn Jews present a vivid living record of this astonishing cultural heritage 150 illustrations Map **Margaret Wise Brown's Experimental Art** Julia Pond,2024-09-25 In this study the engaging art created by children s author Margaret Wise Brown receives the critical attention it deserves as a lasting contribution to American children s literature Through analysis of her dozens of titles published during the height of western Modernism this scholarly text shares Brown s importance and impact from the perspective of Brown s work rather than biographically Moving beyond such popular titles as Goodnight Moon and The Runaway Bunny into deeper cuts reveals how Brown s oeuvre bridges multiple disciplines including writing visual art philosophy and music Her projects successfully experiment with artistic collaboration and synesthesia as a natural expression for a child readership while both contributing to and reflecting high Modernism amidst the two World Wars The quality of Brown s writing and the maturity of her themes reveal respect for her child audience and recommend her work to the generations of readers who followed her early death As this book demonstrates Margaret Wise Brown remains one of the truly great authors of children s literature **Sustained** Dr. Peter Nieman,2023-10-18 Losing a teenager to suicide is about a life as a parent adjusting to one of the biggest mental emotional and spiritual challenges anyone may ever have to face Anyone who faces a loss and a major life pivot knows how hard this may be This book takes a closer look at how we are sustained by others in a time of loss how there are times when we alone must learn new ways to remain strong in a time of suffering and finally how A Higher Power sustains us with

ineffable peace This book is about learning how to walk each other home as Spiritual teacher Ram Dass used to say It is about heart to heart resuscitation

The Birth of Japanese Historiography John R. Bentley, 2020-12-28 As the first book in English on the origins of Japanese historiography using both archaeological and textual data this book examines the connection between ancient Japan and the Korean kingdom of Paekche and how tutors from the kingdom of Paekche helped to lay the foundation for a literate culture in Japan Illustrating how tutors from the kingdom of Paekche taught Chinese writing to the Japanese court through the prism of this highly civilized culture the book goes on to argue that Paekche tutors guided the early Japanese court through writing recording family history and ultimately an early history of the ruling family As the Japanese began to create their own history they relied on Paekche histories as a model Triangulating textual data from Kojiki Nihon shoki and Sendai kuji hongji the author here demonstrates that various aspects of early king genealogies and later events were manipulated Offering new theories about the Japanese ruling family it is posited that Emperor Jit had her committee put Jing in power and Suiko on the throne in place of original male rulers to enhance images of strong female rulers as she envisioned herself *The Birth of Japanese Historiography* will be a valuable resource for students and scholars of Japanese history historiography and linguistics

God and Necessity Brian Leftow, 2012-09-06 Brian Leftow offers a theory of the possible and the necessary in which God plays the chief role and a new sort of argument for God's existence It has become usual to say that a proposition is possible just in case it is true in some possible world roughly some complete history a universe might have and necessary just if it is true in all Thus much discussion of possibility and necessity since the 1960s has focussed on the nature and existence or not of possible worlds *God and Necessity* holds that there are no such things nor any sort of abstract entity It assigns the metaphysical work such items usually do to God and events in God's mind and reduces broadly logical modalities to causal modalities replacing possible worlds in the semantics of modal logic with God and His mental events Leftow argues that theists are committed to theist modal theories and that the merits of a theist modal theory provide an argument for God's existence Historically almost all theist modal theories base all necessary truth on God's nature Leftow disagrees he argues that necessary truths about possible creatures and kinds of creatures are due ultimately to God's unconstrained imagination and choice On his theory it is in no sense part of the nature of God that normal zebras have stripes if that is a necessary truth Stripy zebras are simply things God thought up and they have the nature they do simply because that is how God thought of them Thus Leftow's essay in metaphysics takes a half step toward Descartes view of modal truth and presents a compelling theist theory of necessity and possibility
