Eglise contre bourgeoisie Emile Poulat,1977 *Maurice Blondel, Social Catholicism, and Action Française* Peter J. Bernardi,2009 This work casts light on contemporary arguments over social Catholicism and the believer s role in society by illuminating a similar dispute among French Catholics during the Modernist Crisis 1909 1914 **The Catholic Church and the French Nation 1589-1989** Norman Ravitch,2025-05-01 Paris is worth a mass was the realistic response of Protestant Henry IV who changed his faith to secure the throne of France to the central importance of the French Catholic Church Principle and pragmatism have since been in alteration the two prime constituents of French Catholicism In his book *The Catholic Church and the French Nation 1589 1989* originally published in 1990 Norman Ravitch interprets the interaction of the Roman Catholic Church with the national life of France over a period of 400 years This process Ravitch argues has left French Catholicism redundant more an historical monument than a living institution This book will be of interest to students and researchers of French history *The Resurgence of the Radical Right in France* Gabriel Goodliffe,2012-02-13 Recounts the resurgence of significant political movements of the Radical Right in France since the end of the nineteenth century

A Social History of French Catholicism 1789-1914 Ralph Gibson,2025-06-02 First published in 1989 A Social History of French Catholicism 1789 1914 is a clear survey of over a hundred years of Catholicism in French society It chronicles the religious experience of French men and women both clergy and laity in post revolutionary France The book begins with a look at Catholic life in the Old Regime and during the French Revolution and proceeds to topical chapters on the secular clergy the religious orders popular religion religious practice by region gender and age and the social classes The final chapter deals with the re Christianization of France in the latter part of the nineteenth century This volume will be of interest to students and researchers of history and religion **The Rise of Christian Democracy in Europe** Stathis N. Kalyvas,2018-09-05 Although dominant in West European politics for more than a century Christian Democratic parties

remain largely unexplored and little understood An investigation of how political identities and parties form this book considers the origins of Christian Democratic confessional parties within the political context of Western Europe Examining five countries where a successful confessional party emerged Belgium the Netherlands Austria Germany and Italy and one where it did not France Stathis N Kalyvas addresses perplexing questions raised by the Christian Democratic phenomenon How can we reconcile the religious roots of these parties with their tremendous success and resilience in secular and democratic Western Europe Why have these parties discarded their initial principles and objectives to become secular forces governing secular societies The author s answers reveal the way in which social and political actors make decisions based on self interest under conditions that constrain their choices and the information they rely on often with unintended but irrevocable consequences Kalyvas also lays a foundation for a theory of the Christian Democratic phenomenon which would specify the conditions under which confessional parties succeed and would determine the impact of such parties and the way they are formed on politics and society Drawing from political science sociology and history his analysis goes beyond Christian Democracy to address issues related to the methodology of political science the theory of party formation the political development of Europe the relationship between religion and politics the construction of collective political identities and the role of agency and contingency in politics A Realist's Church Christopher Denny, Patrick

Hayes, Nicholas Rademacher, 2015-10-15 **Left Catholicism, 1943-1955** Gerd-Rainer Horn, Emmanuel Gerard, 2001 Decisively shaped by the turbulent atmosphere of war occupation and resistance the years 1943 1955 gave rise to a most unusual flowering of progressive initiatives in Catholic politics theology and apostolic missions Though suffering severe setbacks in the deep freeze of the Cold War politics mid Century European Left Catholicism was not without influence in the subsequent emergence of Latin American Liberation Theology and the deliberations of the Vatican II This volume constitutes the first attempt to analyse the phenomenon of Western European Left Catholicism from a comparative and transnational perspective *The Mystical Geography of Quebec* Susan J. Palmer, Martin Geoffroy, Paul L. Gareau, 2020-03-02 This study of new religious movements in Quebec focuses on nine groups including the notoriously violent Solar Temple the iconoclastic Temple of Priapus and the various Catholic schisms such as those led by a mystical pope the Holy Spirit incarnate or the reappearance of the Virgin Mary Eleven contributing authors offer rich ethnographies and sociological insights on new spiritual groups that highlight the quintessential features of Quebec s new religions sectes in the francophone media The editors argue that Quebec provides a favorable ecology for alternative spirituality and explore the influences behind this situation the rapid decline of the Catholic Church after Vatican II the Quiet Revolution a utopian faith in Science the 1975 Charter of Human Rights and Freedoms and an open immigration that welcomes diverse faiths The themes of Quebec nationalism found in prophetic writings that fuel apocalyptic ferment are explored by the editors who find in these sectarian communities echoes of Quebec s larger Sovereignty movement **For a Missionary Reform of the Church** Antonio

Spadaro, SJ, Carlos Maria Galli, 2017 Thirty essays presented at a symposium that deals with reform of the church and reforms in the church according to the vision of Pope Francis **Catholicism and Politics in Argentina, 1810-1960**

Austen Ivereigh, 2016-07-27 A rare study of Catholicism in Latin American politics prior to Vatican II this work examines the role of Catholics and Catholic theology in the development of Argentine political history The author challenges standard interpretations in arguing that Argentine authoritarianism derives principally from the Enlightenment offshoots of liberalism and popular nationalism The author argues that the tension between these strains and a broad humanistic cultural framework informed by the Catholic tradition helps to explain Argentine political instability while shedding new light on leaders and movements and especially Peronism Decolonizing Christianity Darcie Fontaine, 2016-06-20 This book traces

Christianity's change from European imperialism's moral foundation to a voice of political and social change during decolonization **Can the West Be Converted?** Jean-Georges Gantenbein, 2021-11-04 Rather than reconsidering contemporary culture in light of secularization much of the western church operates with a degree of nostalgia She has yet to fully embrace prospective innovative models for what form her task might take in some of Christianity's historic heartlands Amidst rapidly declining church membership contextualizing the Gospel for the contemporary West is an urgent task for churches and Christians living in this context This book seeks an interdisciplinary international and ecumenical response to this challenge uniting historical sociological theological and missiological perspectives Benefiting from recent studies in sociology of religion Dr Gantenbein offers several detailed contextual case studies before establishing correlations between western cultural religious characteristics and corresponding theological affirmations This study includes several unexpected dimensions including the development of a theological aesthetic in tension with the typically Word alone tradition of Protestantism a constructive reading of the book of Revelation as a source for contemporary aesthetic missiology reflections on a soteriology for the postmodern era and a proposal for an anonymous ecclesiology within a European context where churches are viewed with growing suspicion With rare perspicacity Gantenbein's study creatively calls churches to apply renewed intellectual rigor in faithfulness to their common purpose **Catholicism and Fascism in Europe 1918 - 1945**

Jan Nelis, Anne Morelli, Danny Praet, 2015-05-01 Die im vorliegenden Band versammelten Aufsätze analysieren die vielfältige Art und Weise wie der Vatikan die nationalen Kirchen und einzelne Katholiken mit dem Aufstieg der extremen Rechten in Europa während der 1920er 1930er und frühen 1940er Jahre umgingen vom Ende des Ersten Weltkriegs der mit Recht als einer der wichtigsten Katalysatoren des europäischen Faschismus in der Zwischenkriegszeit gilt bis zum Schluss und zu den unmittelbaren Nachwirkungen des Zweiten Weltkriegs Während einige Aufsätze sich auf theoretische methodologische Probleme konzentrieren beschreiben sich die meisten Beiträge mit jeweils einem Land oder einer Region wo eine faschistische Bewegung oder ein solches Regime zwischen den Kriegen und während des Zweiten Weltkriegs erfolgreich war und wo es gleichzeitig eine signifikante katholische Präsenz in der Gesellschaft gab Fast ganz Europa wird behandelt ein

beispielloses Unternehmen und eine große Zahl wichtiger Kontexte und Methoden wird untersucht. So wirken die Beiträge mit an der allgemeinen Entwicklung eines interpretativen Cluster Modells, das eine Reihe von Grundmustern der Forschung vereinigt und zukünftige Untersuchungen anregen wird. The papers presented in this volume analyse the many ways in which the Vatican, national Churches and individual Catholics dealt with the rise of the extreme right in Europe throughout the 1920s, 1930s and early 1940s, from the end of the First World War, arguably one of the main catalysts of European interwar fascism, to the conclusion and immediate aftermath of the Second World War. While a number of papers focus primarily on theoretical, methodological issues pertaining to the book's general theme, the majority of papers focus on either a country or region where a fascist movement or regime flourished between the wars and during the Second World War, and where there was a significant Catholic presence in society. The various chapters cover almost the entire European continent, an endeavour that is unprecedented, and they explore a wide range of relevant contexts and methodologies, thus further contributing to the general development of an interpretive cluster model that incorporates a series of investigative matrixes and that will hopefully inspire future research.

Belgium and the Holy See from Gregory XVI to Pius IX (1831-1859) Vincent Viaene, 2001. The Roman orientation was the keystone of the religious revolution of the Catholic revival. New or renewed congregations, priests close to the people, militant laymen gave a decidedly social activist turn to the faith. At this crossroad of religion and modernity, the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome. Over time, the Vatican would exert a powerful impact on the shape of modern politics in Belgium. The special relationship between Belgium and Rome was no one-way traffic. From a somewhat curious ecclesiastical court, hopelessly entangled in the old spider web of the Papal States, the papacy became the institution we know today, the leader of a modern Catholic opinion. Belgium played a role of major importance in this transformation. The central theme of the book can therefore be defined as a process of mutual integration, if not acculturation, across the Alps.

Catholic Social Thought Jonathan Boswell, Francis P. McHugh, Johan Verstraeten, 2000. These essays are an attempt to recover something of the form, style and force of Catholic non-official social thinking in the face of contemporary social thought and contemporary injustice in advanced societies. After an opening essay by the doyen of Catholic writers in this field, Jean Yves Calvez SJ, the book is divided into three sections. The first and largest group of essays discuss patterns and predicaments of Catholic social thought in general terms and from different points of view. The context here is partly the debate on modernity, high modernity and post modernity, partly the issue of how far and in what ways Catholic Social Thought can claim to be distinctive relative to contemporary secular thought. The second section of the book focusses on relationships between Catholic social thought and its restatement, and a number of contemporary debates on public issues. Particular attention is given in successive essays to issues of anti-poverty, human rights, economic theory and international finance. A third and shorter section describes a number of institutional projects which attempt to carry Catholic social values forward into concrete action, focussing on work

in health and welfare grass roots economic co operation anti poverty and international peace and justice Final contributions by the reputed international scholar in this field John Coleman SJ and the book editors respectively evaluate the collection as a whole and discuss further steps *Les chrétiens dans la mouvance altermondialiste* GRANNEC Christophe (sous la direction de),2011-05-25
