Harold Ellens, 2012-05-03 For centuries scholars have been developing ways of studying the bible through exegesis historical critique literary critique form criticism and narrative analysis During the last half century new theoretical approaches have come to the fore Psychological Hermeneutics takes as its starting point the text itself and its context the dynamics of the human document created the person's who authored the text the original audience for which it was intended the subsequent audiences to which it spoke and the factors that were at play behind in and in front of the text The contributions to this volume examine the growth of Psychological Hermeneutics as a discipline

within biblical studies The book is structured in two parts The first assesses the approach taken by Wayne G Rollins one of the pioneers of this field The second provides applications of Rollins approach The result is a book which presents a state of the art survey of the discipline and development of Psychological Hermeneutics over the last thirty years *Psychological Biblical Criticism* D. Gilbert,2020-04-21 The most incisive indictment against Christianity resides in the notion of a God who created a world in which there is untold suffering and death Is this the best God could do In response most Christians will mutter something about free will or the necessity of evil to bring about God s plan for humanity Theologians often reply by challenging the very legitimacy of the question God only requires that we persevere Biblical scholars who might otherwise be expected to offer a scriptural perspective nervously denounce any suggestion that the presence of evil may have had something to do with a primordial couple and a fruit tree Is it any wonder that most people believe that evil must surely be an intractable component of human existence introduced perhaps by the very God Jews and Christians worship This book is a response to the problem of evil that unconditionally affirms the goodness and power of God Based on a new assessment of the Genesis creation story one of the greatest texts ever to have emerged in human history the author contends that God never intended for humanity to experience suffering and death Canadian Books in Print ,2003
