Egypt The Praetorian State:

Egypt Amos Perlmutter, 1974-01-01 This book is a critical analysis of the contemporary and historical roots of a new type of political leadership in Egypt dating from the July 23 1952 revolution led by an idealistic Egyptian nationalist and pan Arabist named Gamal Abdul Nasser The Nasser regime is interpreted as essentially a praetorian political system in which the military has the potential to dominate the political structure with the army as a core group and as a ruling class In such a system political leadership is recruited mainly from the army This volume chronicles the evolution of praetorian regimes in general and then interprets Nasser s ascendancy to power from this perspective The 1956 takeover of the Suez Canal and Nasser s transformation of his 1967 military debacle into a national victory is analyzed as the climax of his career His inability to cement the uncomfortable federation with Syria and the imbroglio over his intervention in Yemen are seen as the beginning of his decline culminating in the disastrous Six Day War and his failure to prevent Hussein s annihilation of the Palestinians in Jordan Nasser s contribution to the new style of politics prevalent in the Arab and sub Saharan African worlds is evaluated Also included is an analysis of the machinations of coup preparing and coup making and comments on the neo Islamic corporate orientations of the post Nasser praetorians Perlmutter s work is unique in its combination of extensive scholarship knowledge of Egyptian politics and familiarity with and ability to use current social science concepts Egypt The Praetorian State is the first comprehensive analytic and interpretive study of the Nasserite phenomenon CONTENTS Military Praetorianism A New Type of Politics The Historical Context Egypt s Military A Progressive New Middle Class Political Power and Social Cohesion in Nasser s Egypt Experiments in Praetorianism Nasser s Regimes and Political Parties The Persistence of Nasserism The Military vs the ASU

State formation and the structure of politics in Mamluk Syro-Egypt, 648-741 A.H./1250-1340 C.E. Winslow Williams

Clifford,2013-02-19 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk Sultanate did not as was maintained for a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans

Continuity and change before and after the Arab uprisings Paola Rivetti,Rosita Di Peri,2017-10-02 The Arab uprisings of 2011 have sparked much scholarly discussion with regards to democratisation the resilience of authoritarian rule mobilisation patterns and the relationship between secularism and Islam all under the assumption that politics has changed for good in North Africa and the Middle East While acknowledging the post 2011 transformations taking place in the region this book brings to the forefront an understudied yet crucial aspect related to the uprisings namely the interplay between continuity and change Challenging simplified representations built around the positions that either all has changed or nothing has changed the in depth case studies in this volume demonstrate how elements both of continuity and rupture with the past are present in the post uprising landscapes of Morocco Tunisia and Egypt Public policy contentious politics the process of institution making and re making and the relations of power connecting national and international economies are at the core of the comparative investigations included in the book The volume makes an important contribution to the study of North African politics and to the study of political change and stability by contrasting the different trajectories of the uprisings and by offering theoretical reflections on their meaning consequences and scope This book was originally published as a special issue of the *British Journal of Middle Eastern Studies*

unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring

Ruling But Not Governing Steven A. Cook, 2007-05-01 *Ruling But Not Governing* highlights the critical role that the military plays in the stability of the Egyptian Algerian and until recently Turkish political systems This in depth study demonstrates that while the soldiers and materiel of Middle Eastern militaries form the obvious outer perimeter of regime protection it is actually the less apparent multilayered institutional legacies of military domination that play the decisive role in regime maintenance Steven A Cook uncovers the complex and nuanced character of the military's interest in maintaining a facade of democracy He explores how an authoritarian elite hijack seemingly democratic practices such as elections multiparty politics and a relatively freer press as part of a strategy to ensure the durability of authoritarian systems Using Turkey's recent reforms as a point of departure the study also explores ways external political actors can improve the likelihood of political change in Egypt and Algeria *Ruling But Not Governing* provides valuable insight into the political dynamics that perpetuate authoritarian regimes and offers novel ways to promote democratic change

Revolutionary Egypt Reem Abou-El-Fadl, 2015-06-05 In 2011 the world watched as Egyptians rose up against a dictator Observers marveled at this sudden rupture and honed in on the heroes of Tahrir Square *Revolutionary Egypt* analyzes this tumultuous period from multiple perspectives bringing together experts on the Middle East from disciplines as diverse as political economy comparative politics and social anthropology Drawing on primary research conducted in Egypt and across the world this book analyzes the foundations and future of Egypt's revolution Considering the revolution as a process it looks back over decades of popular resistance to state practices and predicts the waves still to come It also confidently places Egypt's revolutionary process in its regional and international contexts considering popular contestation of foreign policy trends as well as the reactions of external actors It draws connections between Egyptians' struggles against domestic despotism and their reactions to regional and international processes such as economic liberalization Euro American interventionism and

similar struggles further afield Revolutionary Egypt is an essential resource for scholars and students of social movements and revolution comparative politics and Middle East politics in particular Middle East foreign policy and international relations

Gramsci on Tahrir Brecht De Smet, 2016-01-20 Coming in the wake of intense political and academic debate on the nature and development of the Arab Uprisings Gramsci on Tahrir zeroes in on the complex dynamic of Egypt's revolution and counter revolution It shows how a Gramscian understanding of the revolutionary process provides a powerful instrument for charting the possibilities for an emancipatory project by the Egyptian subaltern classes Central to De Smet's argument is Gramsci's interpretation of Caesarism an occasion in which two evenly matched political opponents reach a potentially catastrophic stalemate such an interplay between these forces can only end in mutual destruction In applying this to the Egyptian revolution we see how the Egyptian state was bereft of strong hegemonies and the people were replete with capable counter hegemonies Through this analysis we can see how the current situation in Egypt demonstrates how both national histories and global power relations enable define and displace popular resistance and social transformation

Syria and Iran Anoushiravan Ehteshami, Raymond A. Hinnebusch, 2002-01-31 The experienced authors provide an innovative study of Iranian and Syrian foreign policy showing how the policies can be understood through the realist and rational actor frameworks

Socio-Political Order and Security in the Arab World Andreas Krieg, 2017-03-27 This book examines the connection between socio politics and security in the Arab World In an effort to understand the social and political developments that have been on going in the Arab World since the 1990s culminating in the Arab Spring Krieg moves beyond liberal deterministic assumptions most notably that the promotion of liberal values and democracy are the panacea for the structural problems of the region Instead this text advances the case that grievances related to individual security needs are at the heart of regional insecurity and instability Looking towards the future the author asserts that regimes can only be resilient if they are able to provide for individual security inclusively When regimes fail to cater for public security they might be replaced by alternative non state security providers

Faith- Based Diplomacy Trumping Realpolitik Douglas

Johnston,2008-06-02 For most of the twentieth century the most critical concerns of national security have been balance of power politics and the global arms race The religious conflicts of this era and the motives behind them however demand a radical break with this tradition If the United States is to prevail in its long term contest with extremist Islam it will need to re examine old assumptions expand the scope of its thinking to include religion and other irrational factors and be willing to depart from past practice This book looks at five intractable conflicts and explores the possibility of drawing on religion as a force for peace The world class authors writing in this volume suggest how the peacemaking tenets of five major world religions can be strategically applied in ongoing conflicts in which those religions are involved A Dialectical Pedagogy of Revolt Brecht De Smet,2015-01-27 In A Dialectical Pedagogy of Revolt Brecht De Smet offers an intellectual dialogue between the political theory of Italian Marxist Antonio Gramsci and the cultural psychology of Soviet thinker Lev Vygotsky within the framework of the Egyptian 25 January Revolution Their encounter affirms the enduring need for a coherent theory of the revolutionary subject in the era of global capitalism based on a political pedagogy of subaltern hegemony solidarity and reciprocal education Investigating the political and economic lineages and outcomes of the mass uprising of Tahrir Square De Smet discusses the emancipatory achievements and hegemonic failures of the Egyptian workers and civil democratic movements from the perspective of their inability to construct a genuine dialectical pedagogy Creating Military Power Risa Brooks,2007-04-09 Creating Military Power examines how societies cultures political structures and the global environment affect countries military organizations Unlike most analyses of countries military power which focus on material and basic resources such as the size of populations technological and industrial base and GNP this volume takes a more expansive view The study s overarching argument is that states global environments and the particularities of their cultures social structures and political institutions often affect how they organize and prepare for war and ultimately impact their effectiveness in battle The creation of military power is only partially dependent on states basic material and human assets Wealth technology and human capital certainly matter for a country s ability to create military power but equally important are the ways a state uses those resources and this often depends on the political and social environment in which military activity takes place *Constitutionalism in Islamic Countries: Between Upheaval and Continuity* Rainer Grote,Tilman Röder,2012-01-11 *Constitutionalism in Islamic Countries Between Upheaval and Continuity* examines the question of whether something similar to an Islamic constitutionalism has emerged out of the political and constitutional upheaval witnessed in many parts of North Africa the Middle East and Central and Southern Asia In order to identify its defining features and to assess the challenges that Islamic constitutionalism poses to established concepts of constitutionalism this book offers an integrated analysis of the complex frameworks in Islamic countries drawing on the methods and insights of comparative constitutional law Islamic law international law and legal history European and North American experiences are used as points of reference against which the peculiar challenges and the specific answers given to those challenges in the countries

surveyed can be assessed The book also examines ways in which the key concepts of constitutionalism including fundamental rights separation of powers democracy and rule of law may be adapted to an Islamic context thus providing valuable new insights on the prospects for a genuine renaissance of constitutionalism in the Islamic world in the wake of the Arab spring

Asymmetric Conflicts T. V. Paul, 1994-03-10 This book examines a question generally neglected in the study of international relations why does a militarily and economically less powerful state initiate conflict against a relatively strong state T V Paul analyses this phenomenon by focusing on the strategic and political considerations domestic and international which influence a weaker state to initiate war against a more powerful adversary The key argument of deterrence theory is that the military superiority of the status quo power coupled with a credible retaliatory threat will prevent attack by challengers The author challenges this assumption by examining six twentieth century asymmetric wars from the Japanese offensive against Russia in 1904 to the Argentine invasion of the Falkland Islands in 1982 The book's findings have wide implications for the study of war power deterrence coercive diplomacy strategy arms races and alliances

Global South to the Rescue Paul Amar, 2014-02-25 This book provides the first comprehensive analysis of an epochal shift in global order the fact that global south countries have taken up leadership roles in peacekeeping missions humanitarian interventions and transnational military industries Brazil has taken charge of the UN military mission in Haiti Nigeria has deployed peacekeeping troops throughout West Africa Indonesians have assumed crucial roles in UN Afghanistan operations Fijians South Africans and Chileans have become essential actors in global mercenary firms Venezuela and its Bolivarian allies have established a framework for revolutionary humanitarian interventions and Turkey India Kenya and Egypt are asserting themselves in bold new ways on the global stage In this context this collection sheds critical light on intersections between imperialism and humanitarianism between neoliberal globalization and rescue industry transnationalism and between patterns of geopolitical hegemony and trajectories of peacekeeping internationalism These case studies are grouped into three clusters I Globalizing Peacekeeper Identities II Assertive Regional Internationalisms and III Emergent Alternative Paradigms Together these articulate a new research agenda and offer significant contributions to fields of global studies transnational gender and race studies critical security studies and peace studies comparative politics police and military sociology Third World diplomatic history and international relations This book was published as a special issue of Globalizations
