**An Afrocentric Manifesto** Molefi Kete Asante, 2013-05-08 Molefi Kete Asante's Afrocentric philosophy has become one of the most persistent influences in the social sciences and humanities over the past three decades. It strives to create new forms of discourse about Africa and the African Diaspora, impact on education through expanding curricula to be more inclusive, change the language of social institutions to reflect a more holistic universe, and revitalize conversations in Africa, Europe, and America about an African renaissance based on commitment to fundamental ideas of agency, centeredness, and cultural location. In *An Afrocentric Manifesto*, Molefi Kete Asante examines and explores the cultural perspective closest to the existential reality of African people in order to present an innovative interpretation on the modern issues confronting contemporary society. Thus, this book engages the major critiques of Afrocentricity, defends the necessity for African people to view themselves as agents instead of as objects on the fringes of Europe, and proposes a more democratic framework for human relationships. *An Afrocentric Manifesto* completes Asante's quartet on Afrocentric theory. It is at the cutting edge of this new paradigm with implications for all disciplines and fields of study. It will be essential reading for urban studies, philosophy, African and African American Studies, social work, sociology, political science, and communication. **Developing Africa?** Lehasa Moloi, 2024-03-12 *Developing Africa: New Horizons with Afrocentricity* aims to contest the Eurocentric narrative of an African development discourse. This book deploys the theory of Afrocentricity as an intellectual standpoint from which African thinkers should interrogate and reconceptualize the discourse of development in Africa. Particularly, the book argues in favour of the Afrocentric re-interpretation of African history, African culture, and assertion of African agency as the core building wedge in the reconceptualization of the ideal African development trajectory. *Afrosophian Knowledge and Cheikh Anta Diop* François Ngoa Kodena, 2023-07-03 *Afrosophian Knowledge and Cheikh Anta Diop: Geo-Ethical and Political Implications* wrestles with the cultural, epistemological, ethical, and geopolitical conundrums of our contemporary world. The book offers fresh conceptual and dialogical frameworks that allow the reader to explore alternative perspectives on the axiological impasses of *philosophia*. A cultural slide from Greek to African terrain offers a novel semantic trove, namely *sofia* in the *Beti Mvett*. Therefore, *sofia* calls for *sofia*, the trope for subjective and social solarization. François Ngoa Kodena argues that *sofia* is a psychological, discursive, social, and civilizational sickle, constantly sharpened to weed barbarism in its alienating imperial, colonial, mental, linguistic, racist, and prejudicial overtones from private and public spheres. Kodena's methodology is direct and transdisciplinary; his overall ontological outlook is curative and conciliatory. After expounding an Afrosophian Antadiopian paradigm, the author undertakes an in-depth examination of Cheikh Anta Diop's epistemology to uncover its subtle underlying threads connecting *sofia* to the Kemetic cosmic law of becoming, called *kheper*. Contemporary humanity is thus faced with a crucial dilemma: civilization or barbarism. The former informs earthly existential struggles and epistemic Afrosophian practices. **An Intellectual Biography of Africa** Francis Kwarteng, 2022-07-13 Africa is the

birthplace of humanity and civilization And yet people generally don't want to accept the scientific impression of Africa as the birthplace of human civilization The skeptics include Africans themselves a direct result of the colonial educational systems still in place across Africa and even those Africans who acquire Western education particularly in the humanities have been trapped in the symptomatology of epistemic peonage These colonial educational systems have overstayed their welcome and should be dismantled This is where African agency comes in Agential autonomy deserves an authoritative voice in shaping the curricular direction of Africa Agential autonomy implicitly sanctions an Afrocentric approach to curriculum development pedagogy historiography literary theory indigenous language development and knowledge construction Science technology engineering mathematics information and communications technology STEM ICT and research and development R D both exercise foundational leverage in the scientific and cultural discourse of the kind of African Renaissance Cheikh Anta Diop envisaged Mr Francis Kwarteng has written a book that looks at some of the major distortions of African history and Africa's major contributions to human civilization In this context Mr Kwarteng joins a long list of thinkers who roundly reject the foundational Eurocentric epistemology of Africa in favor of an Afrocentric paradigm of Africa's material spiritual scientific and epistemic assertion Mr Kwarteng places S T E M and a revision of the humanities at the center of the African Renaissance and critiques Eurocentric fantasies about Africa and its Diaspora following the critical examples of Cheikh Anta Diop Ama Mazama Molefi Kete Asante Abdul Karim Bangura Theophile Obenga Maulana Karenga Mubabingo Bilolo Kwame Nkrumah Ivan Van Sertima W E B Du Bois and several others Readers of this book will be challenged to look at Africa through a critical lens Ama Mazama editor author of *Africa in the 21st Century Toward a New Future* There are countless books about the evolution of European intellectual thought but scarcely any that captures the pioneering contributions of Africans since the beginning of recorded knowledge in Kemet aka Ancient Egypt Well that long drought has ended with the publication of Kwarteng's *An Intellectual Biography of Africa A Philosophical Anatomy of Advancing Africa the Diopian Way* Prepare to be educated Milton Allimadi author of *Manufacturing Hate How Africa Was Demonized in the Media*

The African world has always had a wealth of indigenous knowledge systems but for the greater part of the scholarly history hegemonic Western epistemologies have denied the authenticity of African indigenous ways of knowing. The contributors consider the foundations of the discipline its key theories and methods of knowledge production and how it interacts with popular culture. The Afrikan Revolution in Ayiti Kimoni Yaw Ajani, 2023-12-18

Throughout the history of Western academia there have been scholars who have interpreted and examined various aspects of human history and made it a point to universalize their own interpretations of different people's histories and cultures. This type of scholarship tends to ignore the contributions and historical realities of other people. This case is especially true of the scholars who have interpreted the historiography around the Afrikan revolution in Ayiti otherwise known as The Haitian Revolution. Kimoni Yaw Ajani's *The Afrikan Revolution in Ayiti: Liberty or Death* is an Afrocentric re-examination and interpretation around the historiography of the Revolution in Ayiti and provides an in-depth study that highlights several significant Afrikan epistemological and cosmological aspects that led to freedom. These aspects include but are not limited to the persistence of Afrikan complementary forces in Ayiti: Vodou Vodun and Afrikan cosmology Afrikan combat traditions such as Tire Machet and the numerous Afrikan languages personalities and roles that emerged from the growing numbers of Afrikans brought to Ayiti as a result of the European slave trade. Ajani calls for building communities on the best of Afrikan epistemological foundations and reclaiming Afrikan history.
