**Egypt's Identities in Conflict** Girgis Na'iem, 2018-01-25 Egypt's lack of a common national identity is the basis for much of its internal conflict. Coptic Christians have been particularly affected. Once major contributors to Christian civilization their influence ended with the fifth century Council of Chalcedon and they endured persecution. With the seventh century Arabization of Egypt Copts were given dhimma or protected persons status. The 1919 Revolution granted them greater political participation but the 1952 Revolution ended liberal democracy and established a military regime that championed Arab identity. Secular Egyptians rebelled against the Mubarak regime in 2011 yet his successor was the Muslim Brotherhood's Mohamed Morsi, Egypt's first Islamist president. In yet another revolution over national identity secular factions ousted Morsi in 2013 while in the chaos that followed the Copts suffered the brunt of violence. **A Grand Delusion** Eberhard Kienle, 2001-04-12 The author argues in this text that the much vaunted reform and liberalisation of Egypt's economy has

been partial and selective far from beneficial to all Egyptians While the encouragement of the private sector has indeed benefited some it has failed to improve the standard of living of others in particular the lower middle classes and a large part of the landless rural population Most importantly economic reform and liberalisation have failed to produce a greater degree of political democracy notions of political accountability clean elections a genuinely free press the containment of police powers have turned out to be a great delusion which masks restrictions on political participation and civil liberties *Arabic Humanities, Islamic Thought* Joseph E. Herrold, 2020-03-18 Delta Democracy tells the story of how Egyptian NGOs and philanthropic foundations promoted democratic political reform in Egypt in the years since the Arab Spring Taking the reader inside the walls of Egypt s NGOs and foundations the book explains how everyday Egyptians understand the concept of democracy and reveals how civic organizations struggled through political and economic turmoil to promote it The book offers theoretical lessons about how NGOs promote political reform in autocracies and offers concrete policy recommendations for the reform of US democracy aid *State Law as Islamic Law in Modern Egypt* Clark Lombardi, 2006-01-01 This volume explores the decision by the government of Egypt in the 1970s to constitutionalize Islamic

shar'a and discusses its impact on Egypt's constitutional jurisprudence. The author, who is trained in Islamic intellectual history and comparative law, begins by examining the evolution of Sunni Islamic legal theory and describes competing theories of Islamic law that co-exist in modern Egypt. The book then explores how the Supreme Constitutional Court of Egypt has developed its own approach to interpreting shar'a, one that permits the Court to argue that shar'a principles are consistent with international human rights norms. The book concludes with a discussion of the public reception of the Court's theory. This book will be essential for anyone interested in the evolution of Islamic law, the development of constitutional thought in the Middle East, or the relationship between Islam and human rights.

Political Islam in a Time of Revolt Ferran Izquierdo Brichs, John Etherington, Laura Feliu, 2017-07-31. This book explores the increasing political and social prominence of Islamist groups across the Middle East in recent years. The aftermath of the 2011 uprisings saw some groups access or even control political institutions through success at the ballot box, while there has also been a marked resurgence of armed Islamist groups that have had profound effects at both the national and regional level. This volume helps us to understand the nature and development of organised political Islam over recent decades in several key Arab and Mediterranean countries: Mauritania, Morocco, Algeria, Tunisia, Libya, Egypt, Syria, Lebanon, the Palestinian Territories, and Turkey. The book identifies the central social and political Islamist actors, traces their ideological differences and similarities, and analyses power relations both within and between these organizations in the context of political instability and uncertainty. It will be of interest to students and scholars across a broad range of disciplines, including political science, sociology, and international relations.

*Building a House in Heaven* Mona Atia, 2013-11-01. Charity is an economic act. This premise underlies a societal transformation: the merging of religious and capitalist impulses that Mona Atia calls pious neoliberalism. Though the phenomenon spans religious lines, Atia makes the connection between Islam and capitalism to examine the surprising relations between charity and the economy, the state, and religion in the transition from the Mubarak era in Egypt. Mapping the landscape of charity and development in Egypt, *Building a House in Heaven* reveals the factors that changed the nature of Egyptian charitable practices: the state's intervention in social care and religion; an Islamic revival; intensified economic pressures on the poor; and the subsequent emergence of the private sector as a critical actor in development. She shows how, when individuals from Egypt's private sector felt it necessary to address poverty, they sought to make Islamic charities work as engines of development, a practice that changed the function of charity from distributing goods to empowering the poor. Drawing on interviews with key players, Atia explores the geography of Islamic charities through multiple neighborhoods, ideologies, sources of funding, projects, and wide social networks. Her work shifts between absorbing ethnographic stories of specific organizations and reflections on the patterns that appear across the sector. An enlightening look at the simultaneous neoliberalization of Islamic charity work and Islamization of neoliberal development, the book also offers an insightful analysis of the political and socioeconomic movements leading up to the uprisings that ended Mubarak's rule and that

amplified the importance of not only the Muslim Brotherhood but also the broader forces of Islamic piety and charity

Imagining the Perfect Society in Muslim Brotherhood Journals Kiki M. Santing, 2020-08-24 The investigation of the Egyptian Muslim Brotherhood during the presidencies of Anwar Sadat and the early years of Hosni Mubarak is based on the movement's main journals *al Da wa* and *Liw al Isl m* presenting its history during two relevant periods 1976 1981 1987 1988 These journals show that contrary to the focus in modern research e a sharia laws gender relations or ideas of democracy the Brotherhood is a much more broadly oriented social political opposition movement taking Islam as its guideline The movement's own versatile discourse discusses all aspects of daily and spiritual life An important adage of the Brotherhood is Islam as a *ni m k mil wa sh mil a* perfect and all encompassing system Faith should play a role in every aspect of daily life from cooking dinner and housekeeping to education holidays enemy images legislation and watching television Islam is everything and everything is Islam In its journals the Brotherhood provided its unique reflection of the spirit of the age The movement presented itself as a highly reactive group that responded to current events and positioned itself as a moral religious and political opposition to the Egyptian regime

Often invaded, conquered, and occupied by foreign armies, Egypt has never lost its identity. The Egyptians of today, although they have changed their language once and their religion twice, descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak, who served Alexander the Great and his heirs, who submitted to Augustus Caesar and raised much of the grain that fed the Roman Empire, who started Christian monasticism and the veneration of the Virgin Mary, and who advanced and sustained Muslim learning in what is now the world's oldest functioning university. It was and is one of the most important countries in the world. *Historical Dictionary of Egypt* Fifth Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Egypt. *Islam and International Relations* D. Abdelkader, N. Adiong, R. Mauriello, 2016-04-15 This edited volume conceives of International Relations (IR) not as a unilateral project but more as an intellectual platform. Its contributors explore Islamic contributions to this field, addressing the theories and practices of the Islamic civilization and of Muslim societies with regards to international affairs and to the discipline of IR. **Democratic Backsliding in Post-Mubarak Egypt** Arshad, 2024-09-24 Arshad examines the phenomenon of democratic backsliding in post-2011 Egypt. Capturing a critical juncture in Egyptian politics, this book explains the failure of Egypt's nascent democratic experiment and its relapse into authoritarianism. Egypt is the crucial playbook to understand the reversal of a country towards an authoritarian regime and what measures state and non-state actors should employ to prevent backsliding. The book is an essential model for understanding democratic backsliding through structural and agential factors. The former encompasses society, politics, economics, and the military, while the latter deals with the choices and attitudes of the leadership during the political transition. Providing crucial insights into what went wrong during the democratic transition process, this text acts as a guide to curbing the rise of authoritarian regimes in the face of the next potential revolution. The book is a valuable resource for scholars who are interested in democratisation, authoritarian regimes, military leadership, political protests, and political leadership. *A History of Social Justice and Political Power in the Middle East* Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century, the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East. The Circle of Justice depicts graphically how a government's justice toward the population generates political power, military strength, prosperity, and good.

administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the Circle s relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism
