**An Economic History of the Middle East and North Africa** Charles Issawi, 2013-10-16 The economic history of the Middle East and North Africa is quite extraordinary This is an axiomatic statement but the very nature of the economic changes that have stemmed directly from the effects of oil resources in these areas has tended to obscure longterm patterns of economic change and the fundamental transformation of Middle Eastern and North African economies and societies over the past two hundred years In this study Professor Issawi examines and explains the development of these economies since 1800 focusing particularly on the challenge posed by the use and subsequent decline of Western economic and political domination and the Middle Eastern response to it The book begins with an analysis of the effects of foreign intervention in the area the expansion of trade the development of transport networks the influx of foreign capital and resulting integration into international commercial and financial networks It goes on to examine the local response to these external forces migration within to and from the region population growth urbanization and changes in living standards shifts in agricultural production and land tenure and the development of an industrial sector Professor Issawi discusses the crucial effects of the growth of oil and oil related industries in a separate chapter and finally assesses the likely gains and losses in this long period for both the countries in the area and the Western powers He has drawn on long experience and an immense amount of material in surveying the period and provides a clear and penetrating survey of an extraordinarily complex area The Great Depression in Europe, 1929-1939 Patricia Clavin, 2000 The Great Depression in Europe 1929 1939 is a concise analytical study of the worst economic crisis of the modern world It is the only available study to focus exclusively on Europe where its impact was enormous unemployment was rampant as industrial production fell by 40 per cent primary prices dropped by 30 per cent and some of the most respected banks teetered on the brink of collapse The economic depression also had profound consequences for domestic politics and international relations It triggered mass support for fascist and communist parties and divided the world into competing economic blocs that helped to pave the road to war in 1939 Written with the non economist in mind the book focuses on four central questions What were the origins of the depression Why was it so severe How far and in what ways did the European economy recover And what were the implications of that recovery for political relations in and between nations The book examines recent research into the causes of the depression notably the role of the gold standard system It gives equal weight to the political and historical context of economic policy political attitudes institutional opinions strategic considerations the legacies and lessons of history to explain the magnitude of the crisis International cooperation offered the best chance for recovery Using a wide range of archival sources the book also contains a lively account of why this failed and its consequences for international relations in the 1930s Jacket *Zell's Popular Encyclopedia: I-Potc* Leo de Colange, 1883 British Journal of Entomology and Natural History, 1997 *The Country Gentleman*, 1901 Mark Lane Express, 1909 **Whitaker's Books in Print**, 1998 Flying Magazine, 2002-08

Psalidopoulos,2012 **The World in Depression, 1929-1939** Charles P. Kindleberger,Charles Poor Kindleberger,1973 The World in Depression is the best book on the subject and the subject in turn is the economically decisive decade of the century so far John Kenneth Galbraith **The Great Depression in Europe** James M. Laux,1974 Golden Fetters Barry J. Eichengreen,1992 This is a reassessment of the international monetary crises of the post World War I period that led to the Great Depression of the 1930s It analyzes the responses of the world's economic powers and explains how new monetary policies set the stage for the *A Vision of Europe* Conan Fischer,2017-01-26 It is commonly held that the inter war era marked little more than a ceasefire between two world wars with the improvement in German Allied relations forged at Locarno in 1925 cut short by the global economic turmoil that followed the 1929 Wall Street Crash A Vision of Europe challenges this received wisdom offering a fundamental re evaluation of inter war Franco German relations during the Great Depression and providing a fuller understanding of the historical origins of today's European Union It demonstrates that rather than lapsing into mutual recrimination and national egotism France and Germany engaged with the challenges of the

post 1929 slump by way of plans for a Franco German customs union and wider bilateral economic collaboration whether across the Rhine in the French Empire or elsewhere in Europe These plans were regarded as the initial steps on the road to a European Union that would reconcile Berlin's search for national rehabilitation with France's need for national security so providing a means of resolving the formidable legacies of the First World War and Versailles Peace Settlement Their efforts culminated in September 1931 in a formal agreement to establish a Franco German economic community which included the institutional means to transform ambition into reality Unlike comparable post 1949 diplomacy however these aspirations ended in failure but they nonetheless provided an invaluable if largely unacknowledged template for the process of West European recovery in the aftermath of the Third Reich This finely focused study of the exchanges between individual politicians and diplomats whether domestically or across the Rhine also examines the relationship between the official sphere the press and a range of cultural associations and initiatives It also explores the role of key economic associations and pressure groups whose energies were harnessed by Paris and Berlin in the cause of rapprochement These were complex processes where success or failure could rest on particular personal exchanges a badly timed election or unanticipated economic upsets that compromised diplomacy's best laid plans
