**Anna Seward and the End of the Eighteenth Century** Claudia T. Kairoff, 2011-11-22 Anna Seward and her career defy easy placement into the traditional periods of British literature Raised to emulate the great poets John Milton and Alexander Pope maturing in the Age of Sensibility and publishing during the early Romantic era Seward exemplifies the eighteenth century transition from classical to Romantic Claudia Thomas Kairoff s excellent critical study offers fresh readings of Anna Seward s most important writings and firmly establishes the poet as a pivotal figure among late century British writers Reading Seward s writing alongside recent scholarship on gendered conceptions of the poetic career patriotism provincial culture sensibility and the sonnet revival Kairoff carefully reconsiders Seward s poetry and critical prose Written as it was in the last decades of the eighteenth century Seward s work does not comfortably fit into the dominant models of Enlightenment era verse or the tropes that characterize Romantic poetry Rather than seeing this as an obstacle for understanding Seward s writing within a particular literary style Kairoff argues that this allows readers to see in Seward s works the eighteenth century roots of Romantic era poetry Arguably the most prominent woman poet of her lifetime Seward s writings disappeared from popular and scholarly view shortly after her death After nearly two hundred years of critical neglect Seward is attracting renewed attention and with this book Kairoff makes a strong and convincing case for including Anna Seward s remarkable literary achievements among the most important of the late eighteenth century Paula R Feldman editor of *British Women Poets of the Romantic Era* A Companion to Eighteenth-Century Britain H. T.

Dickinson,2008-04-15 This authoritative Companion introduces readers to the developments that lead to Britain becoming a great world power the leading European imperial state and at the same time the most economically and socially advanced politically liberal and religiously tolerant nation in Europe Covers political social cultural economic and religious history Written by an international team of experts Examines Britain s position from the perspective of other European nations

*British Women Poets of the Long Eighteenth Century* Paula R. Backscheider,Catherine E. Ingrassia,2009-10-30 This anthology gathers 368 poems by 80 British women poets of the long eighteenth century Few of these poems have been reprinted since originally published and all are crucial to understanding fully the literary history of women writers Paula R Backscheider and Catherine E Ingrassia demonstrate the enormous diversity of poetry produced during this time by organizing the poems in three broad and deliberately overlapping categories by genre establishing that women wrote in all of the forms that men did with equal mastery and creativity by theme offering a revisionary look at the range of topics these writers addressed including war ecology friendship religion and the stages of life and by the poems more specific focus on the women s experiences as writers Backscheider and Ingrassia have selected poems that represent the best work of skilled poets creating a wonderful mix of canonical and little known pieces They include the complete texts of longer poems that are abridged or omitted in other collections Their substantial part introductions textual notes bibliographical information and biographical sketches situate the poets and their writings within the cultural and political milieu in which they appeared To generate further scholarship on this subject this essential anthology puts primary texts in front of students scholars and general readers It fills the persistent need to document women s poetic expression during the long eighteenth century and to rewrite the literary history of the period a history from which women have largely been excluded George Keate, Esq.,

*Subject to Others (Routledge Revivals)* Moira Ferguson,2014-08-01 First published in 1992 Subject to Others considers the intersection between late seventeenth to early nineteenth century British female writers and the colonial debate surrounding slavery and abolition Beginning with an overview that sets the discussion in context Moira Ferguson then chronicles writings by Anglo Saxon women and one African Caribbean ex slave woman from between 1670 and 1834 on the abolition of the slave trade and the emancipation of slaves Through studying the writings of around thirty women in total Ferguson concludes that white British women as a result of their class position religious affiliation and evolving conceptions of sexual difference constructed a colonial discourse about Africans in general and slaves in particular Crucially the feminist propensity to align with anti slavery activism helped to secure the political self liberation of white British women A
