The Everyday Nation-State Justin Wolfe, 2007-01-01 After Nicaragua achieved independence from Spain in 1821 it suffered a series of conflicts culminating in the two year National War When that war ended in 1857 Nicaragua was in ruins The Everyday Nation State explores what followed the intersection of nation state formation and everyday life in nineteenth century Nicaragua Rather than focus on the invented traditions of anthems marches and memorials that convey and reproduce an established sense of national identity and belonging this work analyzes how such feelings emerged in the struggles of local communities over political authority identity and legitimacy Based on extensive research of court cases land registries census materials correspondence government publications and newspapers The Everyday Nation State connects the local with the national prizing the narratives of commoners while placing them in the larger regional and historical context and challenging the way we approach the study of the nation state Justin Wolfe's exploration of quotidian social life and politics in nineteenth century Nicaragua reveals how the diversities of economy ethnicity and geography engendered multiple experiences of nation In turn these experiences invigorated a new Nicaraguan citizenry as it fragmented local community power and autonomy in the face of a nascent modern state This local perspective also provides a

Purchasing Whiteness Ann Twinam, 2023-05-25 A magisterial tour de force that will be received as a significant contribution to the historiography of race in colonial Latin America Cecily Jones H Caribbean The colonization of Spanish America resulted in the mixing of Natives Europeans and Africans and the subsequent creation of a casta system that discriminated against them Members of mixed races could however free themselves from such burdensome restrictions through the purchase of a gracias al sacar a royal exemption that provided the privileges of Whiteness For more than a century the whitening gracias al sacar has fascinated historians Even while the documents remained elusive scholars continually mentioned the potential to acquire Whiteness as a provocative marker of the historic differences between Anglo and Latin American treatments of race *Purchasing Whiteness* explores the fascinating details of 40 cases of whitening petitions tracking thousands of pages of ensuing conversations as petitioners royal officials and local elites disputed not only whether the state should grant full whiteness to deserving individuals but whether selective prejudices against the castas should cease *Purchasing Whiteness* contextualizes the history of the gracias al sacar within the broader framework of three centuries of mixed race efforts to end discrimination It identifies those historic variables that structured the potential for mobility as Africans moved from slavery to freedom mixed with Natives and Whites and transformed later generations into vassals worthy of royal favor By examining this history of pardo and mulatto mobility the author provides striking insight into those uniquely characteristic and deeply embedded pathways through which the Hispanic world negotiated processes of inclusion and exclusion **Enlightened Reform in Southern Europe and its Atlantic Colonies, c. 1750-1830** Gabriel

Paquette, 2016-05-06 Efforts to ascertain the influence of enlightenment thought on state action especially government reform in the long eighteenth century have long provoked stimulating scholarly quarrels Generations of historians have grappled with the elusive intersections of enlightenment and absolutism of political ideas and government policy In order to complement expand and rejuvenate the debate which has so far concentrated largely on Northern Central and Eastern Europe this volume brings together historians of Southern Europe broadly defined and its ultramarine empires Each chapter has been explicitly commissioned to engage with a common set of historiographical issues in order to reappraise specific aspects of enlightened absolutism and enlightened reform as paradigms for the study of Southern Europe and its Atlantic empires In so doing it engages creatively with pressing issues in the current historical literature and suggests new directions for future research No single historian working alone could write a history that did justice to the complex issues involved in studying the connection between enlightenment ideas and policy making in Spanish America Brazil France Italy Portugal and Spain For this reason this well conceived balanced volume drawing on the expertise of a small carefully chosen cohort offers an exciting investigation of this historical debate **Institution Building and State Formation in Nineteenth-century**
