Economic Forces In French History:

Economic Forces in French History Tom Kemp,1971 **Economic Forces in French History** Tom Kemp,1971

Bibliography of European Economic and Social History Derek Howard Aldcroft,Richard Rodger,1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily

Economic Growth in Britain and France 1780-1914 (Routledge Revivals) Patrick O'Brien,Caglar Keyder,2012-11-12 First published in 1978 Professor O'Brien's *Economic Growth in Britain and France 1780 1914* is an original and pioneering exercise in comparative and quantitative economic history It finds a controversial place in the debate on the question of French retardation in the 19th century and as a brave and important contribution towards the understanding of economic growth in Western Europe The author attempts to comprehend and evaluate the economic performance of France through explicit comparisons with Britain while considering British economic history from a French perspective Challenging the orthodox view that France lagged behind Britain in economic terms the book argues that there were two paths of economic growth to the 20th century with France's path seen as a more humane and no less efficient transition to industrial society

The Routledge Companion to Modern European History since 1763 Chris Cook,John Stevenson,2004-11-10 The *Routledge Companion to Modern European History since 1763* is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004 Within the broad coverage of this outstanding volume particular attention is given to subjects such as the era of the Enlightened Despots the Revolutionary and Napoleonic era in France and the revolutions of 1848 nationalism and imperialism and the retreat from Empire the First World War the rise of the European dictators the coming of the Second World War the Holocaust and the post war development of Europe the Cold War the Soviet Union and its break up the protest and upheavals of the 1960s as well as social issues such as the rise of the welfare state and the changing place of women in society throughout the period With a fully comprehensive glossary a biographical section a thorough bibliography and informative maps this volume is the indispensable companion for all those who study modern European history

The Course of French History Pierre Goubert,2002-09-11 This stimulating one volume history traces the social and economic evolution of France as a nation from the founding of the monarchy in 987 to the present day Against a background of structural change Goubert etches a vivid account of key events and personalities His perspective is a popular one and his main interest is in how political events and famous people affect the nation as a whole The book incorporates the findings and perspectives of recent monographic

studies with clarity and precision but it is Goubert's own judgements direct forceful and iconoclastic which make this an invaluable text

The Cambridge Economic History of Europe Michael Moïssey Postan, H. J. Habakkuk, 1966 For contents and other editions see Title Catalog

Industrialization in Nineteenth Century Europe Tom Kemp, 2014-06-06 Written for the layman as well as the economic historian this famous and much used book not only presents a general synthesis of the pattern of European industrialisation it also provides material for a comparative study by illustrating in separate case studies the specific characteristics of development in Britain France Germany Russia and Italy

The Development of the Economies of Continental Europe 1850-1914 (Routledge Revivals) Alan Milward, S. Saul, 2012-08-06 This work first published in 1977 is a reissue of a trailblazing work the first textbook of economic history to deal comprehensively with the economic development of the whole continent in this period and to do so from a continental rather than a British perspective But it is more than merely a textbook it is an interpretative synthesis of the wide range of research on this subject in many countries As such it will be an indispensable guide for teachers and will extend and improve the scope of teaching by making available for the first time in English the results of continental research In addition it is a work of fundamental interest to economists in which theories and hypotheses of economic development are now examined in a much wider historical context In this way the book is an exploration of the objective validity of earlier theories and the starting point for further research into economic development and European history The work covers the continental development of the German and French economies after 1870 and then in that context analyses the development of the smaller western economies It then considers the relatively underdeveloped economies of eastern and southern Europe and includes the first attempt at a synthesis of economic development before 1914 in the Balkans It concludes with an analysis of the international economy and its relationship to the economic development of the continent

The Routledge Companion to European History Since 1763 Chris Cook, John Stevenson, 2005 The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference with a fully comprehensive glossary a biographical section a thorough bibliography and informative maps
