The Economics of the Industrial Revolution (Routledge Revivals) Joel Mokyr, 2018-07-18 In recent years scholars from a variety of disciplines have addressed many perplexing questions about the Industrial Revolution in all its aspects Understandably economics has become the focal point for these efforts as professional economists have sought to resolve some of the controversies surrounding this topic First published in 1985 this collection contains ten key essays written by leading economists on the subject of the Industrial Revolution Among the questions discussed are the causes for the pre eminence of Britain the roles of the inputs for growth capital labor technical progress the importance of demand factors the relation between agricultural progress and the Industrial Revolution and the standard of living debate The essays demonstrate that the application of fresh viewpoints to the literature has given us a considerable new body of data at our disposal making it possible to test commonly held hypotheses In addition this new data has enabled economists to apply a more rigorous logic to the thinking about the Industrial Revolution thus sharpening many issues heretofore blurred by slipshod methodology and internal inconsistencies

The Industrial Revolution Pat Hudson, 2014-08-29 This is an introduction to the Industrial Revolution which offers an integrated account of the economic and social aspects of change during the period Recent revisionist thinking has implied that fundamental change in economic social and political life at the time of the Industrial

Revolution was minimal or non-existent. The author challenges this interpretation arguing that the process of revision has gone too far emphasizing continuity at the expense of change and neglecting many historically unique features of the economy and society. Elements given short shrift in many current interpretations are reassigned their central roles. **The Industrial Revolution and British Society** Patrick O'Brien, Roland Quinault, 1993-01-29 This text is a wide-ranging survey of the principal economic and social aspects of the first Industrial Revolution. *English Historical Documents A.*

Aspinall, Anthony Smith, 2024-11-01 *English Historical Documents* is the most ambitious, impressive and comprehensive collection of documents on English history ever published. An authoritative work of primary evidence, each volume presents material with exemplary scholarly accuracy. Editorial comment is directed towards making sources intelligible rather than drawing conclusions from them. Full account has been taken of modern textual criticism. A general introduction to each volume portrays the character of the period under review and critical bibliographies have been added to assist further investigation. Documents collected include treaties, personal letters, statutes, military dispatches, diaries, declarations, newspaper articles, government and cabinet proceedings, orders, acts, sermons, pamphlets, agricultural instructions, charters, grants, guild regulations and voting records. Volumes are furnished with lavish extra apparatus including genealogical tables, lists of officials, chronologies, diagrams, graphs and maps. *English Historical Documents, 1783-1832* David Charles Douglas, Arthur Aspinall, E. Anthony Smith, 1996 *English Historical Documents* is the most comprehensive annotated collection of documents on British history ever compiled. Conceived during the Second World War with a view to ensuring the most important historical documents remained available and accessible in perpetuity, the first volume came out in 1953 and the most recent volume almost sixty years later. The print series edited by David C. Douglas is a magisterial survey of British history covering the years 500 to 1914 and including around 5,500 primary sources all selected by leading historians. Editors: It has over the years become an indispensable resource for generations of students, researchers and lecturers. EHD is now available in its entirety online. Bringing EHD into the digital age has been a long and complex process. To provide you with first-rate intelligent searchability, Routledge have teamed up with the Institute of Historical Research, one of the research institutes that make up the School of Advanced Study, University of London (<http://www.history.ac.uk>) to produce EHD Online. The IHR's team of experts have fully indexed the documents using an exhaustive historical thesaurus developed by the Royal Historical Society for its *Bibliography of British and Irish History*. The sources include treaties, statutes, declarations, government and cabinet proceedings, military dispatches, orders, acts, sermons, newspaper articles, pamphlets, personal and official letters, diaries and more. Each section of documents and many of the documents themselves are accompanied by editorial commentary. The sources cover a wide spectrum of topics from political and constitutional issues to social, economic, religious as well as cultural history. **The Routledge**
