International IDEA Handbook on Democracy Assessment Iain Kearton,Sarah Bracking,Stuart Weir,David
Beetham,2021-11-15 The International IDEA Handbook on Democracy Assessment is a robust and sensitive guide to
assessing the quality of democracy and human rights in any country around the world The Handbook introduces an easy to
use and universal methodology for assessing the condition of democracy in any country or its progress in democratisation
that has been developed in a three year action programme at IDEA the inter governmental Institute for Democracy and
Electoral Assistance in Sweden The Handbook provides a means to measure systematically the full range of values
institutions and issues relating to modern democracy that is sensitive to the underlying principles and democracy and the
differences between democracies themselves It is therefore both universal in application and capable of responding to
particular aspects of any one nation s democratic arrangements The animating principle of the Handbook is that only citizens
of a nation themselves are qualified to assess the quality of their own democratic arrangements Thus it provides a self help
guide which gives academics lawyers political practitioners journalists and interested citizens the tools to assess the state of
their democracy or any key aspects of their democracy The Handbook is above all a practical working document that draws
on the actual experience of assessing democracy in different countries comparative knowledge and research and democratic
principles and practice It gives a step by step guide to the purposes and methods of democracy assessment who to involve
how to use the research tools how to validate the findings what standards of practice to adopt and how to present and
publicise a finished assessment It contains extracts from completed assessments guidance on the use of qualitative and
quantitative data examples of codes of democratic practice and international and regional standards and a vast list of
accessible data sources The methodology was created by a team of political scientists assembled from all regions of the world
by International IDEA and has been tried and tested in a variety of countries including Bangladesh El Salvador Italy Kenya
Malawi New Zealand Peru South Korea and the United Kingdom International organisations like the World Bank and UNECA
are adapting it for in country use The four main authors and editors have been directly involved from the inception of the
project in developing and refining the methodology and participating in and advising on the nine country studies that form
the essential practical core of experience on which this invaluable Handbook is based **HURIDOCS Events Standard**
