international aspects of agriculture      Economics of Agricultural Production and Farm Management J. M. Dhaka, 2009-01-01  
The book entitled Economics of Agricultural Production and Farm Management deals with two important aspects of agriculture and applied economics i.e. agricultural production economics and farm management. The book is divided into 14 chapters. The first ten chapters deal with farm management and the other four chapters deal with agricultural production economics. In farm management, introduction, characteristics of farming as a business, principles of farm management, types and systems of farming, farm planning and budgeting, farm business analysis, cost concepts, farm layout, risk and uncertainty, and linear programming have been covered. In agricultural production economics, the meaning, definition, nature and scope, basic terms and concepts, relationships between factor, product, factor and product, product are covered with figures and data. It covers both fundamental and applied aspects. The book has been written in simple and easy language. It is intended to serve as a basis for a course in production economics and farm management and attempts at satisfying a need of under graduate students of agriculture and post graduate students of agricultural economics. It is hoped that the book will be worthwhile to teachers, students, researchers, professionals, farmers etc.      Farm Management Reji D. Nair, 2010
