A Standard History of Kansas and Kansans ,1919 **The Making of the Conservative Party's Immigration Policy** Rebecca Partos,2019-05-31 This book explains the development of the Conservative Party's immigration policy during the seven decades since 1945 up to today By bringing together existing theories from the fields of political science and migration studies this book offers a new model of party policy making which could be modified and tested in other contexts Grounded in rigorous scholarship but of interest to general readers as well as specialists and students this book provides a thoughtful and engaging account of the making of modern Britain The book draws on 30 interviews with figures who were at the heart of policy making from Kenneth Clarke and Douglas Hurd to Damian Green and Gavin Barwell to reveal that the national mood often has more impact on policy making than the empirics of the situation This book will be of key interest to scholars students and readers interested in British politics immigration and migration studies Conservative Party politics and more broadly public policy political parties and European and comparative politics *Closet Queens* Michael Bloch,2015-05-28 *Closet Queens* is a fascinating study of gay men in twentieth century British politics from Lord Rosebery and Lord Beauchamp in Edwardian times to Michael Portillo and Peter Mandelson in our own era As all homosexual activity was illegal until 1967 and exposure meant ruin and disgrace such men were obliged either to repress their sexual feelings or else lead double lives indulging their tastes secretly while respectably married with children The need to cover up their sexuality while causing problems and disappointments often sharpened their skills as politicians they were masters of secrecy and subterfuge and knew how to take calculated risks An entertaining and insightful account of some extraordinary personalities *Closet Queens* opens doors into a hidden world *The Conservative Party and the Destruction of Selective Education in Post-War Britain* Piers Legh,2023-01-26 The book tells the untold story of the Conservative Party's involvement in terms of stance and policy in the destruction of selective state education from 1945 up to the present day Close consideration is paid to their attitudes and prejudices towards education both in power and in opposition Legh examines the Party's responses to the pressure for comprehensive schooling and egalitarianism from the Labour Party and the British left In doing so Legh defies current historiography to demonstrate that the Party were not passive actors in the advancement of comprehensive schooling The lively narrative is moved along by the author's critical examination of the Education Ministers throughout this period Florence Horsbrugh and David Eccles serving under Churchill and Eden and also Quintin Hogg and Geoffrey Lloyd under Macmillan as well as Edward Boyle and Margaret Thatcher under Edward Heath Legh's detailed research utilises a range of government documents personal papers parliamentary debates and newspapers to provide this crucial re assessment of the Conservative Party and selective education and in doing so questions over simplistic

generalisations about wholesale support for selective education policy It reveals instead questioning compromises and disagreements within the Party and its political and ideological allies The result is a stimulating revival of existing scholarship which will be of interest to scholars of British education and politics
