Effective Executive:

The Effective Executive Peter Drucker, 2018-03-09 The measure of the executive Peter Drucker reminds us is the ability to get the right things done Usually this involves doing what other people have overlooked as well as avoiding what is unproductive He identifies five talents as essential to effectiveness and these can be learned in fact they must be learned just as scales must be mastered by every piano student regardless of his natural gifts Intelligence imagination and knowledge may all be wasted in an executive job without the acquired habits of mind that convert these into results One of the talents is the management of time Another is choosing what to contribute to the particular organization A third is knowing where and how to apply your strength to best effect Fourth is setting up the right priorities And all of them must be knitted together by effective decision making How these can be developed forms the main body of the book The author ranges widely through the annals of business and government to demonstrate the distinctive skill of the executive He turns familiar experience upside down to see it in new perspective The book is full of surprises with its fresh insights into old and seemingly trite situations

What Makes an Effective Executive Peter F. Drucker, 2017 An effective executive does not need to be a leader in the typical sense of the word Peter Drucker the author of more than two dozen Harvard Business Review articles wrote that some of the best business and nonprofit CEOs he worked with over his 65 year consulting career were not stereotypical leaders They ranged from extroverted to nearly reclusive from easygoing to controlling from generous to parsimonious What made them all effective is that they followed the same eight practices They asked What needs to be done and What is right for the enterprise They developed action plans They took responsibility for decisions and for communicating They were focused on opportunities rather than problems They ran productive meetings And they thought and said we rather than I The first two practices provided them with the knowledge they needed The next four helped them convert this knowledge into effective action for knowledge is useless to executives until it has been translated into deeds The last two ensured that the whole organization felt responsible and accountable Effective executives know that they have authority only because they have the trust of the organization This means they must think of the needs and opportunities of the organization before they think of their own Drucker also suggests a ninth practice that's so important he elevates it to the level of a rule Listen first speak last Effectiveness is a discipline And like every discipline it can be learned and must be earned
