Socialization to Old Age Irving Rosow,2024-06-21 The prevailing wisdom in gerontology is that people routinely adjust to old age just as they adjust to earlier life stages But aging presents unusual circumstances and the transition processes that typify earlier passages fail to operate in the customary way The reasons for this are the subject of this book Its basic thesis is clear unlike other status changes in American life people are not effectively socialized to old age Irving Rosow shows that there is virtually no role for the elderly the norms for them are weak and they are subject to negligible socializing forces He argues that America has only a minor stake in older people and their place in society almost certainly because of the reduced responsibilities of the elderly and the limited consequences of their actions Rosow considers solutions in the form of alternatives for socialization within our present institutional structure This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 Television Families William Douglas,2003-02-26 This volume examines the analysis that was designed to map the development of the television family and assess its current state and at the same time to provide insight into the tangled relationships between fictional and real family life In order to do this the investigation examines the evolution of the American family paying special attention to the postwar family which is not only used recurrently as a benchmark for assessing the performance of modern families but also constituted television s first generation of families The investigation also traces the evolution of the popular family in vaudeville comics and radio However the primary focus of the examination is the development of the television family from families such as the Nelsons Andersons and Cleavers to more contemporary families such as the Huxtables Conners and Taylors The unit of analysis for the investigation is the relationship rather than the individual Hence the book deals with the portrayal of spousal parent child and sibling relationships and how those portrayals differ across time and across groups defined by ethnicity gender and age Moreover the relational analysis is expansive so that television family relationships are examined in regard to power and affect performance and satisfaction and stability Television Families

provides a thorough summary and critical review of extant research designed to promote informed classroom discussion At the same time it advances a number of hypotheses and recommendations and as such is intended to influence subsequent theory and research in the area The book is intended for senior undergraduate students graduate students and television and family researchers *The Country Newspaper* Malcolm Macdonald Willey,1926 *The Curriculum* Franklin Bobbitt,1918
