G. Manning, 2003-05-29 This history of land tenure under the Ptolemies explores the relationship between the new Ptolemaic state and the ancient traditions of landholding and tenure Departing from the traditional emphasis on the Fayyum it offers a coherent framework for understanding the structure of the Ptolemaic state and thus of the economy as a whole Drawing on both Greek and demotic papyri as well as hieroglyphic inscriptions and theories taken from the social sciences Professor Manning argues that the traditional central state despotic model of the Egyptian economy is insufficient The result is a subtler picture of the complex relationship between the demands of the new state and the ancient locally organized social structure of Egypt By revealing the dynamics between central and local power in Egypt the book shows that Ptolemaic economic power ultimately shaped Roman Egyptian social and economic institutions **Egypt : Land of the Pharaohs.
