Epigraphy of Ptolemaic Egypt Alan Bowman, Charles Crowther, 2020-10-06 The Ptolemaic period in Egypt 332-30 BC is one of the most well documented periods of the Hellenistic age in addition to the papyrological record there are more than 600 surviving Greek and Greek Egyptian bilingual and trilingual inscriptions ranging from massive public monuments such as the Rosetta Stone to small private dedications, funerary plaques and metrical epigrams for the deceased. This volume offers a series of detailed studies of the historical and cultural contexts of these important inscriptions and is intended to complement the multi-volume *Corpus of Ptolemaic Inscriptions* edition in which the Greek and Egyptian texts will be presented together for the first time. The subjects discussed in the twelve chapters range widely across a variety of sub-disciplines from advances in new technologies of image capture to the juxtaposition of Greek and Egyptian elements in the layout and iconography of the monuments and the palaeography of the Greek texts to the history of the acquisition and study of the great bilingual decrees voted by the priests of the indigenous Egyptian cults, the introduction of Greek civic administration and communal associations in the cities and villages and the role of the military in monumental commemoration. Particular attention is given to the role of indigenous and Greek religious institutions in Alexandria and the towns and villages of the Nile Delta and Valley in which commemorative dedications to divinities of temples and statues by the monarchs and by private individuals are numerous and prominent. In a period shaped by the interplay between Egyptian and Greek culture, the existence of public and private inscribed monuments was a vital element of dynastic control. The unique insights offered by this thorough examination of the epigraphical landscape of Ptolemaic Egypt are invaluable to understanding the ways in which the Greek immigrant rulers and population established and reinforced their social and cultural dominance of an indigenous population which had its own long established and traditional written and iconographic mode of public and private communication.

**Writing as Material Practice** Kathryn E. Piquette, Ruth D. Whitehouse, 2013-12-18 *Writing as Material Practice* grapples with the issue of writing as a form of material culture in its ancient and more recent manifestations and in the contexts of production and consumption. Fifteen case studies explore the artefactual nature of writing, the ways in which materials, techniques, colour, scale, orientation and visibility inform the creation of inscribed objects and spaces, as well as structure subsequent engagement, perception and meaning-making. Covering a temporal span of some 5000 years from c. 3200 BCE to the present day and ranging in spatial context from the Americas to the Near East, the chapters in this volume bring a variety of perspectives which contribute to both specific and

broader questions of writing materialities The authors also aim to place past graphical systems in their social contexts so they can be understood in relation to the people who created and attributed meaning to writing and associated symbolic modes through a diverse array of individual and wider social practices 1996, [A Companion to Greco-Roman and Late Antique Egypt](#) Katelijn Vandorpe,2019-03-19 An authoritative and multidisciplinary Companion to Egypt during the Greco Roman and Late Antique period With contributions from noted authorities in the field A Companion to Greco Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642 when Arab rule started in the Nile country The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt s inhabitants clearly illustrate this objective The authors put the emphasis on the changes that occurred in the Greco Roman and Late Antique periods as illustrated by such topics as Traditional religious life challenged Governing a country with a past between tradition and innovation and Creative minds in theory and praxis This important resource Discusses how Egypt became part of a globalizing world in Hellenistic Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue dur e development Offers a thematic and multidisciplinary approach to the subject bringing together scholars of different disciplines Contains life portraits in which various aspects and themes of people s daily life in Egypt are discussed Written for academics and students of the Greco Roman and Late Antique Egypt period this Companion offers a guide that is useful for students in the areas of Hellenistic Roman Byzantine and New Testament studies [John Gower, Trilingual Poet](#) Elisabeth M.
